WHITESTONE-KREBS

1780 690th Road • Gordon, NE 69343

Dear Friends and Fellow Cattlemen,

George, Louisa, and I invite you to join us on March 12, 2010 for our Annual Bull and Horse Sale. This year's sale marks a special anniversary for Whitestone-Krebs as we celebrate our 30th Annual Sale. To show our thanks and appreciation for your support of WK genetics over the past three decades, we are pulling out all the stops! Sale day will feature special gifts and prizes, never-before-offered incentives, and most importantly, the very best set of genetics we have ever offered. You don't want to miss it!

As we humbly reflect on the past 30 years, we are proud of the program we have developed at Whitestone-Krebs. Throughout time functional, high-performing cattle with eye-appeal and uniformity have always commanded premium prices. This was true yesterday, it is true today, and will continue to be true long into the future. Three decades of calculated breeding decisions and tough selection standards have allowed us to offer you, our valued customer, a group of reliable and dependable bulls that will leave you a set of sought-after, top quality, high-value calves, no matter the times.

You can count on WK Bulls to deliver...

- Valuable pounds of growth, feeding performance, and carcass quality
- Low-risk, highly proven genetics proven to add thickness and muscle
- Spectacular visual quality, structural soundness, and eye-appeal
- A consistent and uniform calf crop with unmatched value and marketability
- High quality females that are productive, efficient, and profitable

While it is enjoyable to stop and "look in the rear view mirror", it is much more exciting to look ahead toward the future of the beef business. We anxiously look forward to continuing our work of supplying our fellow beef producers with the best genetics we can! The bulls in this catalog represent the very top 50% from over 400 head of bulls born the 2009.

Included in the sale are:

- Over 100 bulls suitable for use on heifers
- An awesome selection of power house growth and performance bulls
- A strong set of Angus x Simmental bulls for that extra shot of heterosis
- 350 head of open, ready-to-breed commercial Angus females...top sand hills quality.
- 70 head of fall-calving commercial Angus females...all bred to BR Midland sons!

But, as always, we invite you to be the judge. Come by anytime and view the cattle before the sale at your convenience. Then, be sure to join us on the evening of March 11th, for a preview of the bulls, a smoked brisket dinner with all the fixin's, and some great fellowship and hospitality. If for any reason you can't make it to the sale, you can still participate, via the internet, on www.cattleusa.com and don't forget our "sight unseen purchase guarantee".

Again, thank you for your taking time out of your busy schedule to inspect our offering. Please call if we can be of any further assistance. Hope to see you on sale day!

Respectfully,

Eldon

- Never before in The history of Whitestone-Krebs, have we offered a bull this young as a sale feature. But, take a look for yourself and we think you will understand why we have chosen to do so... bulls like WK George don't come along every day.
- This bull is perfectly suited for today's Angus industry offering phenomenal phenotype, a highly proven pedigree, impeccable individual performance, and curve bending EPD data.
- WK George is a maternal brother to the \$300,000.00 valued sire, Hammer. We have only scratched the surface of the genetic potential held by their powerful dam, Belmont Lady, who serves as a donor for Whitestone-Krebs and Kiamichi Link, in

Oklahoma. She is truly a great one, and you will be hearing much, much more about her and her progeny in the future.

- WK George will be used in the AI and embryo program of Whitestone-Krebs and Kiamichi Link in the 2010 breeding season.
- WK George is much more than a sale feature... he represents rare opportunity to be part of a sire with the potential to be a game changer for programs across the nation.

TOY is a grey gelding that only stand 14 hands tall. This might be as broke of a gelding as there is. Absolutely a perfect youth horse, he will do anything you ask, and is extremely cowy, and will still be your friend at the end of the day. John Weston and Vernon Hare have used him at the Bull Stud, bringing bull back and forth for collection. He is sure footed and is the right size for opening gates!! Grandpa's take a look here – you won't find one like him for the grandkids and you!!

We want the opportunity to earn your business!

It has been said "The only thing constant in this world is change". The ability of cattlemen to adapt to change is vital for the long-term survival of any ranch. So, if we are to remain, we must develop smart and innovative strategies to keep our respective operations profitable. There's no doubt, one of the best ways to keep your bottom line "in the black" is through proper bull selection. Is time for you to make a change in your operation? If it is, then we respectfully ask you consider genetics from Whitestone-Krebs...and here's why...

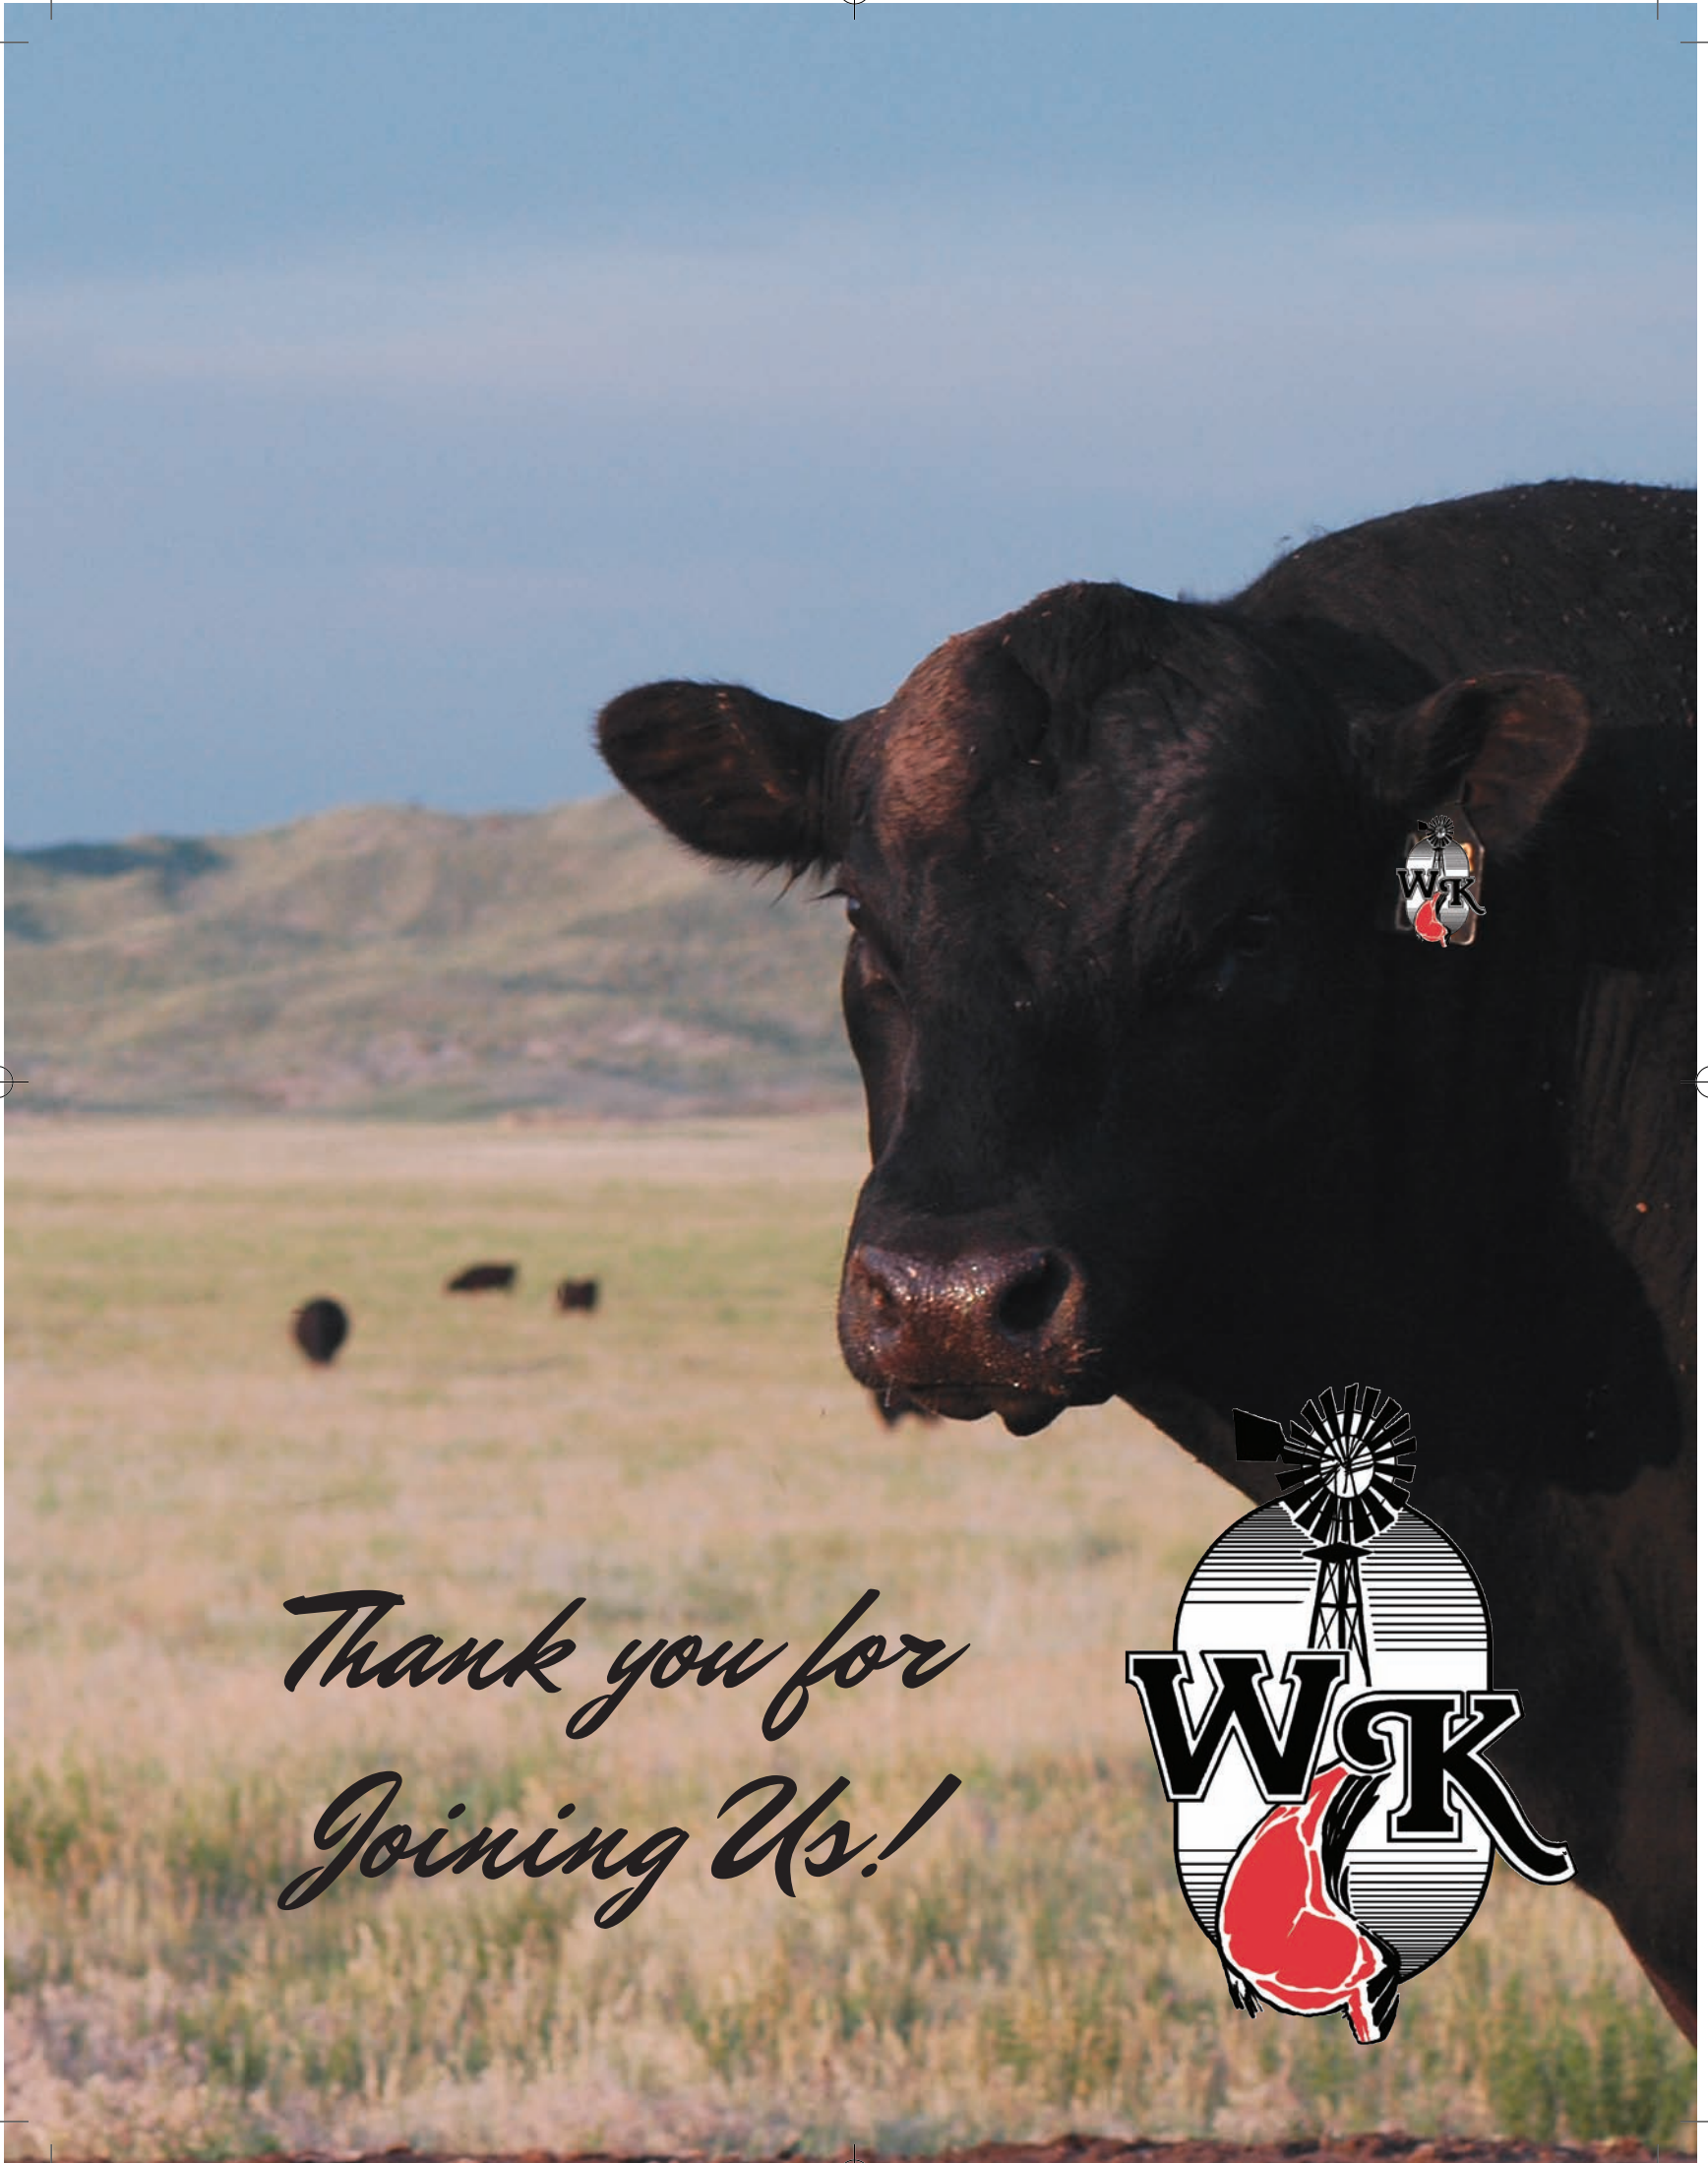

1. *WK Bulls Sire More Pounds, which Equals More Money in Your Pocket.* If you sell cattle by the pound, the cheapest and most cost effective way to increase the amount of beef that you market from your next calf crop is to select bulls with improved growth genetics. For generations, WK bulls have been bred and selected for their ability to transmit superior muscling and performance into their progeny. WK bulls will give your cattle the extra length, muscle, and pounds that your customers are looking for! Closely analyze the growth genetics offered in this group of bulls and you will quickly find that we have absolutely loaded this sale with bulls that achieved scale-busting weaning and yearling weights. Look at the bulls and evaluate at the data; I think you will agree that these are big, stout bulls that will sire pounds!

2. *WK Bulls Help you to Create A Value Added Product.* Whether you merchandise your cattle privately, at a sale barn, or on the video, more and more of today's buyers are demanding a value-added product. Premiums are paid for cattle that are weaned, pre-conditioned, and source verified. When you use bulls from Whitestone Krebs, you label your calves with a brand that is respected by cattlemen from across the country. You create value by giving your buyers the piece of mind that comes from knowing that their purchase is backed not only by you, but also by premium Whitestone-Krebs genetics. It's a fact, that the most expensive thing you can do in the cattle business today, is breed your cows to a generic bull. Instead, use bulls with the strong WK reputation behind them. It is a sure shot way to create and capture value!

3. *WK Bulls are Backed by 30 Years of Dependable Customer Service.*

It seems like more and more these days; bull sales are here today-and gone tomorrow. Will your bull supplier be there when you need them? When you choose to do business with Whitestone Krebs, you never have to ask that question. Whitestone Krebs is a trusted and dependable program that has been around for over 30 years. Rest assured that we are never more than a phone call away, and our crew is eager to provide you with the kind of high-quality customer service that you expect and deserve.

Thank you for your consideration of WK Genetics!
