Redland Angus, Kendrick & Sharon Redland would like to invite you to our annual RANGE CALVED – RANGE RAISED® Production sale!!

We would like to take this time to thank all of you for your interest & continued support of our program!

This offering of bulls and females is a continuation of our program where we are using time tested, proven genetics that are put to the test in a least cost range environment.

Our program has always been and will continue to be centered around a cowherd that is moderate framed, easy fleshing with sensible milk and above average muscle. To make sure that is the type of Genetics that you are buying, we run our cows out in a range environment where they take care of themselves and calve on their own.

The bulls that we are offering in this sale have generations of this type of selection behind them to help you generate a high level of cost efficient production in your herd. We realize your net profit is dependent on your cow herds ability to produce in a least cost environment. The same is true for us and the cattle we produce and offer for sale.

The females selling are coming right out of the herd that produced the bulls in this sale. Also selling will be the fancy F-1 bred heifers from the Doyle/Herman Ranch.

Northern Livestock Video will be broadcasting our sale via the internet at www.northernlivestockvideo.com. If weather or distance prohibits you from making it to the sale, please contact us about our guaranteed Bid Program, 100% satisfaction is guaranteed on cattle purchased if we assist you with your purchase.

We are happy to help you in any way we can so please don't hesitate to give us a call.

We look forward to visiting with you and invite you to join us sale day for a delicious lunch starting at 11:00 am prepared by the Johnson County Cattle Women.

We look forward to seeing you Saturday November 23, 2024!

Reference Sires for Redland Angus Bred Heifers Selling

Cow Power is a long, deep bodied, big ribbed, smooth made bull with a big wide square butt. He started with just a 60 lb birth weight out of a first calf heifer. Weaned at 700 lbs. Gained right at 4 lbs after weaning with a yearling weight of 1362 lbs. His pedigree has generations of cows that have excelled for fertility, udder quality, productivity and fleshing ability. Cow Power is going to be a can't miss sire and will be a big part of our program in the future. We range calved heifers bred to Cow Power last spring with good results.

With two of the best cow families in the breed behind him, expect 2008 to sire females with very good teats and udders, depth of body, fleshing ability and fertility. He has been one of the most consistent calving ease bulls we have used. His calves have displayed excellent vigor at birth with above average muscle & performance.
