Ellingson Angus

2021

Real-World Genetics

ANNUAL PRODUCTION SALE

1 pm CT • Saturday, Feb. 6, 2021 At the Ranch • St. Anthony, ND

Welcome!

We invite you to our annual production sale and welcome you to come visit any time prior to sale day to evaluate the offering and the cowherd responsible for it. We appreciate visiting with each of you individually so we can match you up with the bulls that will most closely satisfy your genetic goals and management situations. We realize the need for different bulls in different places. That is why we visit many customers during the year to more clearly understand everyone's needs.

We are excited for you to see some new sire groups. Ellingson Three Rivers and Ellingson Rider Pride have caught the attention of producers around the world. Three Rivers progeny have as much performance as we have ever achieved out of a sire. If you want more pounds on sale day, consider implementing his genetics into your program. Rider Pride will also make his debut in the sale with multiple sons. His progeny have been the favorites of many ranch visitors last summer and fall. His daughters have as much cow look as we have ever seen in yearling heifers. Besides the Rider Pride sons, multiple maternal brothers will highlight the offering.

While 2020 had many challenges, it also included several highlights. We had numerous comments from customers on the successes they have had with our genetics. We are humbled to hear about the replacement females that are making top range cows and those topping replacement sales. It is also exciting to see many customers' steers bringing premiums at the sale barn, on the video auction or on harvest day when they are sold on the grid. These success stories stoke our drive to provide genetics that will make a positive financial contribution for those who invest in the Ellingson Angus program.

We continue to mass multiply our top cows that have proven themselves for generations. This gives you multiple opportunities to purchase out of our top cows and to choose from many full and half-brothers for a more consistent calfcrop.

In an ongoing commitment to customer service, we have expanded marketing opportunities for Ellingson Angus customers. We continue to grow the commercial division of our sale to highlight females sired by Ellingson Angus bulls from our customers. We also continue to purchase numerous customers' females for the Maternal Solutions program we operate with Topp Herefords. On the feeder calf side, we have helped market more feeder cattle this year than ever before. No matter if those cattle are sold at the sale barn, through a video auction or directly off the ranch, we hope the Ellingson Angus influence and our efforts to connect you to buyers have put more dollars in your pockets. We also recently opened up some new opportunities for those with certified natural calves through our partnership in the Missouri River Cattle Coalition.

We take our role as an Angus breeder seriously. It is not simply a task of replicating popular bloodlines, but, rather, breeding cattle poised to make a profit for our customers. It involves testing our genetics, sorting thousands of feeder calves, evaluating commercial cowherds and collecting as much data as we can. Our whole-herd enrollment in the MaternalPlus™ program is one data collection tool. To us, collecting fertility, production and longevity data is essential in order to produce top-quality maternal genetics. That's also the reason all the bulls in this offering are genomics tested and parent verified.

You have many choices when it comes to bull suppliers. That's why we want your bull-purchasing experience at Ellingson Angus to be much more than simply buying a bull. We want it to be the start of a long-term relationship with us and an investment that will enhance your cowherd and your bottomline.

Thanks for your interest in our program. If we can answer any questions for you, don't hesitate to reach out to us.

Sincerely,

Chad Ellingson

Ellingson Angus
ANNUAL PRODUCTION SALE

Saturday, Feb. 6, 2021

Lunch at 11:30 a.m. CT • Sale at 1 p.m. CT • At the Ranch • St. Anthony, ND

Sale-Day Phones
Office: (701) 445-7309 or (701) 445-7300
Chad's cell: (701) 361-3606 • Julie's cell: (701) 214-7709
Stetson's cell: (701) 595-1364 • Jameson's cell: (701) 226-8645

Sale Location
The sale will be held at our ranch sale facility near St. Anthony, N.D., located approximately 30 miles from Bismarck/Mandan, N.D. From Mandan, go 19 miles south on Highway 6 until County Road 135. There, turn left (east) and follow the gravel road for 5 miles to the ranch and sale site.

Lodging
A block of rooms has been reserved at the Ramkota Hotel in Bismarck for $99 plus tax. To make reservations, call (701) 258-7700 by Jan. 28.

Guarantee
The cattle are guaranteed to be fertile and reproductively sound. All bulls selling come with a first-year breeding-season guarantee against injury or infertility issues. "Breeding season" is defined by the time of turnout to 60 days later. **All bulls will have passed a semen evaluation before being delivered.** If any fertility problems happen during the first breeding season, a replacement bull will be available until the purchased bull's long-term fertility can be determined. If a bull sustains a breeding injury during the first breeding season, a credit on a future bull purchase will be given. If a bull sustains an injury or fertility issue, we ask that it is evaluated and treated immediately by a veterinarian and a report is provided by the veterinarian doing the evaluation. If the vet determines the bull is no longer a fertile and mobile breeder, the following formula will be used to determine credit issued on a future purchase: purchase price - salvage value - $2,500 (if injury related) = credit.

Terms of Sale
Settlement is to be made on sale day. Cattle will not be released until payment is received. All registered animals will be transferred. One-hundred percent revenue-sharing interest is being sold on all bulls with only within-herd semen use being retained.

Volume Discounts
We are offering discounts on volume purchases of bulls. Save 5 percent on five bulls, 10 percent on 10 bulls and 15 percent on 15 bulls.

Photographs
The pictures of the 2021 offering in this catalog were taken Nov. 18-19.

Pat Maher, Commercial Marketing

Rance Long, Sales Consultant

Sight-Unseen Purchases
If you are unable to attend the sale, but wish to place a bid, call the Ellingsons, the auctioneers or any of the sale-day representatives. We will handle your bid like you would. Your satisfaction is guaranteed. Our sale will be broadcast live on **DVAuction** and **Northern Video**. For DV Auction information, contact Justin Dikoff at (605) 290-0635 or jdikoff@dvauction.com. To pre-register for Northern Video, call (866) 616-5035. To bid via the Northern Video bid line, call (406) 245-0889.

Genetic Information
All registered lots in the sale have had an HD 50K test, and the EPDs listed reflect the 50K analysis. The test verifies parentage and increases the predictability of economically important traits. Percentage rankings of all lots will be posted on our website. Lots 196, 198, 199, 200, 204, 206, 210, 211 and 217 carry the double-muscle gene.

Performance Data
The performance data, with the exception of the 365-day weights, has been calculated through the Angus Herd Improvement Records (AHIR) program of the American Angus Association (AAA). These are official numbers from its Sire Summary. At the time of printing, most of the bulls didn't fit the age parameters to process adjusted yearling weights through AHIR. Projected yearling weights noted were calculated using the AAA's yearling weight formula.

Health
Dr. Pat Bierman will be on hand to write health certificates for those requiring them. All cattle have had a complete vaccination program.

Delivery
We are offering free delivery on all bulls to central points in the United States and to Canadian points of entry. For all females, we will help coordinate delivery to get the cattle to you as economically as we can.

Feeding Arrangements for Bulls at No Charge
We are offering free keep on the bulls until April 1, after which time we will start deliveries. If you decide to take your bull home within three days of the sale, we will give you $100 off your bull.

Reference Sire: Rider Pride

We bring you the first Rider Pride progeny to be offered with great anticipation. They have exceeded our expectations in all divisions and have earned the right to lead off the 2021 sale.

As the $110,000 top-selling bull of his calfcrop, Rider Pride dominated his contemporaries for performance, carcass merit and, most of all, phenotype. We incorporated him in our breeding program because of the cows that back him up.

A son of the popular Genex sire Roughrider, he offers many of the same qualities, but with more skeletal size, performance and extension in the front end. Never before have we seen a bull sire females with such a beautiful combination of rib shape, depth of flank, femininity and production presence.

He is owned with Van Zee Cattle Company, Wright Charolais, JW Cattle and Maher Cattle.

There is no better way to lead off the 2021 sale offering than with an individual that puts trait balance front and center like this bull. He exemplifies maternal, performance and phenotypic excellence. You will appreciate how he ties together tremendous center body mass and base width with a sound structural design and a proud stride. He came off his dam weighing 900 pounds and earning a 111 nursing ratio. His donor dam is a member of one of the greatest flushes ever produced on our ranch. His dam and many of her flush and maternal sisters have already been enrolled as donors here. She records an impressive nursing ratio of 2/111 and has settled to first-service A.I. every year of her production career. She is a direct daughter of the $35,000 pick of the cowherd in 2020, EA Bells Girl 2181, now owned by Ingram Angus. A flush brother, Ellingson Advance 7638, was Raven Angus' $15,000 selection in our 2018 sale. Lot 1 is a full brother in blood to Lot 2.

Lot 1, Ellingson Rider Pride 0285.

Ellingson Advance 7638, a flush brother to the dams of Lots 1 and 2.

EA Bells Girl 2181, the maternal granddam of Lots 1 and 2.

Lot 2, Ellingson Rider Pride 0290.

Dam's Nursing Ratio: 2/111 *CLAW:* +.46 *ANGLE:* +.36

Ellingson Rider Pride 0290 comes from the increasingly popular Bells Girl 2181 lineage. His performance resume is second to none. He ranks in the elite top 1 percent for weaning and yearling weight EPDs and has an impressive phenotypic package and an abundance of softness, center rib and stoutness. He weaned off his dam at 935 pounds and earned an outstanding weaning ratio of 115. His impressive Advance dam boasts superior udder and foot quality, femininity and fleshing ability, all in a realistic mature size. She has a nursing ratio of 2/111 and has settled to first-service A.I. every year. Lot 2's maternal sister by Homegrown is a standout female in our bred heifer pen and is due for an early first-cycle calf. He is a full brother in blood to Lot 1.

Ellingson Rider Pride 0440 is another impressive individual resulting from the Rider Pride x Advance mating that has generated cattle designed for profitability. You will appreciate Lot 3's beef-bull look, explosive rib shape and raw power. His dam by Advance always brings home one of the top calves each fall and has a nursing ratio of 5/106. She is a maternal sister to the $30,000 Ellingson Secretary 2011 at Accelerated Genetics. Maternal brothers include the $25,000 Ellingson Roughrider 7256 working for Arntzen Angus and the $16,500 Ellingson Revival 9500 working for TK Ranch and Shaggy Meadows Red Angus. Another maternal brother is working for Estevold Ranch.

Ellingson Rider Pride 0276 is a light-birthweight Rider Pride son that can be utilized on virgin heifers. His modest frame score, added depth and softness and flawless structural build should allow him to sire efficient, productive daughters. He has the backing of Rider Pride, Advance, Territory, Traveler 004, EXT 6106 and Bushwacker within his immediate lineage – bulls that have proven themselves as superior cowmakers. Lot 4's maternal brother, Ellingson Hometown 7173, was the $12,000 selection of Alleman Land and Livestock in our 2018 sale.

Dam's Nursing Ratio: 4/103 *CLAW:* +.48 *ANGLE:* +.49

Ellingson Rider Pride 0177 is a unique individual that has proven himself in multiple areas critical to make a positive impact on the beef industry. You will appreciate his power, muscular dimension and polished, smooth-designed and soft-made package. Rarely do you find a numerical curvebender that is as attractive as this bull. His powerhouse dam by Advance is a direct daughter of the longtime donor EA Blackbird 3086 that reigns from the same lineage that produced the $80,000 Ellingson Scotsman 0010 at Select Sires. His dam recorded a production birth ratio of 4/93, a nursing ratio of 4/103, a yearling ratio of 2/102, an IMF ratio of 1/114 and a ribeye ratio of 1/104 and has settled to A.I. every year. His maternal sister was featured in the Diamond Selections Sale in 2017 and was selected by Allee Cattle Company. Another maternal sister is a foundational female in the Eaves Angus Genetics herd.

Ellingson Rider Pride 0343 is one of the deepest sided bulls that will be offered in the sale. He packs a performance punch in a correct-size package that should be adaptable to almost any climate or topography. His outcross pedigree should provide mating flexibility to produce a new and elite generation of cattle. He is backed by four generations of Ellingson-born-and-bred sires. He earned an impressive nursing ratio of 110 coming across the scale this fall. His granddam serves in our donor program and is a maternal sister to the Potts Brothers Angus and Precise Cattle herdsire Ellingson Smokin' Gun 8245. His great-granddam was also a longtime donor that sold to Ingram Angus for $22,500 in 2019.

Here is an elite performance individual with breed-leading carcass and index values. You will appreciate the depth of flank and internal dimension he possesses. His dam is a maternal sister to the $42,000 Ellingson Format 2205 that was the top-selling bull in our 2013 sale, selling to Alta Genetics. Format leads all proven sires in the breed for foot angle and claw set EPDs. Lot 11 earned a commanding weaning ratio of 111 this fall. A maternal brother by Roughrider was selected by the Allan and Lisa Howard family in our 2020 production sale.

Left: The Allan and Lisa Howard family owns a maternal brother to Lot 11.

Right: Rhein Valley Farms selected a maternal brother to Lot 10 in our 2020 sale.

Dam's Nursing Ratio: 6/106 *CLAW:* +.45 *ANGLE:* +.44

Ellingson Rider Pride 0058 has a commanding herdbull presence that astute cattle producers will certainly not have a difficult time seeing. He is one of our favorites – and for good reason. His unique blending of elite performance, phenotypic design, numerical verification and cow power is a rare find. His power and true dimension are blended tremendously well into a sound-structured, soft-middled package with added size and length. He weaned off his dam this fall at a remarkable 1,020 pounds and earned a nursing ratio of 116. His dam posts a nursing ratio of 6/106, a yearling ratio of 3/108, an IMF ratio of 5/108 and a ribeye ratio of 5/106 and has a 365-day calving interval, having settled to first-service A.I. every year of her production career. Lot 12's maternal brother by Roughrider was a featured individual in last year's sale and was selected by Knapp Ranch. Lot 12's outcross lineage should make him employable with most popular lines of Angus cattle today.

This is a boldly sprung individual from a dam that excels in the fundamental traits that make commercial cattle producers profitable. She records a birth ratio of 2/99 and a nursing ratio of 2/107 and has settled to first-service A.I. every year. If traits like fleshing ability, doability, structural soundness, calf vigor and fertility are important to you, take a close look here. His maternal sister was a feature in last year's sale and selected by SNB Enterprises and Arrowsmith Red Angus.

Here is a soft-bodied bull backed by a strong maternal heritage. He is a maternal brother to the $20,000 Ellingson Icon 5062 at Alta Genetics, a sire we've used abundantly on heifers because of his ability to sire calving ease, calf vigor and, best of all, superior, blue-collar, Angus females. Other maternal brothers are working for Black Farm and Ranch, Derek and Chip Long and Jim Goetz.

Lot 17 is one of the top performers of his sire group. Undoubtedly, he will inject a substantial level of performance in just one generation to make your next load of feeder calves worth more. His Pathfinder dam has made a name for herself as an elite producer. She is the mother of the $30,000 Ellingson Rough Terrain 9136 working for Northway Cattle Company and the grandmother of the $45,000 Ellingson Aquifer 9137 purchased by Rust Mountain View Ranch and leased to the Breeder Link A.I. stud. He weaned at 950 pounds with a 109 weaning ratio.

Ellingson Rider Pride 0118 is one of our favorites. He provides a perfect blending of real-world performance and pounds with superior cow-making and fundamental traits essential to keep us efficient in our daily operations. He is uniquely linebred to a superior maternal sire, Ellingson Bandwagon 1053. He weaned off his dam at 930 pounds and earned a notable 107 weaning ratio. His dam records a nursing ratio of 5/105, a yearling ratio of 3/109, an IMF ratio of 3/102 and a ribeye ratio of 3/114 and has settled to first-service A.I. every year of her production career. Maternal brothers have highlighted our past production sales and have been selected by Jon and Julie DeKrey, Scott Simenson and Barry Steffan.

This calving-ease Rider Pride son was a favorite by many who saw him alongside his mother on pasture this summer. His modest-sized mother has tons of rib shape, yet is still feminine and has nearly flawless foot and udder structure. Dressler Ranch bought a maternal brother last year.

Reference Sire: Three Rivers

Three Rivers was the lead-off bull of our 2019 sale. He rewrote nearly all performance records and still owns them today. His large first calfcrop has solidified his potent breeding power. His sons have an appetite for gain that we have never seen before.

He will add legitimate pounds and power to your next load of feeder calves. Many of his sons should add length of body, shape, dimension, circumference of bone and a rugged look. He is the no. 1 bull in the breed for weaning and yearling performance. We have high expectations for the Three-Rivers-sired steers that went on feed this fall.

His donor dam is a modest-sized Chaps daughter with abundant rib shape, a strong udder attachment, ideal teat size and near-perfect foot shape.

He is owned with Ham Ranch, Boettcher Angus and Alta Genetics.

Lot 33 is an outstanding way to introduce the first sons to ever be offered by Ellingson Three Rivers 8062, our 2020 sale lead-off bull. Lot 33 displays tremendous power and mass packed into a bold-middled, sharp-fronted package. His phenotypic prominence, outstanding performance resume and second-to-none maternal heritage make him a strong herdsire prospect that should be considered by every program. His donor dam has risen to become one of the top females in our herd. She is a maternal sister to the $23,000 Ellingson Consistent 6235 that was purchased by Arntzen Angus in 2017 and is now a part of the Breeder Link sire lineup. Two of Lot 33's maternal brothers have been features in our past production sales, including Ellingson Homestead 8181, an $18,000 lot in 2019. Three of his maternal sisters have been retained in our herd.

Lot 33, Ellingson Three Rivers 0262.

EA Primrose 5083, Lot 33's dam.

Ellingson Consistent 6235, a maternal brother to Lot 33's dam.

Ellingson Three Rivers 0019 is one of our favorites of the offering. He balances some of the most economically relevant traits to commercial cattle producers who sell their calves by the pound and expect their cowherd to thrive without being pampered. He weaned off his dam at 995 pounds and earned a 114 nursing ratio. His dam ranks as one of the top young cows in our herd. She is one you will more than appreciate for her stunning eye appeal, softness, angularity and near-perfect udder and foot structure. You will even appreciate her more for having a production birth ratio of 3/93, a nursing ratio of 3/109, a yearling ratio of 2/104, an IMF ratio of 1/122, a ribeye ratio of 1/105 and a calving interval of 361 days, having settled to first-service A.I. every year of her production career. Lot 34's two maternal sisters have both been retained in our cowherd and are some of the most elite young females on the ranch.

Lot 34, Ellingson Three Rivers 0019.

This is a powerhouse pair of flush brothers that should find many friends on sale day. Lot 35 earned the top actual and 205-day adjusted weaning weight of any bull in the offering, a feat not easily accomplished. Both these bulls boast tremendous performance, power, explosive body capacity and fluent structural soundness. Best of all, their donor dam, EA Blackcap 4053, is one of the top females on the ranch and has earned Pathfinder status with a production birth ratio of 5/97, a nursing ratio of 5/107 and a yearling ratio of 3/102. Their maternal brother, Ellingson Homestead 8202, was the $22,000 Lot 1 bull in our 2019 production sale. Other maternal brothers are working for Marty Buseman and Harris Ranch, while seven of their maternal sisters have been retained in our cowherd. ***Lots 35 and 36 are flush brothers.***

Lots 37-42 comprise the stoutest set of flush brothers we have ever produced. From the first bull to the last, they are as deep of a set of brothers as you will find anywhere. Each has posted a top-performance resume and combines impressive stoutness and center body capacity into a smooth-made, fluent-tracking and level-hipped design. This flush includes Lot 41, the second heaviest actual weaning weight bull on the ranch at 1,065 pounds. The average nursing ratio of this 12-member flush (these bulls and their heifermates) is a whopping 109.5. Their dam is one of our up-and-coming females. She has a nursing ratio of 4/104, a yearling ratio of 2/104, an IMF ratio of 2/123, a ribeye ratio of 2/104 and a calving interval of 365 days, having settled to first-service A.I. every year of her production career. She is a modest-sized female that fleshes easily, but is feminine, and has top-tier foot and leg structure and a picture-perfect udder. Maternal brothers have been past sale features, going to Ottmar Ranch and Diede Ranch. ***Lots 37-42 are flush brothers.***

Ellingson Three Rivers 0244 is another successful result of the Three Rivers x Advance pairing that many will appreciate. This bull posted a nursing ratio of 115 after walking across the scale at 985 pounds this past fall. If you want to increase weaning and yearling performance and have an appetite for gain in your feeder calves, Lot 43 is the kind of herdsire prospect that can jumpstart those objectives. His productive dam by Advance is a maternal sister to the $50,000 Ellingson Versatile and the $45,000 Ellingson Revolution 1047. A maternal brother was selected by Roger Aberle in our 2019 production sale.

Ellingson Three Rivers 0215 provides a lighter birthweight than most of his brothers, yet still has tremendous performance figures, ranking in the top 2 percent of the breed for both weaning and yearling weight EPDs. His dam records a production birth ratio of 2/93 and a nursing ratio of 2/104 and has settled to first-service A.I. every year so far. His maternal sister is retained in our bred heifer replacement pen and is due for an early first-cycle calf.

"Many of life's failures are those who didn't realize how close they were to success when they gave up."

Those who seek substance, muscle, growth and cow power will have little trouble finding Lot 46. He and his dam were a sight to see this summer – a true showing of maternal performance and efficiency. His young dam and granddam have joined our donor club. His modest-framed, superior-uddered mother has as much rib shape as any cow here and is very gentle. With a nursing ratio of 2/107 and having bred to first-cycle A.I. all three years, she is on a fast track to Path-finder status. His granddam is the mother of the featured Lot 192 in this sale. A maternal sister is one of our favorites in the bred heifer pen.

We welcome you to come and appraise the sale offering and the mothers behind the bulls.

Ellingson Three Rivers 0252 is the no. 1 weaning weight and yearling weight EPD bull in the entire sale, ranking amongst the elite in the entire Angus breed. He was one of the heaviest weaning bulls of the entire natural-born calfcrop, coming off his Bandwagon dam at 1,030 pounds and earning a 112 weaning ratio. His pedigree certainly needs no introduction, as he comes out of the same dam that produced the $110,000 Ellingson Rider Pride 7282, a sire rapidly gaining popularity. His dam is, without question, one of the top cows on the ranch. She has recorded a production birth ratio of 6/100, a nursing ratio of 6/110, a yearling ratio of 3/112, an IMF ratio of 4/102 and a ribeye ratio of 4/103. Other maternal brothers are working for Katus X7 Ranch, Tracy Hoherz and Eaves Angus Genetics, while four maternal sisters have been retained in our own herd. He is a three-quarter brother to Lot 51.

Ellingson Three Rivers 0013 is one of the true curvebenders in the sale offering. He should be suitable for use on virgin heifers, but still can compete with the front end of any performance pen of bulls. He started out with a birth ratio of 92 and came off his recipient dam at 970 pounds and earned a nursing ratio of 110. His Territory dam serves on our donor roster and is a maternal sister to EA Primrose 9155, another longtime donor and the dam of Ellingson Drover and Ellingson Frontiersman. EA Primrose 2118 has recorded a production nursing ratio of 7/103, a yearling ratio of 1/110, an IMF ratio of 3/111 and a ribeye ratio of 3/100. Maternal brothers are working for John and Amy Lord, Castle Butte Angus, Jacobs Ranch and Robert Leintz. His maternal brother by Ellingson Rider Pride also sells as Lot 23 in this production sale.

Ellingson Sagebrush 6234, Lot 53's maternal brother.

A top performer of his calfcrop, Ellingson Three Rivers 0065 possesses bone, width, center rib and pounds that are second to none. He pounded down the scales at 1,030 pounds coming off his dam this fall and earned a weaning ratio of 119 as one of the heaviest bulls of the natural-born calfcrop. His dam has recorded a nursing ratio of 3/112, a yearling ratio of 2/101 and an IMF ratio of 2/131 and has a calving interval of 361 days, having settled to first-service A.I. every year of her production career. She is a maternal sister to the dam of the Peak Dot Cattle and E/T Cattle herdsire Ellingson Proposition 7103. A maternal brother was selected by Penhros Farms in our 2019 production sale.

Nothing makes our hearts happier than seeing the sparkle in the eyes of young beef enthusiasts like these kiddos. Our goal is to raise cattle that will make you profitable and make a positive impact so this generation can pick up the baton and be successful in the cattle business too.

Ellingson Three Rivers 0299 is another scale-pounder. He has the genetic merit to compete with the most elite for weaning and yearling performance, yet still has the structural soundness, body type and cow power in his lineage to be a mainstay contributor in any breeding program. He weaned off his Final Answer dam at 990 pounds and earned a nursing ratio of 118. His broody dam is one of the best Final Answers to ever walk our pastures and has flawless foot and udder quality. Lot 58's granddam is a model of longevity, entering her 13th year of life this spring and still as productive as ever. Lot 58's maternal brothers are working for Jon Hansen and Tracy Hoherz.

Here is a set of eight flush brothers designed to add pounds and appetite for gain in your calves. If you appreciate added size and length, look no further. When selling feeder calves or replacement heifers, more times than not, consistency is one of the driving factor in what they bring. What better way to produce consistent quality in volume than purchasing a slug of full ET brothers? Their Pathfinder donor dam has a production birth ratio of 7/100, a nursing ratio of 7/104, a yearling ratio of 5/102 and a ribeye ratio of 4/107. Maternal brothers have been selected by McPherson Angus, Tuhy Ranch, Waldock Ranch and Larry and Darlene Ulrich, while three maternal sisters are currently working in our cowherd. A maternal sister was the $19,000 selection of Van Zee Cattle and the top-selling heifer in our 2015 production sale. ***Lots 59-66 are flush brothers.***

Ellingson Three Rivers 0298 is a dense-muscled, high-libido herdsire prospect that should add value for both the performance and maternal gauges of a cowherd. His Pathfinder dam by Wide Butt serves on the Ellingson Angus donor roster and has recorded a nursing ratio of 8/105, a yearling ratio of 5/108 and a ribeye ratio of 13/104. She also has a 365-day calving interval. Lot 81 is a maternal brother to multiple A.I. sires, including the $67,500 Ellingson Ribeye 3195 at Select Sires, the $27,500 Ellingson Chaps 4095 at ABS Global and the $18,000 Ellingson 26 17 Emulous 9147 owned with Sprunk Angus. Other maternal brothers are working for Tyler Messner, 12 Star Ranch, Arnston Ranch and Ham Ranch.

Lot 80, Ellingson Three Rivers 0316.

EA Emblynette 434, Lot 80's great-granddam.

Ellingson Chaps 4095, Lot 81's maternal brother.

EA Blackcap 0360, Lot 81's dam.

Lot 91 reigns from the timeless Everelda Entense cow family and is out of a direct daughter of the Pathfinder sire Alliance 6595. This bull is one of our favorites in his pen, as he has many of the qualities we place a high emphasis on. He came off his dam at 935 pounds and earned a weaning ratio of 108. Sheldon Holte, Stan Schlosser and Allen Stauffenecker own maternal brothers.

The entire Ellingson Angus cowherd is enrolled in the American Angus Association's MaternalPlus™ program.

Reference Sire: Authorize

With his second calfcrop now weaned, Authorize has been proven as an elite curve-bending sire from birth to yearling. His progeny are phenotypically stunning. He consistently sires length of body, top, stifle and athleticism on the move. His calves posted outstanding scores for economically relevant traits through genomics. These scores have been verified with real-world performance data.

He was the $77,500 second-high-selling bull of his calfcrop to ABS, scanning a 17.6-inch ribeye.

The best things about this up-and-coming sire are the females that anchor his pedigree. His dam and granddam both serve as donors.

Authorize is an impressive phenotype sire with strong maternal roots and unmatched curve-bending abilities.

He is owned by ABS Global.

Left: Ellingson Verified, the top-selling Authorize son in our 2020 production sale now featured at Genex CRI.

Ellingson Authorize 0033 is a sleep-all-night heifer bull that pairs calving ease with competitive performance and a maternal pedigree that is second to none. Earning a birth ratio of 90 and a weaning ratio of 109, Lot 92 sharply bent the performance curve. He has as much true top shape and muscle dimension as you will find in a double-digit calving-ease-direct bull. His Chaps dam is a beautifully constructed 2-year-old that not only weaned off a heavy first calf, but bred up for another early first-cycle A.I. calf. His dam is a granddaughter of the $52,000-valued EA Pride 346 donor dam that is best known as the dam of Ellingson Boardwalk 3032 and is, without question, one of the most influential females to ever grace our pastures. With Authorize, Chaps, Alliance 6595, EXT and the Madame Pride cow family in Lot 92's immediate lineage, expect to keep all of his daughters.

This pair of flush brothers has lots of potential moving forward. They offer a new-generation pedigree, yet are rooted in a foundation of proven genetics. Their balance of genotypic and phenotypic prominence is quite unique and should make them both potential A.I. stud candidates. Rarely do you find heifer-safe bulls with the stoutness and body type this pair possesses. Both are big-time performance curvebenders on paper and have backed it up with their raw data. They are maternal brothers to the popular $110,000 top-selling bull in our 2018 sale, Ellingson Rider Pride 7282. Their donor dam has recorded a production birth ratio of 6/100, a nursing ratio of 6/110, a yearling ratio of 3/112, an IMF ratio of 4/102 and a ribeye ratio of 4/103 and has a 355-day calving interval. Other maternal brothers have been selected by Katus X7 Ranch, Eaves Angus Genetics and Tracy Hoherz. Four maternal sisters are working in our cowherd. ***Lots 93 and 94 are flush brothers.***

This trio of fall-born Authorize flush brothers is one progressive commercial cattle producers who sell their calves by the pound will certainly rave about. These bulls are all sure to add payweight, size and length to your next load of feeder calves. Their impressive donor dam by Ellingson Plateau 1155 features as many progeny in this sale as any female on the entire ranch, which is a strong testament to her high fertility and elite status. She is a direct daughter of the $30,000 EA Hyalite Lady 1333 donor at Ingram Angus and a maternal sister to the $28,000 Ellingson Transcend 5212 and the $16,000 Ellingson Regiment 6362. Maternal brothers are also working for Jim and Jody Miller, Ham Ranch, Roger Aberle and Gottsch Cattle Company. ***Lots 104-106 are flush brothers.***

This is one of our favorite sets of flush brothers in the offering. They exhibit added width, muscle expression and the right level of performance to sire heavy feeder calves, yet still make daughters that will be fertile and easy fleshing and raise heavy calves. Their Pathfinder dam is a daughter of Tehama Blackcap Revolution and has recorded a nursing ratio of 7/104, a yearling ratio of 4/105, an IMF ratio of 4/109, a ribeye ratio of 4/110 and a calving interval of 365 days. She is the perfect blending of power, doability and function with superior production. ***Lots 107-109 are flush brothers.***

Lot 116 was one of the heaviest weaning weight bulls of the natural-born calfcrop with a 121 ratio and a 1,030-pound weaning weight. His Net Worth dam is 12 and a model of longevity. She has an impressive nursing ratio of 8/105.

Reference Sire: Homegrown

Homegrown is making a mark on the Angus breed, and some of the most progressive producers are using him. We have used Homegrown with great success on virgin heifers in both the purebred and commercial sectors of our operation. His sons will perpetuate tremendous depth of body and width and ideal growth curves.

He and his progeny are some of the soundest structured and best-footed cattle you'll find. He is a breed leader for foot angle and claw set EPDs.

He is also an elite fertility sire, ranking as one of the top PregCheck-score sires at Genex. His semen has produced outstanding conception results through A.I. and embryo transfer here.

He is owned with Mohnen Angus and Genex CRI.

Left: Ellingson Practical 9122, a Homegrown son selected by Weers Angus and featured at Breeder Link.

Ellingson Homegrown 0121 puts together one of the most balanced phenotypic and genotypic packages of any bull in the offering – a near-perfect blending of softness, power and athleticism. Ranchers who place a premium on eye appeal will certainly appreciate this bull. He stood out in the performance department too, coming off his 2-year-old dam at 930 pounds and earning a nursing ratio of 115. You can expect foot integrity to be second to none in this bull too, as he combines two proven breed leaders for claw and angle EPDs, Homegrown and Plateau. Lot 117's dam is a favorite amongst the bred heifers we calved out this past spring and a maternal sister to the $32,500 Ellingson Stetson that sold to Alta Genetics in our 2015 production sale. His granddam is a staple of our breeding program and has earned elite Pathfinder status. His no-holes EPD package and outcross pedigree to many of the popular lines of cattle today should make him employable in many cattle outfits. Without question, Lot 117 is one of the top Remedy descendants we have produced to date.

Lot 117, Ellingson Homegrown 0121.

For those who appreciate the whole pounds package, put Lot 132 on your radar. He pounded down the scale at 980 pounds, coming off his dam this fall to earn a weaning ratio of 111. He is sure to transmit payweight, power and size to his feeder cattle. His Pathfinder dam has recorded a production birth ratio of 6/93, a nursing ratio of 6/105, a yearling ratio of 2/105, an IMF ratio of 2/135, a ribeye ratio of 2/102 and a 365-day calving interval. A couple of his maternal sisters have highlighted past sales, including one that sold for $16,000 to Ressler Ranch, where she has become an important donor, and another that sold to Knapp Ranch for $10,000.

This is another pounds-heavy Homegrown son from a powerhouse Earnan dam. It is a pairing that has worked liked a factory for making pounds. Lot 133 came off his dam at 950 pounds to earn a nursing ratio of 111. You will appreciate his outstanding center rib shape, substance of bone and commanding base width when he travels – ingredients in the recipe to produce pounds. His dam is a daughter of Blacklass 124, our longtime donor. She is a maternal sister to the $45,000 Ellingson Revolution 1047, the $50,000 Ellingson Versatile and the $18,000 Ellingson Real Business 5168. A maternal brother was selected by Jace Long in our 2020 production sale. Full brothers in blood sell as Lots 141 and 142.

Lot 134 is the cowboy's kind with a rugged, athletic phenotype designed to cover miles and cows. He came off his dam at 900 pounds and earned a nursing ratio of 104. His dam is a full sister to the $20,000 Ellingson Top Gun 5049, a top-performance sire at Alta Genetics. She has a production nursing ratio of 5/102, a yearling ratio of 2/109 and a ribeye ratio of 2/105 and has settled to first-service A.I. every year of her production career. Maternal brothers have been selected in our past production sales by David, Cheryl, Greg and Tanasha Wanner and Maher Ranch.

Ellingson Homegrown 0273 is a long-sided individual with power and muscle density built in. The Homegrown-Earnan mating has proven to be very successful for good reason. Luckily, there are a bunch of three-quarter and full brothers that resulted from that mating to give you added selection to meet your needs of adding consistency to your calfcrop. Lot 135 came off his dam at 940 pounds and earned an impressive nursing ratio of 111. His Earnan dam has earned elite Pathfinder status with a nursing ratio of 4/107. Maternal brothers are working for Bobby Varland, Jr., and Amstutz Cattle Company.

Connealy Earnan 076E, the maternal grandsire of Lots 132-141.

Lot 162 has the stock-bull look with commanding top shape, a wide track and burly design. His dam is a maternal sister to the standout Lot 80 in this offering. He traces to the EA Emblynette 434 donor that was impactful on our cowherd.

The Ellingson Angus Crew

Stetson Ellingson

Stetson joined the ranch full-time after graduating from college. He knows Angus cattle through and through. He makes most of the mating decisions and handles all the ranch's registration work.

Jameson Ellingson

Our son, Jameson, works for us full-time, heading up our cropping enterprises. He also has logged many miles with his trucking business and transported many customers' cattle to their new homes.

Jacob Ellingson

Our nephew, Jacob, joined us full-time a few years ago after working for us several summers and graduating from college. He is a talented welder and responsible for a lot of the handiwork around the ranch.

Sebastian Jacobs

Seb has been a part of our team for more than a decade. He is a hardworking, reliable worker and an integral part of the ranch. He and his wife Nicole have five children, including newborn Angus Joseph.

Courtney Maier

Courtney has been with us for two years. She knows cattle and is handy on a horse. In her free time, she is a competitive barrel racer. She and her husband Austin live near Almont.

Sierra Ellingson

Our daughter, Sierra, is studying at the University of Mary, preparing for a medical career. She continues to work on the ranch in the summer and when not at school.

Reference Sire: Roughrider

After analyzing Roughrider and his impressive calfcrop, nearly every visitor the past few years has decided to incorporate the bull into their program.

The Roughriders are performance oriented, just like the Earnans, but offer more base width and a more moderate frame score. He injects as much softness and rib as any sire we have ever used.

His dam and granddam are both donors and two of the greatest contributors to our herd today.

Roughrider progeny are rancher cattle. They are front-pasture animals with tremendous depth and structural soundness. His daughters may be some of the best we've ever calved.

We own Roughrider with Marohl's YellowTop Angus, Boettcher Angus, High Country Heifers and Genex CRI.

Lots 163 and 164 are an impressive pair of embryo transplant flush brothers with balanced-trait packages to suit the needs of everyone in each aspect of the beef industry. Both their Advance dam and Territory granddam serve on our donor roster – spots they have rightfully earned through a combination of production, functionality and elite phenotype we all strive to propagate. Both bulls have moderate birthweights with the right level of performance for producing cattle that can thrive under harsher management settings. Use this pair of long-age flush brothers to settle more cows in their first year of service and to propagate the potent Roughrider line in a voluminous fashion. ***Lots 163 and 164 are flush brothers.***

Lots 172-174 are flush brothers.

EA Blacklass 8914, the dam of Lots 172-174.

Reference Sire: Rainmaker 4404

4404 brings the fresh, yet proven, genetics of the timeless Rainmaker line to Ellingson Angus clientele. We felt he was a must-use sire for his balance of calving ease, soundness and maternal traits.

His sons are strong topped, deep flanked, sure footed and have an ideal growth curve. Most are suitable to be used on virgin heifers. The Rainmakers were one of the top-selling sire groups last year.

His dam was a donor at Montana Ranch. Astute Angus breeder David Brown dubbed her as one of the best they ever owned. We have high expectations for his daughters that have what it takes to be long-lasting brood cows.

Select a Rainmaker 4404 son to reignite the basics: structural integrity, mothering ability and fleshing ease.

Ellingson Rainmaker 0204 is a standout in his calfcrop, earning an elite nursing ratio of 114 and coming off his dam at 905 pounds. You will appreciate his overall power, depth of side and strong Angus breed character. His 2-year-old Cowboy Up dam is a stout, broody female that a number of visitors have picked out as a favorite over the past year. She has started off her production career as good as she could have and already has a strong start for her second go, having settled again to first-service A.I.

Lot 175 has a progressive pedigree, combining Rainmaker, Cowboy Up, Resource, Duke, Traveler 004 and Pro Trend. We believe this bull exemplifies trait balance, which we expect to translate to less inputs, but increased outputs, in his new owner's herd.

Lot 175, Ellingson Rainmaker 0204.

HA Cowboy Up 5405, the maternal grandsire of Lots 175 and 176.

Just as ranches like the Bergers' span generations, we aim to raise cattle that make an impact that long.

Ellingson Rainmaker 0214 is a big-testicled, rugged-designed individual with the structural integrity and density to be a stable contributor. You will appreciate the added crest and high libido Lot 176 has. With a 205-day weight of 866 pounds, he earned a strong weaning ratio of 109. His dam is the top-performance female of her calfcrop and a maternal sister to Lot 12 in this sale, a standout in the offering.

Lot 177 may be the boldest ribbed and deepest sided bull in the sale. The blending of the Rainmaker, Homegrown and Remedy lines has already proven successful after it yielded the top-selling bull in last year's sale, Ellingson Rangeland, a sire that will be an integral part of our breeding program for years to come. A standout coming off his 2-year-old dam, Lot 177 earned a 205-day weight of 896 pounds and a weaning ratio of 112. His genomics affirm his viability as a strong performance prospect, ranking him with the most elite for weaning, yearling and carcass weight, scrotal, calving-ease maternal, milk and ribeye area. His Homegrown dam has started off on a great note and has settled to first-service A.I. again this year. She is a daughter of EA Blacklass 5642.

When you see young people like this interested and involved in ag, you know the future is bright for the cattle industry.

Dam's Nursing Ratio: 1/108 *CLAW:* +.40 *ANGLE:* +.31

This is one of our favorites in the Rainmaker pen. With balance, eye appeal, structure and a royal pedigree, this bull is special in a number of ways. His 205-day weight of 861 pounds earned him a nursing ratio of 108. His powerhouse 2-year-old dam is a direct daughter of the $35,000 pick of the cowherd, EA Bells Girl 2181, a female destined to become a cornerstone for the Ingram Angus herd. His dam is now working in the Boyd Beef Cattle program, where we are expecting many great things from her.

It takes a village to host a sale. We are grateful for these "Village People."

This is a modest-sized Rainmaker son you should be able to use with confidence on virgin heifers. He traces back to the dam of Ellingson Bandwagon 1053, the $23,000 Semex sire.

Reference Sire: Bandwagon

We decided to incorporate Ellingson Bandwagon 1053 into our A.I. program this past year after seeing the few mature daughters we had out of him rise to the top of our cowherd for production and fundamental traits like fertility, fleshing ease and structural integrity.

His Tradition dam served as our longtime donor, not only because of her near-flawless type and kind, but also because of her consistently high level of production.

For those who remember the direct Bandwagon sons, the 1053 sire group offers many of the same great qualities, like added body capacity and sound athleticism. However, the 1053s are much cleaner sheathed with more stoutness and mass.

His daughter, EA Queen Dolly 3246, the dam of the $110,000 Ellingson Rider Pride 7282, is a top cow in our program.

Bandwagon 1053 is owned with Semex.

Left: EA Blanche 7844, a longtime donor and the dam of Ellingson Bandwagon 1053.

Ellingson Bandwagon 0182 is, without question, one of our favorites in the offering. He has a commanding herdbull presence about him – from his stout phenotype and fluent stride to his maternal backing and performance resume. He came off his Chaps dam at 930 pounds and earned a fantastic nursing ratio of 112. His young dam has started off a strong production career, posting a production birth ratio of 2/96, a nursing ratio of 2/110 and a yearling ratio of 1/106 and settling to first-service A.I. every year of her production career so far. With the sires Bandwagon, Chaps, Substance, Bushwacker and Bando 5175 in Lot 187's lineage, you can expect his daughters to be the foundational kind. His maternal brother was selected by the Leader Angus Farms program as a calving-ease feature in last year's production sale.

Lot 187, Ellingson Bandwagon 0182.

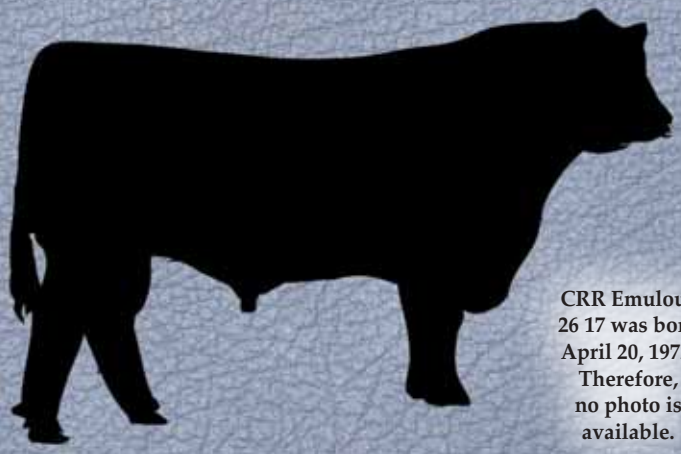
Maternal brothers are working for Knapp Ranch, Jim and Jody Miller, Derek Long, Gullickson Ranch, Cody and Amber Staiger, Lagge Farms and Mike Barnes.

You are welcome to come and appraise the offering sale day or before. If you cannot attend the sale, you can watch and bid online via DVAuction or Northern Video.

Reference Sire: Emulous 26 17



CRR Emulous 26 17 was born April 20, 1972. Therefore, no photo is available.

We are excited to share with you this second set of bulls from the Emulous line – one with a storied heritage of dominant performance in the feedlot and productive dams on the rangelands.

Best known as "Big E," Emulous 26 17 is a fifth-generation Certified Meat Sire, as well as a distinguished Pathfinder sire. His sons have dominated test stations and rewritten the history books for performance and ribeye area.

Resulting from the mating of a half-brother and half-sister, he will add consistency and predictability. The gender deviation in his progeny is nothing like we've ever seen. His sons are tremendously masculine with true substance and natural thickness, while his daughters are feminine and soft middled with adequate power.

Emulous 26 17 gives you a complete outcross bloodline without sacrificing the stoutness, growth, structure and cow power you have come to expect from Ellingson Angus genetics.

***Dam's Nursing Ratio:** 2/113 **CLAW:** +.53 **ANGLE:** +.46*

Even being the lone bull of his flush, Ellingson 26 17 Emulous 0076 has not failed to surpass our expectations. He has competed with the front end of his contemporaries, coming off his recipient dam at 960 pounds. His royal pedigree is unlike one you will be able to find anywhere else. He combines the powerful outcross lineage of the timeless Emulous 26 17 with the exciting EA Bells Girl 2181 cow family, which is making its mark on our herd. Lot 196's powerful dam by Advance is one of our favorite cows on the ranch. She boasts a nursing ratio of 2/113 and has settled to first-service A.I. for a third year in a row and will have her third natural calf early this spring. Lot 196's maternal brother, Ellingson Homegrown 9162, was a $14,000 feature in last year's production sale, while two of his maternal sisters have been retained in our cowherd. Lot 196 is a full brother in blood to Lot 197.

Lot 196, Ellingson 26 17 Emulous 0076.

Ellingson Homegrown 9162, Lot 196's maternal brother.

"It is not the honor that you take with you, but the heritage you leave behind you."
– Branch Rickey

EA Bells Girl 2181, the maternal granddam to Lots 196-200.

Lot 198, Ellingson 26 17 Emulous 0195.

Lot 197's donor dam is a member of one of the greatest flushes ever produced on our ranch. His dam and many of her flush and maternal sisters have already been enrolled as donors here. A flush brother, Ellingson Advance 7638, was the $15,000 selection by Raven Angus in our 2018 production sale. She has posted an impressive nursing ratio of 2/111 and settled to first-service A.I. every year of her production career. She is a direct daughter of the $35,000 2020 pick of the cowherd, EA Bells Girl 2181, now owned by Ingram Angus. Ellingson 26 17 Emulous 0193 is a full brother in blood to Lot 196. His maternal brother is the featured Lot 1 bull in this offering.

Here is a trio of flush brothers that are masculine and have the shape and stoutness you won't commonly find. Their Pathfinder dam by Remedy has proven her worth as one of the top-producing cows on the ranch – hence her enrollment in the donor program. She has a production nursing ratio of 4/105, a yearling ratio of 2/105, an IMF ratio of 4/104 and a 365-day calving interval. Their dam is a maternal sister to the dams of Lots 196 and 197 in the Emulous sire group. Their granddam was the $35,000 pick of the cowherd in our 2020 sale. Full brothers are working for Hinsz Ranch and Travis and Stephanie Schmidt, while five full and maternal sisters are working on our ranch, including two that have already been flushed. ***Lots 198-200 are flush brothers.***

This is one of our top picks in the Emulous pen. He has all the phenotypic qualities we look for in an elite herdsire prospect. Rarely do you find a bull that possesses his added length and tremendous muscle dimension down his top and hip. For a power bull, he is still clean fronted and smooth sided. Lot 201 weaned off his recipient dam at 995 pounds. His Earnan dam has a production nursing ratio of 5/106, a yearling ratio of 3/105, an IMF ratio of 3/101, a ribeye ratio of 3/102 and a 358-day calving interval. His maternal brother is featured as Lot 264. Another maternal brother was selected by Penhros Farms in 2020.

Penhros Farms purchased a maternal brother to Lot 201 in our 2020 production sale.

Lots 207-211 are true stock bulls that will add value to any commercial program's bottomline. They are uniformly stout-muscled with added bone and shape. Their female flushmates are all angular designed and soft middled, have a production-oriented appearance and, even at a young age, look like they should have superior udder quality. Their donor dam is a flush sister to the $19,000 Ellingson Salute 3170 and a maternal sister to the $28,000 Ellingson Boardwalk 3032. She is a fourth-generation donor herself, descending from the $52,000-valued EA Pride 346 as her dam and many other notable females before that. She has a production nursing ratio of 6/103, a yearling ratio of 4/104, an IMF ratio of 8/109 and a 365-day calving interval. Maternal brothers are working for Jacobs Ranch, DBW Ranch, Larry Thompson and Gullickson Ranch, while another is featured in this sale as Lot 85. ***Lots 207-211 are flush brothers.***

EA Blanche 7844, Lot 219's dam.

Ellingson Rough Country 9444, a maternal brother to Lots 215-218.

Reference Sire: Fundamental

Fundamental was the high-selling lot in our 2019 sale that many producers identified as their phenotypic pick of the offering. He has unmistakable herdbull presence, balancing power and an attractive, sound design.

He had the heaviest weaning weight of his calfcrop and still ranks as one of the top performers we have ever raised.

Fundamental was named because of his ability to correct the fundamental traits in cattle. His near-perfect foot structure and the females that make up his pedigree are some of his strongest attributes.

His donor dam, EA Emblynette 4098, is one of our favorite cows on the ranch. She has a production-oriented, feminine design, yet is ultra-soft and has as good of feet and udder structure as any cow you find here at the ranch.

Fundamental is owned with Genex CRI.

Left: EA Embylette 4098, Ellingson Fundamental's donor dam.

Ellingson Fundamental 0488 proudly leads off the first Fundamental sons that we will offer. It is a sire group that will represent a large share of next year's calfcrop. Lot 220 is one of the younger individuals in the offering; however, you'd certainly never guess it appraising him in the same pen with bulls that are a month older than him. Truly a phenotypic standout, he packs extra red meat and shape into a clean-fronted, smooth-sided package and travels with fluency and authority. He earned a nursing ratio of 112 with an adjusted 205-day weight of 896 pounds. He ranks amongst the top 2 percent of the breed for both weaning and yearling weight EPDs. Coming from the Madame Pride family – a line that has called St. Anthony home for more than eight decades – you can count on his maternal potency to make long-lasting daughters. Lot 220's maternal sister is working for Logan Handyside.

Lot 220, Ellingson Fundamental 0488.

The best part of the sale for us: getting to reconnect with so many wonderful friends.

Ellingson Consistent 6235, Lot 221's maternal brother.

EA Primrose 5083, Lot 221's maternal sister.

Ellingson Fundamental 0577 is a strong performance prospect with a royal pedigree. His elite Pathfinder dam has recorded a production birth ratio of 6/98, a nursing ratio of 6/105, a yearling ratio of 5/108 and an IMF ratio of 4/114. His dam is a maternal sister to the $30,000 Ellingson Frontiersman 7132, the $20,000 Ellingson Homestead 8028 and the $21,000 Ellingson Drover 6034. His maternal brother, Ellingson Consistent 6235, was the $23,000 selection by Arntzen Angus and Richard Angus Ranch in our 2017 sale. He has went on to be a potent breeding piece for them, siring Arntzens' high-selling sire group and now earning his spot on Breeder Link's sire roster. Four of his maternal sisters have been retained in our cowherd, including one that serves as a top-tier donor.

Ellingson Resource 0363 is a stout-boned, rugged-made bull out of a Leachman Saugahatchee dam that has performed with the best of his contemporaries. Full brothers to Lot 247 are working for Jim and Julie Hornbacher and Jeff and Jess Kuntz, while a trio of maternal brothers was selected by Hager Operating in our 2019 production sale. His full and maternal sisters in production look like promising young Angus females.

Helping our customers with their feeder calf sales and replacement heifer needs are among our favorite things to do throughout the year. Jameson also enjoys transporting many of these animals from Point A to Point B with his growing trucking business. (Photos by Prairie Topp.)

Reference Sire: Homestead

Homestead is becoming a household name. His progeny have solidified his phenotypic and genotypic potency. They are constructed with lots of size and shape and as much length of side as any sire we have ever used. His sons have posted outstanding gains on feed, which we expect to translate into more profit potential for those using him. As more real-world data on Homestead progeny pours in, his performance and maternal EPDs also continue to improve.

We are impressed with the first daughters we have bred and calved. They have a production-oriented look and near-perfect udders. Their fertility is right up there with the best of them.

If docility is important to you, Homestead is one of the gentlest bulls we've ever utilized.

Homestead is owned with ST Genetics.

Left: Ellingson Homestead 8202, the $22,000 Lot 1 Homestead son in our 2019 sale.

Ellingson Homestead 0421 is an elite calving-ease prospect that should be considered by even the most particular cattle producers. Not many times will you find a true calving-ease prospect that has the base width and true muscle dimension down his top like Lot 248 has. His maternal foundation is second to none and, therefore, we'd expect his impact to be long-term in producing fancy, productive daughters. His Advance dam has recorded a production birth ratio of 2/87 and a nursing ratio of 2/101. She is quickly gaining traction as a top young cow on the ranch, following in the footsteps of her donor dam, granddam and great-granddam. Lot 248's maternal brother was the Lot 1 featured Homegrown son in last year's sale and was selected by Weers Angus for $19,000. That bull has now joined the Breeder Link A.I. stud lineup. The credentials Lot 248 puts together should give him strong consideration for utilization beyond the breeding pasture.

Lot 248, Ellingson Homestead 0421.

Ellingson Practical 9122, Lot 248's maternal brother.

Maternal brothers are working for Bob Varland, Jr., Derek and Chip Long, Gene Bierman, David Biegler and Amstutz Cattle Company. Four maternal sisters are working in our cowherd, including one that has served as a donor.

Paul Bichler sorts through the bull offering ahead of last year's production sale.

Reference Sire: Powerpoint

Powerpoint is gaining worldwide attention as one of the very elite calving-ease, maternal and carcass sires available in the A.I. industry today.

He was selected as the standout amongst his contemporaries for his growth figures, carcass traits and eye-appealing phenotype. Most importantly, we were thrilled with his impressive dam and granddam.

His sons have been well-received by commercial and purebred cattle ranchers alike. His sons, Ellingson Profound 8155 and Ellingson On Point, were both highlights of past sales and have been heavily incorporated into our breeding program.

We own Powerpoint with Spickler Ranch North and ST Genetics.

Dam's Nursing Ratio: 5/106 *CLAW:* +.47 *ANGLE:* +.49

Here is our personal favorite in the Powerpoint group. He is wide tracking, has tremendous muscle shape and substance of bone and earned a weaning ratio of 107. Unlike many bulls with big growth projections and little phenotype to back it up, he has the physical characteristics to go along with his numbers. His dam has a production nursing ratio of 5/106, a yearling ratio of 3/105, an IMF ratio of 3/101, a ribeye ratio of 3/102 and a 358-day calving interval. His maternal brother is featured as Lot 201. Another brother was selected by Penhros Farms in our 2020 sale.

Ellingson Identity 9104, a maternal brother to Lot 263's dam.

Here is another Powerpoint son that should be suitable for use on virgin heifers. His easy-keeping Territory dam has earned elite Pathfinder status. Maternal brothers are working for Wade Schwartz, Jim and Rhonda Schwartzbauer and Swenson-Martin Ranch.

Reference Sire: Raindance

Raindance was utilized to inject outcross genetics into our gene pool. He has been widely utilized by many programs across the country and should be a proven, predictable sire.

You will appreciate the added length of side, body capacity and overall presence the Raindances exhibit. Their modest birthweights and adequate performance should make them long-lasting contributors to a breeding program.

His dam is one of the most influential cows of her time and has already left a lasting mark on the breed. His maternal grandsire, Traveler 004, is one of the truly great female-making sires to come along in the 21st Century. Therefore, we certainly have high hopes for the production ability the Raindance daughters should have.

A standout of his sire group, Ellingson Raindance 0180 has dominated in all categories of measure. He came off his dam at 920 pounds and earned a nursing ratio of 107. He will be a sire to add payweight to your feeder calves, whether you sell them off the cow or take them all the way to kill, and add value to the essential maternal traits in your herd. His Ellingson Bandwagon 1053 dam has earned elite Pathfinder status and has a production birth ratio of 6/99, a nursing ratio of 6/106 and a 365-day calving interval. She is a granddaughter of EA Madame Pride 430, the $42,000 donor that is a cornerstone matriarch of our cowherd. We own her in conjunction with 12 Star Ranch. Maternal brothers are working for Jim and Jody Miller and Jim and Rhonda Schwartzbauer.

Lot 280's Substance dam has settled to first-service A.I. every year, a true testament to the fertility in this line. Jacobs Ranch and Roger Aberle own maternal brothers to his dam.

Sheridan was the champion in the National Junior Angus Association's (NJAA) Creative Writing Contest. She was recognized for her achievement at the NJAA's virtual awards presentation and at the North Dakota Angus Association's Annual Banquet. Sheridan and Medora were able to attend their first National Junior Angus Show in Tulsa, Okla., in July. Sheridan also earned honors this past year as the state winner in the North Dakota CattleWomen's Essay Contest.

Jameson reached the pinnacle of his FFA career this fall, when he was awarded the American FFA Degree. Unfortunately, due to COVID-19, there was no National FFA Convention for him to attend to accept his gold key and zip up his blue corduroy jacket for the last time, but it was a special milestone nonetheless. Over the years, he was a chapter officer and a member of the state-winning livestock judging team. His SAE program included his cattle, cropping and trucking endeavors.

The ladies of Ellingson Angus have the same affinity for horses as they do Angus cattle. Sierra was named the North Dakota FFA Equine Science Entrepreneurship Proficiency Award winner this year. In addition to her work with horses here on the ranch and her rodeo horses, Sierra also enjoys breaking a couple other ones on a custom basis.

Ellingson Raindance 0256 is a modest-sized Raindance son that should sire females that are efficient on forage diets alone. Lot 283's Pathfinder maternal granddam by Bushwacker is a maternal sister to LT Territory 5824 of EA, the popular Pathfinder sire. Lot 283's Earnan dam comes from a large flush filled with impressive females. They trace back to EA Lucy 141, an influential donor and foundational cow in our breeding program.

Reference Sire: Impression

Impression 5874 offers outcross, yet proven, genetics to longtime Ellingson Angus clientele. We purchased part of him after seeing him working for Tiedemans in Nebraska. We were impressed with his tremendous body capacity, softness, foot structure and soundness. His robust EPD package includes breed-leading performance and carcass-merit figures that rank with the very best we've utilized.

The Impression line has proven itself as an elite female-maker. With the Primroses in the background, the daughters should make a lasting contribution. Nearly all our Impression daughters made the replacement pen this fall. Many of these sons are out of our top cows, so select them knowing you will have stellar replacement females.

We own him with Baldridge-Tiedeman Angus.

Ellingson Impression 0339 is a maternally driven bull that should sire females that make immaculate range cows in terms of production and longevity. He combines the Impression line with Earnan, EXT 6106, Bushwacker, Bando 5175 and the Emblynette cow family. A maternal brother is working for Roger Aberle.

EA Hyalite Lady 1333, a maternal sister to Lot 286's dam.

This is a true stock bull with tremendous base width and power. His dam is a full sister to Ellingson Superior 0031, the Lund's B Bar Angus sire. A maternal brother is working for Tracy Hoherz. Three of his maternal sisters are working here, including the dam of the $23,000 Ellingson Charge 9288 working for Stevenson Angus and Lot 187.

Tracy Hoherz selected a maternal brother to Lot 289 in a previous sale.

Lund's B Bar Angus owns Ellingson Superior 0031, a full brother to Lot 289's dam.

Reference Sire: Starman

Starman was a performance and phenotypic standout in his calfcrop. He posted a weaning ratio of 117 and a yearling ratio of 113 against stiff competition in his contemporary group, including bulls like Roughrider, Chaps, Stetson and Stagecoach.

His dam has made a lasting impact on our cowherd and will be entering her 10th year of production in 2021. She boasts near-perfect foot structure, a good udder attachment and teat placement and breeds up near the front end each year. She is a full sister to Ellingson Superior 0031, a Benfield Substance son heavily utilized at Lund's B Bar Angus.

All of the Starman sons are age-advantaged bulls, so they should be able to cover more cows than their yearling counterparts.

We own Starman with Alta Genetics.

Dam's Nursing Ratio: 1/106 *CLAW:* +.24 *ANGLE:* +.37

This is a stout herdbull prospect you will appreciate for the muscle dimension, foot quality and structural soundness he possesses. His Roughrider dam is a maternal sister to the $27,500 Ellingson Chaps 4095, the $67,500 Ellingson Ribeye 3195 and the $18,000 Ellingson 26 17 Emulous 9147, sires that have been utilized in our own breeding program.

Our family shared in the celebration as the North Dakota Stockmen's Association was inducted into the North Dakota Cowboy Hall of Fame in the Special Achievement category in June. Julie is the NDSA's executive vice president and also celebrated her 25th anniversary with the organization this past year.

This is a long, larger outlined bull with substance. His dam is a full sister to the $30,000 Ellingson Rough Terrain 9136 and to the dam of the $45,000 Ellingson Aquifer 9137.

FEATURE YOUNG SIRE: Rangeland

Rangeland was our top-selling bull in 2020. We believe his combination of pedigree, eye appeal and balanced traits will give him the ability to sire progeny that thrive in the rangelands. Rangeland was heavily sampled in his first year by some of the most astute breeders in the country.

We own him with ST Genetics.

FEATURE YOUNG SIRE: Aquifer

Built like a beef bull should be, Aquifer made many friends last year, when he was admired for his stoutness and volume. His powerful dam is a full sister to the $30,000 Ellingson Rough Terrain 9136. We are expecting many Aquifer calves this fall.

He is owned with Rust Mountain View Ranch and leased to Breeder Link.

FEATURE YOUNG SIRE: On Point

On Point was one of the most intriguing bulls offered last year. He is a maternal brother to EA Hyalite Lady 1333, now a donor at Ingram Angus. Because his dam and granddam were two of the most impactful cows on our ranch, we felt he was a must-use sire.

We own him with Tehama Angus Ranch and ABS Global.

FEATURE YOUNG SIRE: Fullback

As one of the most dominant phenotype bulls ever produced on our ranch, we have high hopes for the future of Fullback. Rarely do you find a bull with his combination of mass and dimension paired with next-level length of body and a realistic frame package.

We own him with TK Angus and Arrowsmith Red Angus.

FEATURE YOUNG SIRE: *Snapshot*

Snapshot has begun to make many friends who see him at stud. You'll appreciate his authentic Angus breed character, squareness, muscle shape and spring of rib all tied together in a smooth package. He comes from the same line of females that produced the valuable EA Rose 918.

We own Snapshot with Genex CRI.

Choose amongst cows with superb EPDs and production

This is an incredible – and incredibly rare – opportunity to make your personal selection of any cow from our herd. There are nearly 600 registered bred females to choose from. These females make up one of the top maternal cowherds in North America. They are responsible for producing one of the highest averaging volume bull sales each year. Most of our cow families have been established here for multiple decades, with some calling St. Anthony, N.D., home for 90-plus years. Our herd is culled as rigorously as any purebred program in America. It has been bred and developed in a disciplined fashion, with a focus on propagating balanced-trait cattle that excel in real-world performance, mothering ability, structural soundness and udder quality. More than 50 of the females eligible for selection have served, at some point, in our embryo transfer program. Also eligible to be picked are the dams, granddams and sisters to many leading A.I. sires. For a complete listing of the cows to choose from, along with their data and production records, call Stetson at (701) 595-1364. The buyer must make his or her selection by May 1.

EA Miss Blackbird 5054.

FROM THE HEART OF OUR CUSTOMERS' HERDS

Commercial Females

We're excited to include a commercial female division in our sale again this year to showcase some of the producers who have an Ellingson Angus bull battery. These cattle are broody, feminine, replacement-quality females from herds that have long histories of producing profit-oriented cattle. The females are bangs vaccinated and dewormed and have had three rounds of modified-live vaccination. The bred heifers have also all had their ScourGuard vaccine. The cattle will be available for viewing at Ellingson Angus beginning Feb. 4. Contact us or the consigning producers for more information about the heifers or their individual programs.

313-452

Prairie Diamond Ranch, Hebron & Richardton, ND

140 HEIFER CALVES: *The Prairie Diamond heifers have been popular in past sales, selling across America. These heifers are broody and feminine and will make front-end cows. The steermates have always been some of the most sought after in North Dakota. The heifers are out of sons of Boardwalk, Roughrider, Transcend, Remedy, Cowboy Up, Powerpoint and Resource. Prairie Diamond Ranch runs only top-tier bulls and has used A.I. for decades. The cowherd is heavily influenced by Territory, Advance, Net Worth, EXT, Bandwagon and Efficiency.*

Kellen & Lori Unruh, Hebron:
(701) 878-4152

Cody & Amber Staiger, Hebron:
(701) 290-4356

Tim, Kathy & Garrett Meyer, Richardton:
(701) 290-0172

453-592

Diede Ranch, Richardton, ND

140 HEIFER CALVES: *These heifers are the rancher's kind. They are easy-fleshing females that will make profitable cows. Their dams are known for weaning big calves without being pampered. Their cowherd has been rigorously culled in a disciplined fashion for many generations. Their steermates have consistently topped the market and have an unblemished reputation in the feedlot. The heifers are sired by sons of Roughrider, Plateau, Transcend, Boardwalk, Cowboy Up, Resource and Advance. Diedes purchase only top-end bulls and have utilized A.I. for many years. Their cowherd is built upon strong maternal sires like Territory, Bandwagon, Substance, Earnan, Identity, Cowboy, Net Worth and Final Answer.*

Clint & Heather Diede, Richardton:
(701) 878-4201

593-642

Howard Ranch, Sheyenne, ND

50 HEIFER CALVES: *Howards have been bringing heifers to this sale since the beginning, earning a reputation for always bringing a consistent, sound-structured, gentle group. They take pride in their cowherd and are particular in their bull selection. They exclusively purchase bulls that are out of proven dams – many times donor cows. They believe that ensures predictability for success in their cowherd. We have had the opportunity to market the Howard feeder calves for many years, and the closeouts have been outstanding. The heifers are sired by sons of Boardwalk, Advance, Dominance, Format and Earnan. The cowherd is established around Territory, Net Worth, New Day, Guaranteed, Plateau and Gridiron.*

Allan & Lisa Howard, Sheyenne:
(701) 302-0495 or (701) 996-2805

643-722

Gullickson Ranch, Cannon Ball, ND

80 HEIFER CALVES: *The Gullickson Ranch heifers are one of the top performance sets you will find anywhere. The Gullickson family places a strong emphasis on cattle that can do it all. They always select stout, eye-appealing bulls that are top contemporary performers and, most importantly, out of good mothers. They sell some of the heaviest steers in the Dakotas and draw in lots of feeder interest. The heifers are sired by sons of Roughrider, Transcend, Earnan, Active Duty and Resource. Their cowherd is influenced by Traveler 004 and EXT, two great maternal sires.*

Jay & Salena Gullickson, Cannon Ball:
(701) 471-2439

723-872

Schmidt Ranch, Solen, ND

150 HEIFER CALVES: *The Schmidt Ranch has a long, proud tradition of raising top-quality feeder cattle and replacement females. Ken and Mary Schmidt and their family are actively involved in all aspects of the beef cattle industry – from the cow-calf sector to the feeding sector. Their heifers are sired by sons of Roughrider, Homegrown, Plateau, Sierra Cut and Harvestor. Their cowherd is heavily influenced by Scotsman, Tradition, Net Worth, Traveler 004, Bushwacker, Bandwagon and Rito 7075.*

Ken & Mary Schmidt, Solen: (701) 220-7407

Travis & Stephanie Schmidt, Solen: (701) 220-7910

John & Amy Lord, Solen: (701) 226-3408

873-952

Ham Ranch, Shadehill, SD

80 HEIFER CALVES: *Hams are first-time consignors to the sale and bringing a potload of front-cut heifer calves from a volume cowherd. We have personally owned the Ham heifers many years, and they excel in stoutness and fleshing ability. They also have always achieved tremendous pregnancy results. Their steers are some of the highest valued feeder cattle in the Dakotas each fall. Their April-born loads of steers consistently push 700 pounds by the middle of October without creep feed. Hams always select for a front-end bull battery and have incorporated A.I. for many years. These heifers are sired by sons of Roughrider, Boardwalk, Chaps, Earnan and Resource. There also will be some direct daughters of Ellingson Three Rivers 8062 and Ellingson Homegrown 6035.*

Brady & Kristen Ham, Shadehill, SD:
(605) 431-9118

953-1032

Entze Ranch, Golden Valley, ND

80 HEIFER CALVES: *The Entze family is bringing a potload of easy-fleshing, feminine females straight from the heart of their time-tested cowherd. Kim and Chantz are very particular about selecting good-uddered, deep-bodied and sound-footed cattle to ensure their cowherd is working for them every day out of the year. The steermates to these heifers are highly sought after by progressive feeders who know and have experienced the added value of owning and feeding an Entze steer. The Entze heifers are sired by sons of Chaps, Boardwalk, Advance, Transcend, Dominance, Resource and Plateau. Their cowherd is heavily influenced by Identity, Final Answer and Earnan.*

Kim, Laurie & Chantz Entze, Golden Valley:
(701) 870-0130

1033-1097

Katus X7 Ranch, Watauga, SD

65 BRED HEIFERS: *The Katus family has a long tradition of selling top-quality bred heifers. This potload comes straight from the heart of the Katus herd. Their cowherd has been developed for multiple generations on almost exclusively Ellingson Angus genetics. They are sired by only top sons of True Grit, Powerpoint, Resource and Territory. These are heifers that will be self-sufficient and wean big calves. Katuses know the value of their genetics; that's why they background their steers annually. Some of these heifers are A.I. bred to Ellingson Progressive 7170, a proven calving-ease and high-maternal sire, and due March 1-3. The others are naturally bred and due March 5-26.*

Scott & Heather Katus, Watauga, SD:
(701) 455-3715

1098-1277

Jerry Schmidt Ranch, Driscoll, ND

180 BRED HEIFERS: *Jerry is again consigning multiple loads of front-pasture bred heifers rich in Ellingson Angus genetics. These heifers originate from the Prairie Diamond Ranch, Schmidt Ranch and Larry Thompson Ranch, all longtime Ellingson bull customers. These heifers should be easy-maintaining and have good mothering ability. They originate from programs that sell high-valued feeder cattle, so expect them to wean heavy calves. They are sired by sons of Roughrider, Transcend, Chaps, Boardwalk, Advance, Earnan, Remedy, Cowboy Up, Plateau, Harvestor and Resource. One hundred heifers are due to calve Feb. 23 to Ellingson Homegrown 6035; 50 heifers are due March 6 to Ellingson Homegrown 6035; and 25 heifers are due March 14 to Ellingson Homegrown 6035. Twenty-five heifers are due April 15-25 to sons of Ellingson Homegrown 6035.*

Jerry Schmidt, Driscoll:
(701) 471-6906

1278-1337

Wanner Ranch, Hebron, ND

60 BRED HEIFERS: *Wanners are first-time consignors to the sale and bringing a broody, feminine set of bred heifers from the heart of their time-tested cowherd. They have been committed to producing performance Angus that can thrive on grass for many years. They sell some of the heaviest and in-demand feeder calves in early fall each year. These heifers are sired by Secretary, Advance, Traction and Upward sons. These heifers are due to calve to Ellingson Icon 5062, Ellingson Boardwalk 3032 and Boardwalk sons March 20 through April 21.*

Dave & Cheryl Wanner, Hebron:
(701) 348-3134

Greg & Tanasha Wanner, Hebron:
(701) 226-6729

1338-1362

Swenson-Martin Ranch, Beulah, ND

25 COMING 3-YEAR-OLD COWS: *The Swenson and Martin families are offering a unique opportunity to own some of their best genetics with all the hard work already done. They are diligent in bull selection, only purchasing bulls out of proven dams and buying at least half-brothers to ensure consistency. Their cowherd is heavily influenced by sons of Final Answer, Boardwalk, Earnan, Blackcap Revolution and Traveler 004. These females are bred to sons of Homestead and Remedy and will calve for 21 days starting March 15.*

Jim & Darlene Swenson, Beulah:
(701) 891-8121

Trent & Dawn Martin, Beulah:
(701) 891-1771

We are proud to include this volume set of commercial heifer calves, bred heifers and young bred cows from some of our longtime bull customers in our sale. These females stem from Ellingson Angus genetics and will be valuable additions to the herds of their new owners.

ELLINGSON ANGUS: A PROGRAM THAT EXTENDS BEYOND JUST SELLING YOU A BULL

Commercial Marketing Programs

Our goal is to improve your profitability through superior genetics and strategic marketing.

Maternal Strength & Marketing

Ellingson Angus has been enrolled in the American Angus Association's MaternalPlus™ program for three years. MaternalPlus™ is geared for Angus breeders focused on improving fertility, longevity, cow production and cow efficiency. We have used this data to produce superior maternal genetics for our valued commercial customers.

We proudly showcase many of these maternal genetics by marketing numerous longtime customers' females in our production sale and through various other avenues, including the Maternal Solutions program we operate with our friends at Topp Herefords of Grace City, N.D.

Feeder Cattle Marketing

Ellingson-sired feeder calves are in strong demand throughout the feeding industry. We help facilitate the marketing of thousands of our customers' calves each year. The Ellingson-influenced feeder calf selling at the auction market, video sale or by private treaty is recognized by feeders as a premium animal.

We also offer some unique marketing opportunities and premiums for GAP-certified cattle through the Missouri River Cattle Coalition™ for our customers who raise natural feeder calves.

For more details, call Chad Ellingson at (701) 445-7309 or (701) 361-3606.

Ellingson Angus – Real-World Genetics

Welcome to the 2021 Ellingson Angus Real-World Genetics Production Sale! This family-owned program is as committed to the business of breeding superior Angus cattle as any in the industry. Repeat customers throughout the land look to the Ellingsons as their genetic source for breed-leading performance traits because they know the practical, real-world experience that goes into every mating decision has their customers' best interests in mind.

This year's sale will be their largest yet with more than 300 powerful Angus bulls selling. For purebred and commercial cattle producers in search of genetics that will smash the scales down, take a close look. The sons of Ellingson Three Rivers 8062 will have some of the most explosive and curve-bending growth of any sire group ever represented. He is one of the best by Ellingson Homestead 6030. The sons of Ellingson Rider Pride 7282, a son of the great power sire Ellingson Roughrider, are massive and unbelievable in their combination of red meat, muscle, exceptional body and rib. Ellingson Authorize 7057 caught the eye of prominent producers last year, and his sons now will be just as popular. He is proving to be the Advance son with proven and well-balanced EPDs. In addition to these three Ellingson-raised herdsires, there will also be many more sire groups to choose from. The quality runs deep!

To produce bulls of this caliber, it takes true cow power. The depth of this cowherd is exceptional. Ellingsons have taken great pride through the years to build this cowherd on the principles of making sure to keep mothering ability and udder quality a priority while maintaining fleshing ability and fault-free feet and legs. Visitors from around the world come to Ellingson Angus in search of cows with super phenotypic design, bred-in performance and superior maternal values with big, stout calves at side. Those cows are here in volume! When you select an Ellingson bull, you can rest assured his dam is one of the best in the land. THE PICK OF THE ENTIRE COWHERD SELLS! What an incredible opportunity to invest in the best.

As always, there will be a large set of commercial females selling. More than 1,000 head of commercial heifer calves and bred females will be selling. These outstanding females are from some of the top Ellingson Angus customers who always select bulls from the top of the program. If you are in search of a source for your commercial replacements, set your satchel down here.

Cattlemen and cattlewomen from around the world look to Ellingson Angus as a trusted source for superior Angus genetics. Few programs in the beef business are as focused on developing customer relations as them. Commercial producers know the value added to their calfcrops by utilizing Ellingson Angus, and purebred breeders trust the integrity and commitment of Ellingson genetics to move their own programs forward.

Repeat customers realize the value of doing business with this family. For cattlemen and women who have not been to Ellingson Angus in the past, I invite you to study the program and the genetics they have to offer. Your relationship with the Ellingson program will be there 365 days a year. Chad, Julie and their entire family are exceptional people to work with. Hospitality is always superior when you visit Ellingson Angus and, on sale day, you can enjoy the hospitality along with fellow producers in the business. You will not be disappointed. If I can help discuss the genetics that are being offered this year, please don't hesitate to give me a call at (918) 510-3464.

Sincerely, *Rance Long*
