Bid through Northern Livestock Video Auction's NEW Online Bidding

Platform! Desktop and Mobile Friendly

For the Desktop:

1. It is best to use the Google Chrome web browser.
2. **Pre-Register at least one day prior to the sale.**
3. Go to bid.northernlivestockvideo.com and click "Get Approved to Bid".
4. Doing this will prompt you to create an account, after which you will fill out a bidder approval application.
5. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided.
6. On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!

For the Mobile:

Use your mobile device to download the Northern App and follow the above steps to get approved.

There is an instructional video on how to register to bid on our website, www.northernlivestockvideo.com if you have any questions.

For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.

Phone Bidding:

Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone.

To register with NLVA call 866-616-5035 Before Sale Day.

View the Online CATALOG and VIDEO CLIP of each BULL selling at www.northernlivestockvideo.com.

Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

Northern Livestock's Sale Day Bid Line: **1-406-245-0889.**

South Montana Angus Association

Motel Information

Fairmont Hot Springs Resort 406/ 797-3241

Quality Inn. 406/ 494-7800

Bids May be given to the Auctioneer or any of the Livestock Press Representatives.

Guarantee First Year Breeding Guarantee (Breeding season is defined as the 90 day period following the first turnout of the bulls). All bulls selling for \$3,000 or more will be given 50% of the value of the injured bull, minus any salvage value, toward a refund or replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify the consignor of the bull should an injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2026.

Example 1: A \$4,000 bull is injured and will not heal. A credit of \$2,000, minus any salvage value will be given to the buyer.

Example 2” a \$2,750 bull is injured and will not heal, no credit is given. Buyer retains all salvage value.

A copy of the sale receipt must be received by the consignor to receive proper credit.

Mortality insurance is available through John Goggins.

Terms and Conditions The cattle sell under the Standard Terms and Conditions adopted by the American Angus Association. Each animal becomes the risk of the purchaser as soon as sold; but it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser until loaded for shipment or until the end of March, whichever occurs sooner. Any feed cost incurred after April 1, is negotiable between buyer and seller.

Trucking and Delivery Free delivery within a 300 mile radius, beyond at cost. Please leave your complete mailing address, phone number and desired trucking arrangements when settling for the bulls. It is important that the buyer or personal representative of the buyer receive the bulls when delivered.

View, Bid & Buy Online If you can't make it to the sale, we welcome you to bid and buy at Northern Livestock Video Auction and Cattle USA.

Cattle USA

There are three easy steps:

1. Log on to CattleUSA.com
2. Register to bid and buy, submit to Montana Livestock Auction. (PLEASE register at least 2 days prior to the sale. You will be contacted with a buyer's number via email.)
3. On sale day, log on to CattleUSA.com, go to Montana Livestock Auction and you can view bid, and buy.

If you have any questions or need help of any kind, please contact Cassidy Brunner at 406/ 782-1884.

Northern Livestock Video Auction

EPDs current as of February 19, 2026.

Updated EPDs can be viewed at www.Angus.org.

Dear Cattlemen and Women,

We invite you to attend the annual South Montana Angus Association Performance Test Bull Sale on March 21, 2026, at the Montana Livestock Auction, Ramsey, MT.

South Montana Angus Association

8393 US Hwy 287
Townsend, MT 59644
406/431-6113

This bull sale is one of the longest association sales in the country. What a great time to be in the cow business, I hope everyone had a record year. Our consignors are proud to offer a group of high-quality Angus bulls that will meet our buyers' needs, ranging from growth bulls to heifer bulls. The performance testing of these bulls includes a 100-day test at Dyk and Son's located in Manhattan, MT. In addition to performance index testing, these bulls once again have been tested for Genome Enhanced EPD's to give the buyer higher predictability for passing desired traits to their progeny. We will have videos of bulls available on Northern Video Livestock Auction or you can view them anytime in person prior to the sale at Dyk's feedlot.

If you have any questions, please contact any of the consignors or Ron Frye Marketing. We are pleased to once again provide lunch prepared and served by the Powell County High School Future Farmers of America.

We appreciate the opportunity to offer another set of high-quality bulls and look forward to seeing everyone on sale day!

Sincerely,
Casey Elmore
South Montana Angus Association President

Welcome to the 2026 South Montana Annual Bull Sale!

This event is more than just a "Performance Bull Test"—it's a gathering of premier Angus breeders bringing their very best bulls for your consideration. These are the top-end selections from each program's calf crop, offering you a rare opportunity to choose herd sires built to move programs forward.

For decades, the South Montana sale has been a cornerstone of this region, supplying high-quality Angus genetics to both registered and commercial cattlemen. As one of the longest-running consignment sales in the United States, its legacy runs deep. Nearly every major breeder in the area has been influenced by this sale—whether as a consignor, a buyer, or through the genetics that have gone to work in their herds.

This year's offering is high quality from top to bottom. The bulls represented come from dedicated cattlemen and cattlemen who understand what today's commercial cattle industry demands. The sire groups reflect some of the very best genetics the Angus breed has to offer, selected with performance, functionality, and real-world value in mind.

If you have any questions or need assistance as you prepare for the sale, don't hesitate to reach out by call, text, or email. We look forward to seeing you at the 2026 South Montana Annual Bull Sale!

Warmest regards,

MARKETING

Retained Interest

*Some of the consignors Reserve the Right to retain 1/3 semen interest in the bulls sold.
The 1/3 semen interest is a semen revenue sharing interest only,
with 100% possession of the bull belonging to the buyer.*

Visual analysis tells you what a bull appears to be.
The pedigree tells you what a bull ought to be.
The performance and progeny tests tell you what the bull is.

Thank you to Powell County High School FFA for providing the lunch today.

**South Montana Angus Performance Bull Consignors
donate 10% of the winning bid from the
tenth bull sold in the sale to the Montana FFA Foundation.**

*Growing the next generation of leaders
who will change the world.*

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 10-36 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	26	Heifer Pregnancy	17
Birth Weight	23	Calving Ease Maternal	20
Weaning Weight	27	Milk	36
Yearling Weight	23	Mature Weight	15
Dry Matter Intake	12	Mature Height	9
Scrotal Circumference	15	Carcass Weight	15
Docility	12	Yearling Height	17
Claw Set	10	Carcass Marbling	11
Foot Angle	10	Carcass Ribeye	17
		Carcass Fat	14

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

Can't say enough about the dam of lot 13. At 16 years of age, she is still rockin it with an 856# bull calf. An actual Sitz Alliance-Traveler Power combo that's second to none. She boasts 10W@111;9Y@105. This calf is as "good as old school gets".

N544 is a moderate made Craftsman son with a great deal of capacity and is backed by a great cow. His dam stems from the famous Isabel cow family and has over 62 progeny recorded. Many maternal sisters to this bull have been retained in the herd and exhibit great fertility, mothering ability, and udder quality. PAP Score 40.

Lots 39-41 are a set of flush brothers out of the great E327 donor known for her power and as the dam of the \$97,000 Baldrige Pratissa J071. These bulls blend breed leading growth and carcass merit that will sire a tremendous set of feeder calves. Their full sister calved this spring and is a beautiful female with ideal udder structure that will likely find her way to our donor pen. PAP Score 38.

+6	+2.2	+77	+142	+18	+37	+7.6			

A standout stud since birth...that checks a lot of boxes. This group of SAV Scalehouse ET brothers (2 more at home) have really weighed down the "scalehouse". 5027 was tied with his brother 5028 for our heaviest weaning bull calves at 792 pounds in late August. His maternal granddam is the famous Madame Pride 4407 cow at SAV, mother of the \$275,00 SAV Bullion, \$150,000 Courage, \$100,000 Downpour. He sports an actual PAP reading of 39 and is full of red meat. If you still sell steer calves by the pound help yourself. The heifer calves should be maternal standouts like his Checkmate dam sporting a big spring of rib, feminine fronts, and good-tight udders just like their donor dam.

Another early growth standout that is easy on the eyes, gaining 3.8 pounds per day on test. This SAV Scalehouse son is stout, long and flat good. He had a low PAP reading of 48. Again, if you sell calves by the pound help yourself. His maternal granddam is the famous Madame Pride 4407 cow at SAV, mother of the \$275,00 SAV Bullion, \$150,000 Courage, \$100,000 Downpour. +4	+2.8	+88	+157	+17	+65	+5.4			

This younger ET bull is by the \$200,000 Spring Cove Grant and the Donna 014 and should sire a consistent set of calves that are pounds heavier and maternally sound. A full sister to our standout Donna 808 donor, 014 hasn't shirked her duty when it comes to raising calves of her own. Moderate framed, perfect uddered females and stout, well-made bulls have been a hallmark of her progeny. These full brothers should produce standout replacement heifers with a maternal edge. Actual PAP of 49 means this guy is ready to perform in high altitude environments.

A True heifer bull prospect by Sitz Heritage, big topped and growthy. He sports a top 5% PAP EPD of -1.70 (actual 42 PAP), +10CED (top20%) and -1 EN (top 15%), +1.02 REA (top 20%). His maternal standout mother has done a great job for us and is one of my favorites going back on the maternal side to the rare Rainmaker 654X. She is easy going, nice uddered and big ribbed out of our old Captain bull that left us some great daughters. We actually are going back and using him again...they are that good.

SUGGESTED* SALE TERMS AND CONDITIONS • AMERICAN ANGUS ASSOCIATION • February 21, 2014

UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OF ANGUS CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.

Announcements

1. If there is any inconsistency in the terms of any sales materials, including sale books, supplement sheets or day-of-sale announcements, (i) the day-of-sale announcement will control over both the supplement sheet and the sale book, and (ii) the supplement sheet will control over the sale book.

Cash Sale

1. All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale.

Buyer's Risk at the Time of Sale

1. The risk of loss and injury of each animal passes to the buyer as soon as it is sold; however, it is the obligation of the seller to ensure that sold animals are fed and cared for free of charge to the buyer until loaded for shipment or until the expiration of 24 hours after the sale, whichever occurs sooner.

Identification Responsibilities

1. Prior to the sale, the seller must ensure that each animal has a readable permanent identification mark (e.g., tattoo, hot-iron brand or freeze brand) corresponding to its registration.
2. The buyer must check all permanent identification marks for accuracy upon possession and report any discrepancies or irregularities to the seller immediately.
3. In those cases where a nickname is used by the seller, the nickname must also be accompanied by the official registered name and number of the animal.

Certificates of Registration

1. A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within 45 days following the later of either the date of sale or upon the receipt of full payment.

Artificial Insemination (AI) Service Certificates

1. AI Service certificates will be the responsibility of the buyer unless otherwise specified by the seller.

GUARANTEES

Health

1. Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by applicable federal and state regulations.

Conformance with Registration

1. The seller guarantees that all sold animals are registered in accordance with the rules of the American Angus Association.
2. The seller guarantees to the buyer that all sold animals conform to the registration certificate as entered in the Herd Book of the American Angus Association.
3. The seller guarantees to the buyer that with respect to all females exposed to multiple service sires, each such service sire will have parentage markers on file with the American Angus Association. (As adopted February 21, 2014)

Pedigree, Performance and Genetic Information

1. The seller guarantees to the buyer that the pedigree, performance data and genetic information, as represented in any sales materials (including any sale book, supplement sheet or day-of-sale announcement), are accurate. The seller shall provide "as of" date for all information from the American Angus Association database.
2. The absence of any such designation on the pedigree of an animal, as set forth in any sales materials, does not establish that the animal in question is not a carrier of any such genetic factor.
3. In those cases where a commonly understood nickname is used by the seller, the seller guarantees the pedigree of the animal based on the commonly understood nickname.

Sex

1. Unless otherwise represented by the seller, there are no guarantees that offspring will be of a particular sex.

Breeding Guarantees

1. The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; and (d) animals subjected to gross negligence by or willful misconduct on the part of the buyer.
2. The seller guarantees that all bulls are breeders for a period of 90 days following the initial turn out with buyer's herd, but only if such bulls are at least 12 months old at the time of sale and have not been allowed to run with the herd until at least 14 months of age. A bull that settles a cow by natural service and passes a fertility test performed by a competent veterinarian or reproductive technician mutually agreed upon by the buyer and the seller will be considered a breeder. Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.
3. Cows with calves at their side are presumed to be breeders with no further fertility guarantee.
4. "Safe-in-calf" females are guaranteed by the seller to have been examined by a competent veterinarian or reproductive technician and determined to be safe-in-calf by examination or other proven method (e.g., ultrasound, pregnancy blood tests, and rectal palpation).
5. "Served" females are not guaranteed to be in calf.
6. "Pasture-bred" females have been exposed but are not guaranteed to be in calf.
7. "Open" females are guaranteed by the seller to be without calf.
8. Donor females:
 - a. Unless otherwise agreed by the buyer and the seller, a female that has been used in an embryo transfer program is not guaranteed to be a breeder after the date of the sale.
 - b. Unless otherwise agreed by the buyer and the seller, a female is not guaranteed to be a breeder after the date of the sale, when that female is to be used, or attempted to be used, in an embryo transfer program.
9. The seller makes the following guarantees with respect to all "pregnant recipients": (i) that the female is pregnant, (ii) that the resulting calf is of the pedigree represented, and (iii) that the resulting calf is of the sex represented (if so represented).

Semen

1. Unless otherwise agreed by the buyer and the seller, with respect to the sale of semen the seller makes no guarantees with respect to the performance or characteristics of such semen and the buyer is purchasing such semen "as is."

Embryos

1. Embryos being offered for sale will be sold "as is" unless the seller provides additional guarantees.

Privileges of Return or Adjustment: Options

1. With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.
2. Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.
3. If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed fully and satisfactorily resolved. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.
4. If a female sold as "safe in calf" proves not to be in calf, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of the sale.
5. If a female represented as "safe in calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of sale.
6. If a female sold as "open" proves to be with calf, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. The Seller is responsible for all transportation expenses.
7. White skin or hair must not be painted or altered. If such painting or alteration has occurred, the buyer may return the animal to the farm of the seller for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer.
8. If an animal is sold and subsequently becomes ineligible for registration under the rules of the American Angus Association for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.
9. If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the second anniversary of the date of the sale.
10. If the resulting calf of a pregnancy is not of the sex represented at the time of the sale, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary date of the sale.
11. Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

Disclosure or Retention of Genetic Materials

1. If seller retains any genetic materials of an animal being sold that can be used for cloning, the seller must disclose such fact to any potential buyers prior to the sale.

GENETIC CONDITIONS: REQUIRED DISCLOSURES RELATING TO CERTAIN TEST RESULTS OR POTENTIAL CARRIER STATUS OF AN ANIMAL.

1. In advance of any sales of an animal, the seller shall have the affirmative duty to notify any potential buyer of (1) any test results in which an animal for sale has tested positive (under a test and at a laboratory approved by the American Angus Association) as a carrier of any genetic conditions recognized by the American Angus Association, and (2) whether the animal has a potential carrier designation on its pedigree for any genetic condition that is recognized by the American Angus Association.

Optional Guarantee: Genetic Conditions

1. The buyer and seller may determine the scope and duration of a guarantee, if any, on an individual basis. The seller may, but is not required, to provide a guarantee to the buyer relating to genetic conditions.
2. Nothing contained herein should be construed to relieve the parties from complying fully with all the rules and policies of the Association relating to genetic conditions generally or individually.

MISCELLANEOUS

1. The above terms and conditions of sale constitute a contract between the buyer and the seller of each animal and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.
2. Neither the American Angus Association nor any director, officer, employee or representative of the Association or any of its related entities assumes any liability, legal or otherwise, in connection with any sale or transaction conducted under the terms of the Suggested Sales Terms and Conditions. Nor shall the American Angus Association, its directors, officers, employees or representatives assume any liability or be responsible in any way for enforcing the terms and conditions of any agreement between buyer and seller.
3. Neither the sponsor or sponsors, the sale manager, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.
4. These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale of the animal or animals occurs, without giving effect to such state's choice of law rules.

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef*® brand.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

Only 1 in 4 non-parent Angus bulls qualify.
