

2025 Sundling & Lane Ranches Cow Sale

December 2, 2025

1pm

Billings Livestock

www.northernlivestockvideo.com

Ty Thompson, Auctioneer

Ranchers and Cattle Producers,

This year, we're excited to be offering over 2,000 head of Bred Cows & Bred Heifers!

Having been involved in the cattle business our entire lives, we want to provide our customers with quality bred females that can carry forward in your own operation. We strive to provide careful sorting and scrutiny to eliminate problems. Accurate pregnancy testing, veterinarian approved health protocols, low stress handling techniques and quality nutrition are important components of our cow herd program.

As always, the cattle are predominantly Angus and Angus bred. We will be offering maybe the best Black Baldy Heifers in America, AI'd to Shipwheel BLS Bravado 1536. We will have several sets of Angus Bred Heifers AI'd to leading sires Stuckey Dynamic, Raven Republic, and AAR Midas. An exceptional set of Black Angus coming 3's bred to Cooper Hereford bulls, a spectacular set of Red Angus coming 3's, and loads of Black Angus 3's bred to high quality Angus sires. The sale will be topped off with a large offering of our own ranch raised, running age "Heart of the Herd Foundation Females."

Keeping with our theme of low stress, having the cattle arrive at your ranch in excellent condition, and striving to be your current and future source of bred female, we have brought in the services of Northern Livestock Video Auction and their team at Billings Livestock Commission Company. The sale will be conducted live at Billings Livestock with online bidding through Northern Livestock Video. Spencer Cooney will be representing the cattle on behalf of Sundling & Lane. The cattle will be delivered from their home ranches and pastures, sorted into age and calving groups, and then offered in their natural Ranch Country settings. They will be available at your discretion, and available for viewing on any of the ranches prior to the auction. If you have any questions about the Cattle or the Sale, please don't hesitate to reach out to us.

There are two ways to bid and view: live at Billings Livestock or online www.northernlivestockvideo.com. Sale starts at 1:00pm. MDT on Tuesday, December 02, 2025. Complimentary prime rib lunch available starting at 11:00 am.

The bred heifers and bred cows will begin being delivered within a couple days after the sale.

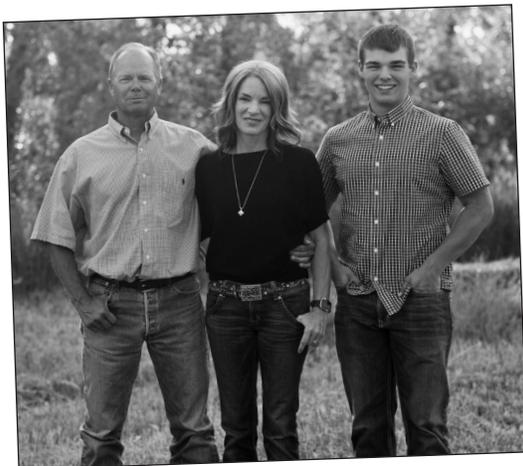

Tremendous efforts are put forth to produce a sale where cattlemen can buy females with ease and confidence. We thank all of you for your interest and support. Tom Lane and Tim Sundling stand behind these cattle. We feel we are providing a quality product and believe you will be pleased with the outcome.

We could not do any of this without the constant support and efforts of our families and faithful employees. We feel we have the finest Ranch Crew in south central Montana. Our families work tirelessly through the year supporting our cattle endeavors.

The future of the cattle business is boiling with opportunity. Higher calf prices, cheaper feed and more rain are here in Montana and throughout the West. Continue to be ready to be part of the greatest cattle market in history! Buy quality bred females from the Big Sky State!

Your Friends,

Tim & Peg Sundling and Tom & Joey Lane
