# Welcome to the Sale

Friends and Cattlemen,

Bill and Codi Cook Family

Jess and Lana Matt Family

On behalf of the Cook and Matt families we would like to welcome you to our 2nd Annual Production Sale. We are excited to offer another performance minded set of Angus bulls.

Once again this year our focus is on PERFORMANCE. We want these bulls to work for you the commercial cattle producers. We have tried to breed these cattle to have balance but at the same time excel in length and performance. These bulls should sire a set of steer calves that will perform at weaning, in the feedlot and on the rail. We also are excited about their sister mates and believe that the ANGUS cow is still the best around.

As I sell cattle 4 and 5 days a week in the fall at PAYS and BLS it has become quite evident to me that the cattle that have the extra length and performance are the easy ones to sell. Jess works everyday in the fall of the year buying cattle at the auctions throughout Montana and also knows that cattle feeders want the ones with length and performance. I hope you see the theme of this letter. We are not interested in light birthweight smaller framed cattle. We don't want them too big but we feel if we breed for balance and length the rest will take care of itself.

The bulls in this sale have all passed a fertility test. They have been genotyped for increased EPD accuracy and parent verification with AngusGS. They have been on a complete herd health program since birth. They sell with a First Year Breeding Season Guarantee.

We are excited to offer this set of bulls. Please don't hesitate to contact us with any questions about the bulls. We will be happy to help with bull selection, if needed. We look forward to seeing you sale day and want to say Thank You for your friendship and support of our program.

Thanks Again,  
*Bill Cook and Jess Matt*

### CATTLE WILL SELL IN CATALOG ORDER

#### First Breeding Season Guarantee

All bulls selling for \$3,500 or more will be covered 50% by C Spear Angus, if they are injured during their first breeding season. This guarantee does not include death as that can be insured for. Breeding season is defined as the 60 day period following the first turnout of bulls. Fifty percent of the value of the injured bull, minus one-half the salvage value, will be given credit in a future C Spear Angus sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between C Spear Angus and the buyer. All injured bulls must be diagnosed by a veterinarian. We also reserve the right to a second opinion by a veterinarian of our choice. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2022.

Spur E143 is the Basin Angus owned sire that is really doing a job. This will be his second calf crop for us and we really like the added performance and carcass merit he brings to the table. We are calving his first daughters and they are making great young cows. We used E143 on cows and heifers with good results. Lots 1-5 are sired by Spur E143.

America is the Schaff bull that sold for 1.51 million. He is a bull we used for added performance and phenotype. His sons are made right and are full of muscle. We will have more America calves next year and are already excited to see what they will do. Lots 14, 15, 16, 44 and 45 are all flush brothers out of our Vermilion Lady 3220 cow.

VRD is the king of performance. We took a step back and flushed WC Lady 5004 to VRD and quite honestly were hoping for heifer calves. We ended up with 8 full sisters and 6 sons that are in this sale. VRD will add length of body and weight at weaning and yearling. VRD daughters get better and better with age, so many of the top cattle in the Angus breed trace to VRD somewhere.

King Air is the Vermilion Ranch calving ease sire that is doing exactly that. They come unassisted and get up with lots of vigor. King Air will add extra eye appeal. We have 4 King Air sons in this sale that are all suitable for heifers.

C SPEAR E143 SPUR J113 - Lot 1

The Spur E143 cattle check all the boxes. Lot 1 is no exception. He posts the highest weaning and yearling weights in the sale. He is also a +14 CED. He will work on heifers and will sire calves that will have his extra length and growth. He is in the top 25% of the breed in 15 traits.

Our first Missile son and we really like this bull. He is well balanced and full of muscle. He is a maternal brother Cook E143 Spur 014H that topped our last year to MR Livestock at \$16,500. This bull will add eye appeal and muscle.

Our first America to sell. This bull has been a favorite since he hit the ground. Out of one of our very best cows, this bull should add some good to anyone's program. He has performed well and is above average on his carcass numbers. Maybe the best thing about him is he is really gentle.

Lot 14 is the first of 5 full brothers sired by America. We flushed Vermilion Lady 3220 to America and really like the results. 3220 is a Bear Paw daughter that posts WR 107 and YR 103. She is a big long cow that really flushed well to America. Lot 14 has been a standout since birth. Full brothers are Lots 15, 16, 44 and 45.

We went back and flushed another one of our best cows to VRD and Lot 17 is the first of 6 full brothers out of WC Lady 5004. 5004 posts WR 108 and YR 106 and is a cow that has never missed for us. VRD was ahead of his time and these bulls possess his length and performance. Full brothers are Lots 18, 19, 20, 42 and 43.
