Welcome to the 4TH ANNUAL HOLLOW TOP ANGUS FALL PRODUCTION SALE.

We are proud once again to invite you to our ranch in Pony for what I believe will be great sale of outstanding bulls. These bulls are easily the best set that we have produced to date; you will see another year of strong progress toward our goal of developing uniformity and well-conditioned bulls, delivered in condition to immediately go to work and thrive at elevation.

Our 2025 sale features a consistent set of 95 high-quality bulls that uniformly meets our phenotype standard and production goals - longevity with fertility and the ability to work at high altitude. The bulls in this sale are very docile, practically sized, and muscular. These bulls are backed by females with strong maternal instincts and great feet; most are PAP-tested. Approximately 78% of the bulls offered in this sale we consider to be "low risk", in other words their actual PAP scores are below 42 mmHg. Videos of bulls are available on our website along with more detailed EPD data. If you are concerned about feet, the bulls' feet are pictured and displayed with the videos and EPD data on our website as well, www.Hollowtopangus.com, under the sale tab.

On behalf of my family, I want to thank the many outstanding folks who make this operation and sale possible. We want particularly to thank Mr. Chace Iverson our Ranch Manager and his wife Emily. Chace manages the ranch and is responsible for the development and care of the herd. Emily handles administrative issues for the ranch including our bookkeeping and maintenance of all the myriad data collection efforts. Sean Mattice, in addition to his role as Chace's "straight-man", takes care of and maintains our horses. He and his wife Addie frequently helps Chace with the cows and bulls. Cody Johnson and his incredible family, are in charge of our water and grass/alfalfa production, but also help handle the bulls, cows and heifers when needed. Dave Mullins provides his cattle expertise, marketing acumen and his staff to prepare this year's catalog. Isaiah Shnurman manages all our social media work and also has provided valuable bovine expertise. Dr. Todd Shenton, Cache Consultants, our nutritionist, oversees our nutrition program, and our veterinarians, Dr. Ross Chewing, and Dr. Ben Abbey, who does our PAP testing.

Lunch will be available beginning at 12:00 pm on Sale Day, December 8. We also welcome you to visit the ranch any time before the sale to view the bulls, cows and heifers and the terrain and environment where they are raised and conditioned.

If you have any questions, please feel free to call any of us at the numbers listed below. We look forward to meeting you and discussing this fine set of bulls.

-Porter Bennett

Customers purchasing 5 or more bulls will receive a 2.5% discount. Purchases of 10 or more will receive a 5% discount.

PICKUP/DELIVERY

Delivery service will be provided by Hollow Top Angus free of charge for purchases over \$4,000 to central point locations, if the destination is to a site in Montana or a contiguous state. For deliveries to states that are not contiguous, transportation charges will be based on estimated costs.

Bulls may be picked up immediately after the conclusion of the sale or by noon the following morning. Buyers who pick up a bull either that afternoon or on the 10th will receive a \$100 discount per bull.

If a buyer cannot take their purchase immediately, Hollow Top will care for your bulls at our development center. While we encourage customers to take delivery as soon as is practical, HT will care for the bulls based on the recommendations of Dr. Todd Shelton, our nutritionist, through March 31, 2026. There will be a small charge for this service. For more information, contact Chace Iverson.

HERD HEALTH & NUTRITION

All cattle sell with required health papers for interstate shipment. Trich and other state-specific vaccinations will be obtained as soon as possible. All bulls have passed fertility tests administered by Dr. Ross Chewing, who will be available on sale day if you have any questions.

Dr. Ben Abbey administered the PAP tests on August 30, 2025, at approximately 5,800 feet above sea level.

Dr. Todd Shenton, with Cache Consultants, designs our nutritional program. The bulls are fed free-choice hay and a customized energy/protein pellet daily.

TERMS & CONDITIONS

Bulls sold in the sale at a value exceeding or equal to \$5,000 will be fully warranted if they are injured through their first breeding season, which is defined as the 90-day period commencing with their turn-out. If they are injured and cannot return to service, we will attempt to replace them with a comparable bull if available. If one is not available, we will provide a credit toward a future purchase for the purchase price minus any salvage value paid to the customer for the bull. All injured bulls must be diagnosed by a veterinarian and a copy of the report sent to Hollow Top Angus. In the event of an injury, please notify Hollow Top Angus as soon as possible and before the bull is sold for salvage. All injury claims must be reported by September 1, 2026.

All cattle will sell under the current terms and conditions suggested by the American Angus Association, (https://www.angus.org/Pub/suggested_sale_terms.pdf). All purchases are to be settled on the sale day. Online buyers will receive an invoice, payable on demand. No cattle will be delivered without prior payment.

Hollow Top Angus is selling possession and 100% semen interest for all bulls unless otherwise noted in the catalog.

This guy has herd sire and cow maker written all over! Balanced on performance with EPDs in all the right spots. Sired by Ellingson Preeminent and his dam SMC Lucy 7075 from our donor lineup, he combines a lot of great pedigrees. Calving ease in the top 15%, with WW 77 and YW 129, he also ranks top 3% for \$M, and SC top 10%, HP top 20%, with Angle top 2% and Claw top 15%. Actual PAP is 36, and PAPEPD is top 15%.

This big rugged Stellar son will be impressive when he matures. He is an ET from our foundation donor SMC Lucy 7075. We really like this highly proven pedigree that combines 308Y and Conanga 9109.

SMC
LUCY 7075

SMC Lucy 7075 is a new addition to our donor herd acquired from South Mountain Ranch in Caldwell Idaho. She is a productive young cow with added capacity, a beautiful udder, a good disposition, and good feet. She ranks in the top 1% of the breed for PAP EPD, and the top 3% for \$M. We are excited to add 7075's influence to our breeding program here at Hollow Top.
