

Open Gate Ranch

44th Annual Bull Sale

Friday, March 29, 2024

1:00 pm • Augusta, MT

At Broken O Land and Livestock

Simmental. SimAngus. BUILD BETTER BEEF.

Notes on Reading our Sale Book...

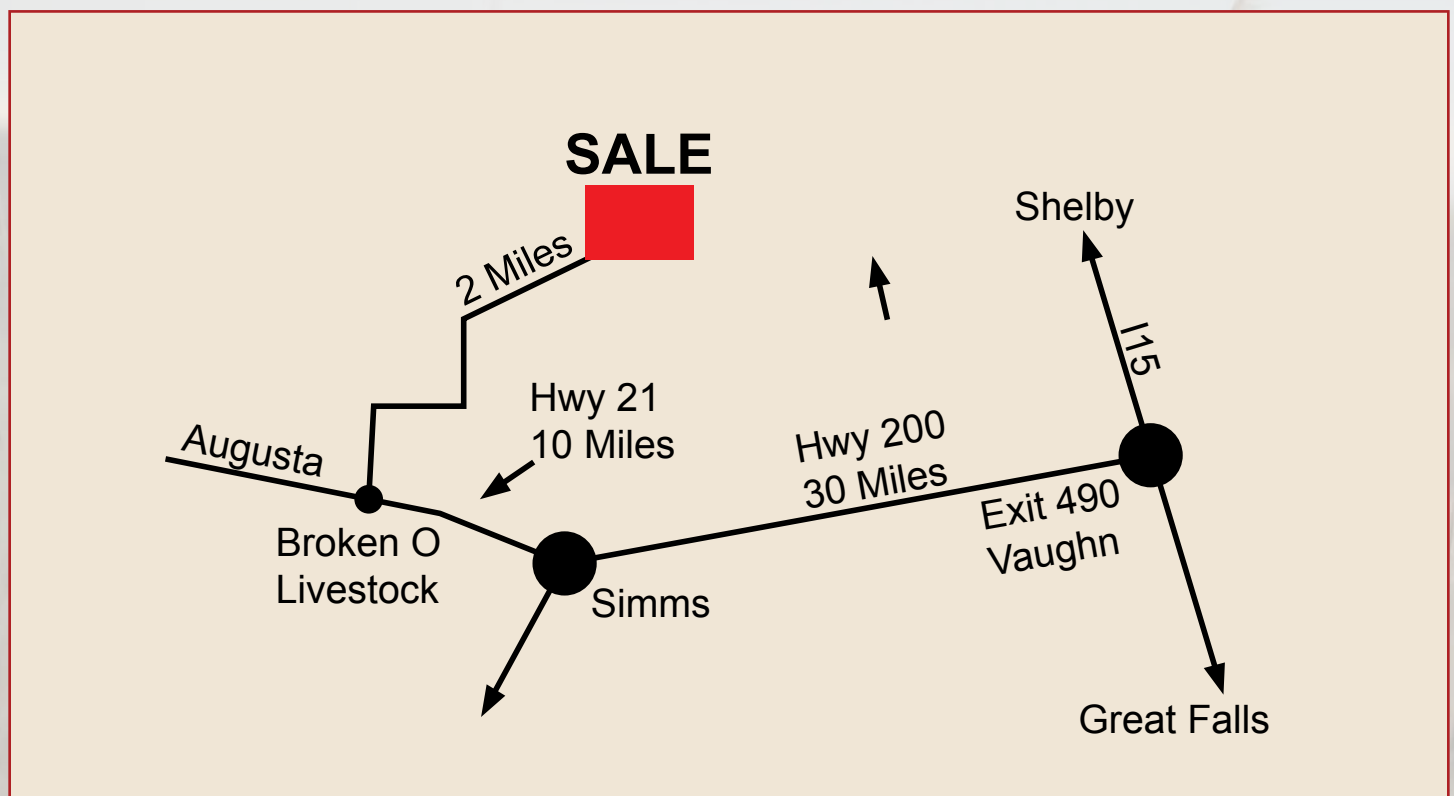

When we sort through the stacks of Bull Sale Books we receive each year, we notice everyone presents their data a bit differently. Surely, this can get confusing-but it's important to remember there is no right or wrong formula to building a catalog. We choose to present the data that is most relevant to the way we make breeding decisions, the way we manage our cattle, and the trends we want to be able to track and observe in each year's calf crop.

For example, we like to think of our cattle in simple, straightforward terms, that we can actually keep straight mentally and visualize. So we don't include as many EPDs as we could. We monitor our trends on all of the traits and understand their merit, but we strive to effect change according to what most of our customers need. So a simpler data set works well for us. We continue to provide actual records of ultrasound, gain, and birthweight, because we like to see whether traits are truly manifesting themselves - if the patterns in a sire group show that genetic markers have actually triggered and are doing what they promise. Large discrepancies or inconsistencies in a sire group are a red flag to us and will influence our decision of whether to use a sire again.

So please don't hesitate to reach out to one of us if you do not see data you need, or if it is unclear why we include it. We would love to help you utilize better the patterns we see when we put it together every year.

Sale Location

Open Gate Ranch

Friday, March 29, 2024

1:00 pm • Augusta, MT

At Broken O Land and Livestock

SCHEDULE OF EVENTS

FRIDAY, MARCH 29

All Day Cattle available for viewing
Come early for coffee and to see the bulls.

12:00 NOON Lunch

1:00 PM **OPEN GATE RANCH BULL SALE**

SALE LOCATION

Broken O Land and Livestock is located ten miles west of Simms, MT on Highway 21. For map and directions, see opposite page.

AUCTIONEER

Roger Jacobs

LIVESTOCK PRESS REPRESENTATIVES

John Goggins, *Western Ag Reporter*

Jeff Thomas, *Lee Agri Media*

Devin Murnin, *Western Livestock Journal*

SEMEN INTEREST

Open Gate Ranch reserves the right to collect semen for our personal use on any of the bulls offered in the sale. This will be done outside the breeding season at our expense.

SATISFACTION GUARANTEED

Open Gate Ranch offers a **COMPLETE SATISFACTION AND SOUNDNESS GUARANTEE** up to the second breeding season on every bull purchased at our sale. This includes bull replacement or full credit minus salvage against a new one. Please notify one of us immediately if any problem develops. We truly want to be the first to know.

Any individual purchasing **3 OR MORE BULLS WILL RECEIVE A 5% VOLUME DISCOUNT** off the purchase price.

There is **\$100 DISCOUNT PER BULL FOR HAULING** your own on sale day.

Buyers unable to attend the sale can **PURCHASE BULLS SIGHT UNSEEN** and know that when we deliver them - if you don't like them, you don't own them. Please contact us ahead of time if you would like to bid by proxy or by phone.

SALE DAY PHONE 406-264-5926

FAMILY PHONES:

Mike and Kim 467-2082 • Julie 590-4063 • Micah 590-1609

Dustin 590-6016

www.OPENGATERANCH.COM

ABOUT THE BULLS

The bulls are available for viewing at the ranch prior to the sale. They are located in the development pasture near the ranch. From Fairfield, take Hwy 408 west for 9.5 miles, turn north onto the gravel, top the big hill, 3/4 of a mile further the and the bulls are on the right.

Videos of the bulls available online www.opengateranch.com

EPDS on both sale bulls and Reference Sires are printed as calculated by American Simmental Association and follow the Simmental definition for each trait.

ULTRASOUND SCAN DATA was taken on 2/29/2024 by Sonya Gregory and interpreted at a Central Ultrasound Processing Lab. It is an actual calculation of each bull's carcass information that has been adjusted to a 365 day measurement, which will facilitate accurate comparison between bulls. American Simmental Association provided updated Carcass EPDs based on the scan data. IMF is marbling as a percent of mass, BF is back fat in percent of inch, and REA is rib eye in square inches. Ultrasound data available sale day.

SCROTAL EVALUATION AND FERTILITY TESTING was done by Dr. Cale Bjornstad on 2/22/2024.

WELCOME TO THE SALE

Nothing is more expensive than a *missed opportunity*

That great shift in the Beef Business that we talked about all last year, and have seen rolling out in every sector of sales, is a strong reality now. We are experiencing the tipping of profits back toward the cattleman, and the luxury of being in the driver's seat of our marketing decisions.

The industry analysts and professionals who make it their business and their work to study, spin and distill down OUR business and OUR work are all asking one big, looming question- "What are we planning to do about rebuilding the nation's Beef herds?"

There are plenty of people in the Beef Business right now wishing that 2 years ago they had retained or purchased as many heifers as they could get their hands on. Oh, for the crystal ball, the scoop, the inside track . . .

However, there are other, more meaningful ways to take advantage of an opportunity than simply increasing the cow herd. Many of us are in the reality of having a set land and resource base, with neither the space nor the labor to run more cows. So, if we're going to play it smart, what are our options? Some food for thought:

- we build our females with capacity: full bodied and solid, enabling the same resource base to be adequate to a highly productive herd
- we pay sufficient attention to carcass quality: both marbling AND YIELD, to avoid waste and keep consumer demand high
- we acknowledge that heavy calves are worth more than fat calves and learn to pay attention to muscle mass and how it is expressed in the genetics we purchase
- we continue to harness the powerful advantages of cross-breeding to capture maximum pounds and value out of exactly the same cows

Our Sale features large sire groups this year, each with their own strengths and styles. As you begin to make selections from the offering, we encourage you not just to look for what is familiar to you, but to also think about COMPLEMENTARITY. Take an honest look at the dominant characteristics of your cow base and ask yourself what is needed to make them even more complete. If we all stay keenly committed to the opportunity of investing in true genetic merit that is tuned to our own environment, then we will emerge from this heady cycle of high cash values prepared to weather anything that comes next. We will have rebuilt the nation's Beef herds, and rebuilt them better than ever.

Very excited to see you all at the end of the month! Our data in the Sale Book is not as complete as usual. You will find ultrasound results and their accompanying EPD adjustment values in a supplement sheet on Sale Day.

Please accept our warm greetings and best wishes for the remainder of your calving season.

Stay safe, keep at it.
The Open Gate Crew

HOOK'S EAGLE 6E

In his fifth year of siring an impeccable genetic profile that adds value to every segment, this attractive combination of performance and carcass quality is proving consistent, measurable, and versatile. You will notice that our group looks like a matched set, and they have all the way through.

HOOK'S EAGLE 6E Reference Sire.

FRIESEN
"Balanced Livestock Nutrition"

PROVETA
Nutrition Ltd.

Feeds Open Gate's Cattle

BRASS Formulated to provide nutrients for cattle at all stages of production.

JADE Formulated for first calf heifers and cows during late gestation through peak lactation to support dam and calf health

SAPPHIRE Formulated to provide nutrients to naive calves to support immune development and prevent malnourishment during stressful situations.

AMBER Free choice mineral with high magnesium concentration to prevent grass tentany in the spring months when forages are at their highest quality.

We pride ourselves on providing the best service for our customers based on the needs of their operation. Our year-round supplementation programs provide nutrients to gestating and lactating heifers and cows, growing cattle, bulls, and naive calves. Our services include nutritional consultations, forage testing, and diet formulations. Your herd's health, efficiency, and productivity are our main priorities!

Postcard from the Feedyard We've just rolled into our second year of retaining ownership of our feeder heifers. We won't pretend it wasn't a seriously intimidating step. The risk, the crossover of forgoing the Fall cash flow and investing more cost into our market animals, and facing the reality of an actual report card on genetic merit and EPD expression.

Two things propelled us toward the move: we were tired of accepting such a huge discount for our heifer mates, bred exactly the same as the steers and with just as much ability to perform and grade- and, we were seeking a way to get real time carcass data on the sire selections we make and the progeny we offer in our Production Sale.

Our Keys to Success so far? We partnered with a savvy lender, who has helped us to evaluate our budget projections and bridge the gap to a much longer marketing target. Most critically, we partnered with Butterfield Feedyards, a family of farmer/feeders in Atkinson, Nebraska who raise cattle similar to our own, have made a tremendous success of feeding them, and are willing to maintain a very transparent business and communication relationship with us. We are not too small for them to give us relevant and meaningful feedback, provide guidance, and offer an open door policy for seeing their operation and our cattle on feed. It has been an exhilarating and nail-biting learning curve, but one long overdue.

BCLR MANIFESTO G352

Deep and expressively muscled, he boasts perfect foot structure with flex and correct movement. He raises the bar higher than his sire's in capacity and structural soundness and brings a long legacy of maternal excellence to the package.

BCLR MANIFESTO G352 Reference Sire.

DEER VALLEY GROWTH FUND

A fresh pedigree for our program that springs from the legendary Basin Payweight and a line of maternal cows that are considered Angus royalty. Capturing attention on paper and in the pasture, he is moderately framed with a powerful hip and rear leg, extra neck extension, a smooth shoulder, wide top and wide base. Capacity for gain readily apparent.

DEER VALLEY GROWTH FUND Reference Sire.

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDS): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario.

BACK FAT (BF): Inches of carcass backfat at 475 days.

BIRTH WEIGHT (BW): Pounds of birth weight.

CALVING EASE (CE): Percent of unassisted births when used on heifers.

CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.

DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).

MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.

MILK (MLK): Pounds of weaning weight due to milk.

MARBLING (MARB): Carcass marbling score at 475 days.

MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.

RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.

TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario.

WEANING WEIGHT (WW): Pounds of weaning weight.

YEARLING WEIGHT (YW): Pounds of yearling weight.

YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

For more detailed information about EPDs and \$ indexes, visit: www.simmental.org

CDI MAJOR IMPACT 280H

High ranks for growth, elevated performance and product driven offspring. Some Purebred Simmental options here with massive rib eye and sound calving ease that would really compliment a set of traditional Angus cows.

FF CONCLUSION F83

Chase at Universal Semen Sales keeps an eye out for our style of Angus Bulls to use in building Half Bloods. He recommended this rugged, powerfully shaped young herd builder prospect out of Jeff Fleisch's program and we're so glad we tried him out. We love his individual performance scores, we love that he is Montana made, and we love how balanced his carcass merit turned out in the matings.

FF CONCLUSION F83 Reference Sire.

EFFECT OF SIRE BREED ON SALE PRICE OF BEEF STEER CALVES

Superior Livestock Auction, Summer 2020^a

SimAngus™-sired steer calves sold through Superior Livestock Auction in summer 2020 earned **more at sale time** than all other calves.^b

It's no wonder the percentage of **SimAngus™** calves marketed through the industry's largest video auction has grown **eightfold** since 2010.

Want low-risk, high-potential calves with earning potential?

STAND STRONG SIMMENTAL

406-587-4531 • simmental.org

^a For lots of 50 head or more. ^b Kansas State University, December 2020, Superior Livestock Auction data analysis of 3,280 lots, 394,900 head of beef calves marketed during summer 2020. (P<.0001)
^c Lots that qualified for breed-related programs were excluded from the model due to potential confounding effects with sire breed analysis and, for many, few lots in the data.
^{d, e, f} Means without a common superscript differ (P<0.05) Lots of calves in breed-identified groups were sired by bulls from the respective breeds and out of dams with no Brahman influence.

Your only locally owned & operated livestock video auction with an extensive national buyer base.

Plan to use our **Northern Weekly Timed Online Auctions** late September through early June.

Call for details (866) 616-5035 or go to northernlivestockvideo.com

As we enter our 21st year of business, we invite you to market your cattle and sheep with us as one of the leading marketing firms in the nation. As a consignor or a buyer you will like our way of doing business.
