Welcome Fellow Producers!

Linda and I, along with our entire family would like to welcome you all to our 12th Annual Montana Angus Female Bonanza Sale.

In the offering this year, we will be selling 1620 bred heifers that are AI'd predominately to Connealy Countdown and Sitz Conformation. These two bulls are undoubtedly two of the up and coming superstars in the Angus breed. They not only have calving ease, they have look & performance plus great momma cows behind them.

In addition, we will also be selling 727 pasture bred heifers, sorted into tight calving groups, all bred to top, low birthweight Vermilion Angus bulls.

As always, a real feature in the sale will be the 1975 2 coming 3 year olds and 277 4 to 7 year old cows also bred to top, high performing Vermilion Ranch Angus bulls.

Our entire family has been very blessed to have the opportunity to grow up not only in the purebred industry, but we have been very involved in the feeding and merchandising of feeder cattle and replacement type cattle.

Our philosophy and our PROGRAM from the very beginning twelve years ago has been to breed high quality Angus females to top quality Angus bulls that are bred alike, that have some look, performance and maternal momma cows behind them. Over the years we have come to believe if we were going to be successful, not only in breeding cattle but also merchandising and feeding cattle, our cattle have to reflect this philosophy. We're proud that this offering of females represents our program in every way.

All the females have been ultrasound preg tested by Dr. Ralph Miller, the best in the business. This will be the largest volume of high quality Angus females in America to sell that have been sexed and sorted into short day calving groups. There are two huge advantages to buying sexed females in tight calving groups: Number 1, you have a very uniform calf crop and Number 2, and most importantly, your breed-up on these females the following year should be substantially higher than a set of females that calve for 60 days.

There are so many people that Linda and I would like to thank that makes this sale and program happen. We sure want to thank all our kids and their spouses, our nephews, nieces, brother and sisters, the entire Kading family and Bob and Susie Young for their support, sweat and efforts they have given us. Also, we couldn't operate without Merrill and Kathleen Ostrum and their crew. (I've run cattle with Merrill since I was a freshman in high school.) Then there is Ralph and Candace Miller and J.D. Vukonich at the White Sulphur Unit along with Juanita, Turk and Jenny Stovall and their entire crew and finally, Hugh and Jerrid Broadus and their family on the Colstrip units. All these folks put their heart and soul into making the Montana Angus Female Bonanza successful.

As always, we stand behind these females 100%. If you have problems, let me know and we'll make it right.

Thanks so much for your interest. We are truly proud of this set of females.

Sincerely,

Joe & Linda & Family
