

NORTHERN VACCINATION PROGRAM

PRE-CON 1

These calves will be given the following suggested shots at branding:

1. Modified live IBR-BVD-PI3-BRSV
2. Pasteurella (both types)
3. Clostridial 7 or 8 Way with or without Somnus

PRE-CON 2

Shots given to calves approximately 3-6 weeks prior to weaning:

1. Killed or chemically altered viral containing IBR-BVD-PI3-BRSV
2. Pasteurella (both types)
3. Clostridial 7 or 8 Way with Somnus

PRE-CON 2 PLUS

Two rounds of shots (branding time & 3-6 weeks prior to weaning). Same shots as PRE-CON 2.

PRE-CON 45

These calves are weaned 45 days and had the following shots twice in their lifetime:

1. Modified live IBR-BVD-PI3-BRSV
2. Pasteurella (both types)
3. Clostridial 8 Way with Somnus

PRE-CON 90

These calves are weaned 90 days or more with PRE-CON 2 program.

NORTHERN "ALL NATURAL" PROGRAM

To qualify for the NLVA "All Natural" program the following procedures must be followed:

- Animals have been born and raised from birth in the United States of America
- Animals have received NO: **antibiotics, synthetic hormones, steroids** or **synthetic growth promotants** - To the Producer's knowledge, all animals receiving medication have been identified and removed from the program.
- That the following items have not been used in the production of these animals and that all feedstuff labels have been checked to be sure that feeds used in the production of these animals, contains NO: **antibiotics, ionophores, growth hormones, or animal by-products of any kind.**
