Welcome Fellow Producers!

Linda and I, along with our entire family would like to welcome you all to our 13th Annual Montana Angus Female Bonanza Sale.

In the offering this year, we will be selling 1678 bred heifers that are AI'd predominately to Connealy Countdown and Sitz Conformation. These two bulls are undoubtedly two of the up and coming superstars in the Angus breed. They not only have calving ease, they have look and performance plus great momma cows behind them.

In addition, we will also be selling 588 pasture bred heifers, sorted into tight calving groups. They are all bred to top low birthweight half brother Connealy Countdown sons purchased from Vermilion Ranch.

As always, a real feature in the sale will be the 2528 two coming three year olds of which just under 500 head are AI bred to Connealy Spur and SAV Privilege. The remaining 2064 two's and 209 three's are pasture bred to high performing Vermilion Ranch Angus bulls. They are sorted into short day calving groups.

Our entire family has been very blessed to have the opportunity to grow up not only in the purebred industry, but we have been very involved in the feeding and merchandising of feeder cattle and replacement type cattle.

Our philosophy and our PROGRAM from the very beginning thirteen years ago has been to breed high quality Angus females to top quality Angus bulls that are bred alike, that have some look, performance and maternal momma cows behind them. Over the years we have come to believe if we were going to be successful not only in breeding cattle but also merchandising and feeding cattle, our cattle have to reflect this philosophy. We're proud that this offering of females represents our program in every way.

All of the females have been ultrasound preg tested by Dr. Ralph Miller, the best in the business. This will be the largest volume of high quality Angus females in America to sell that have been sexed and sorted into short day calving groups. There are two huge advantages to buying sexed females in tight calving groups: Number 1, you have a very uniform calf crop and Number 2, and most importantly, your breed-up on these females the following year should be substantially higher than a set of females that calve for 60 days.

There are so many people that Linda and I would like to thank that makes this sale and program happen. We sure want to thank all our kids and their spouses, our nephews, nieces, brother and sisters, the entire Kading family and Bob and Susie Young for their support, sweat and efforts they have given us. Also, we couldn't operate without Merrill and Kathleen Ostrum and their crew. Then there is Ralph and Candace Miller and J.D. Vukonich at the White Sulphur Unit along with Juanita, Turk and Jenny Stovall and their entire crew and finally, Hugh and Jerrid Broadus and their family on the Colstrip units. All these folks put their heart and soul into making the Montana Angus Female Bonanza sale successful.

As always, we stand behind these females 100%. If you have problems, let me know and we'll make it right.

Thanks so much for your interest. We are truly proud of this set of females.

Sincerely,

Joe & Linda & Family

- AI Bred to 1407 Head
- All bulls used to pasture breed heifers are half brother sons of Countdown

COUNTDOWN is proving himself as one of the elite calving ease bulls of the Angus breed. His calves come light, early, and have a whole lot of “get up and go” at birth. They are very uniform in their kind and makeup and best of all, they have a lot of grow and performance in them. No question, **COUNTDOWN** is the best calving ease bull we have ever used at the Vermilion Ranch.

- AI Bred to 272 Head

CONFORMATION was the high selling bull out of the Fall 2014 Sitz Angus Sale. He was named very appropriately as he is phenotypically flawless. His first set of calves came light and displayed a lot of shape and muscle. We are going to use a lot of his service in the Vermilion Ranch program.

- AI Bred to 360 2 coming 3's

SPUR has proven himself as one of the great breeding bulls ever used in the Vermilion program. We call him our "All-Purpose" sire. His calves are moderate at birth, outstanding performance and maternal, with superior carcass traits, and best of all, FANTASTIC disposition. **SPUR** and his calves are GENTLE, GENTLE!

- AI Bred to 104 2 Coming 3's

PRIVILEGE has quickly proven himself in the Vermilion program as a big time herd sire. His offspring are very uniform in their kind with superior body shape. They display a whole lot of breed character! Privilege's mother is a full sister to the great SAV Resource. She has gone on to prove herself as one of the best young cows in the SAV program. **PRIVILEGE** will continue to make his mark on the Vermilion program.
