FERTILITY

Bulls are semen tested and scrotal measurements will be available online in early March and on sale day.

VOLUME DISCOUNT

Vermilion offers, in addition to the first breeding season guarantee, a \$100 discount off third bull purchased, and \$100 off for each additional bull purchased by a single buyer.

DELIVERY ARRANGEMENTS

Free delivery on bulls to central stockyard points in Montana and adjoining states. \$100 discount per bull that is picked up at the sale. Females will be delivered at cost.

FIRST BREEDING SEASON GUARANTEE

All bulls will be covered 50% by Vermilion Ranch **if they are injured during their first breeding season**. Breeding season is defined as the 60-day period following the first turnout of bulls.

50% of the value of the injured bull will be given as credit in a future Vermilion Ranch sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. **ALL CLAIMS MUST BE MADE BY SEPTEMBER 1, 2026.**

500 TOTAL PERFORMANCE Yearling Angus Bulls

5,000 Fancy Open Commercial Angus Replacement Heifers

45 First-Calf Pairs • 30 Registered Bred Heifers • 100 Embryos

Welcome to Our Spring Performance Sale!

On behalf of Babe Goggins and our entire family and crew, we would like to thank all of you, our valued customers, for your interest and support over the years.

We have two big days of sales and are very excited for you to come and appraise this offering. Day one will start with 5,000 head of commercial replacement Angus heifers, starting at 12:00 noon, at our South Pryor Development Center. They will all be sold by their ranch of origin. If you've never had the opportunity to come tour our South Pryor Development Center, it is like no place on Earth. Also selling at South Pryor will be 45 first-calf heifer pairs; all with calves by Vermilion Irish Whiskey born in March. We will finish day one with the sale of 30 front-end Registered Fall bred heifers and about 100 embryos at PAYS. That sale will start at 5:00 pm. Day two, we will sell 500 yearling bulls, starting at 11:00 am. These bulls have been bred and developed with the commercial industry in mind. They have what we like to call "Pat's Look!"

Over the years it has become very apparent to us that breeding cattle that have LOOK, PERFORMANCE, MATERNAL POWER and CARCASS MERIT is Not Easy! We still think our eyeballs are our best tool for breeding cattle selections, we will not give up the Vermilion Look. We run a lot of our cows in big tough country, we will always select genetics that will make a momma cow! We always have and always will, select genetics that have length of body, performance, and good feet and legs bred into them. The one thing we have focused on the last few years is selecting genetics that have superior carcass merit without giving up look, performance and cow power.

We are in historical times in the beef business!! I well remember our father, the late Pat Goggins, telling us just before he passed away "I'll never see it in my lifetime but I guarantee you kids will see it in your lifetime, and that is that those of us that make a living selling grass, those of us that make a living with the factory, that cow and calf, we are going to be in the drivers seat. We are going to lose enough producers out of this business that will never come back, that we will get paid well for our product for a long time". Well folks, I think Pat was right! Sure seems like those of us in the cow/calf business are currently in the driver's seat!

In closing we would like to thank our crew on all the ranches for their unbelievable dedication to this outfit. We couldn't do what we do without these people, our Vermilion Family! It is a great time to be in the cow business. It is a great time to live in AMERICA!

God bless you all,

Joe Goggins

Unified is one of the most outstanding bulls we have ever put into our program. Phenotypically hard to fault with length of body, lots of muscle and structurally sound. His EPD profile excels in so many categories. Top 1% SM and SW, for those that PAP is important -1.85 top 4% in the breed, and coming from a herd that has done meaningful PAP testing for over 20 years. But more importantly he has exceeded all expectations as a breeding bull. The calves are vigorous when they hit the ground and are up and going. A tremendously high quality, uniform set of calves that perform at every level. The calves out of 135 first calf heifers, birth weight average is 75 lbs.

He is one of the most popular outside bulls we have used. Great reports from cattlemen across the country on their Teton sons. His son topped our fall sale at \$45,000 to Grimmus and another son sold to Deer Valley in Tennessee and Long Angus in Oklahoma at \$27,000. We are calving his first daughters and they are fabulous.

A Guide to Genomic Enhanced EPDs

All bulls have been AngusGS tested. To assist in your selection, below is an explanation of each EPD that is listed with each bull.

PRODUCTION EPDs

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MATERNAL EPDs

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

MANAGEMENT EPDs

Pulmonary arterial pressure EPD (PAP), is expressed in millimeters of Mercury (mmHg), with a lower EPD being more favorable indicating a sire should produce progeny with a lower PAP score. PAP score is an indicator of susceptibility to high altitude disease commonly experienced at elevations greater than 5,500 feet. Selection for this trait aims to improve the genetic potential for a sire's progeny to have lower PAP scores thus a lower chance of contracting high altitude disease increasing the environmental adaptability of cattle living in mountain areas.

CARCASS EPDs

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

ANGUSGS

Powered by Neogen GeneSeek

\$VALUE INDEXES

\$Value indexes, an economic selection index allows multiple change in several different traits at once pertaining to a specific breeding objective. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if the sires were randomly mated to cows and if calves were exposed to the same environment. [More Info](#)

Maternal Weaned Calf Value (\$M), an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W), an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

Beef Value (\$B), a terminal index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for postweaning and carcass traits. This terminal index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a carcass grid. Traits included in the index are as follows: yearling weight, dry-matter intake, marbling, carcass weight, ribeye area and fat.

Combined Value (\$C), an index, expressed in dollars per head, which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), docility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).

What's a good EPD?

The BREED PERCENTILE TABLE below may provide a helpful guideline to determine an individual bull's merit.

The data in this table is for non-parent bulls, as reported in the American Angus Association's Spring 2026 Sire Summary.

Spring 2026 Non-Parent Bull Percentile Breakdown

Top Pct	CED	BW	WW	YW	Milk	Marb	RE	\$M	\$W	\$B	\$C

Your only locally owned & operated livestock video auction with an extensive national buyer base.

Plan to use our Northern Weekly Timed Online Auctions late September through early June. Call for details (866) 616-5035 or go to northernlivestockvideo.com

As we enter our 23rd year of business, we invite you to market your cattle and sheep with us as one of the leading marketing firms in the nation. As a consignor or a buyer you will like our way of doing business.

2026 SALES

- Early Summer Special June 25-26
- Summertime Classic July 20-22
- Early Fall Preview August 17-18
- Fall Premier Special September 14

SALE COORDINATORS
 Joe Giggins (406) 861-5664 Ty Thompson (406) 698-4783 Bill Cook (406) 670-0689

View and Bid Live Online

Bid through Northern Livestock Video Auction's Online Bidding Platform! Desktop and Mobile Friendly.

FROM YOUR DESKTOP:

1. It is best to use the Google Chrome web browser.
2. Pre-Register at least one day prior to the sale.
3. Go to bid.northernlivestockvideo.com and click "Get Approved to Bid".
4. Doing this will prompt you to create an account, after which you will fill out a bidder approval application.
5. Once approved an email will be sent to the email account provided. Please click the link in that email to activate your account and a buyer number will be provided.
6. On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!

FROM YOUR MOBILE DEVICE:

1. Use your mobile device to download the Northern App and follow the above steps to get approved.

There is an instructional video on how to register to bid on our website, www.northernlivestockvideo.com if you have any questions.

For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.

PHONE BIDDING:

Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone.

Northern Livestock Sale Day Bid Line: 888-375-6447.

To register with NLVA, call 866-616-5035 Before Sale Day.

View the Online SALE BOOK and VIDEO CLIP of each lot selling at www.northernlivestockvideo.com

Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

Welcome to our Fifth Annual Embryo Auction. We have selected some of the very best young, productive cows in the herd. We have mated them to bulls that have exceptional performance and pedigrees that are recognized in the Angus breed. The sale will start at 5:00 PM, March 26, at the Public Auction Yards, Billings, Montana, and online at

www.northernlivestockvideo.com

Please Join Us!

For more information, contact Jake Kading 406-672-5844 or Bill Cook 406-670-0689.

Guaranteed 2 live pregnancies for each lot of 4 embryos, if implanted by a certified embryologist.

Unique and Fresh!! Sired by the \$430,000 EXAR Anticipation, the standout sensation of the 2026 Bases Loaded Sale, this bull stems from one of the most talked-about and admired sires in the industry today. Anticipation captured the attention of leading cattlemen and women across the country with his elite combination of calving ease, performance, and carcass excellence. The mating of Anticipation and Vermilion BLK Jestress 1756 blends proven genetics with real-world productivity. Jestress 1756 is a cornerstone female, best known as the dam of the \$40,000 Vermilion Conclusion L845, a bull that has seen significant use within our program. Expect this mating to offer a balanced, multi-trait package—calving ease up front, growth and power through the middle, and the carcass merit to add value on the rail. A pedigree backed by performance and production, designed to move a program forward.

Sired by the standout bull of the 2025 Connealy Angus Fall Sale and our \$72,500 selection, Connealy Cattle Call, these embryos offer a powerful blend of performance and phenotype. Cattle Call is a big-time performance sire, transmitting added muscle, shape, and genuine herd bull presence unlike anything else we have found on the market. His combination of power and structural integrity positions him to make a lasting impact on the breed. Once again, this mating traces back to the highly proven donor, Vermilion BLK Jestress 1756, a cornerstone female in our program with a track record of producing cattle that command attention and add value. The consistency and productivity of this cow family only elevate the potential of this elite sire choice. Make no mistake—you will be seeing and hearing much more about Connealy Cattle Call in the years ahead. These embryos represent an early opportunity to invest in that future.

Special doesn't begin to describe this mating. Sired by the \$600,000 Basin Jameson, a bull that is rapidly leaving his mark on the Angus breed for all the right reasons, this bull carries the power, presence, and data-driven excellence that have made Jameson one of the most influential sires in the business today. Once again, the dam of these embryos stems from the highly proven Vermilion BLK Jestress 1756—undoubtedly one of our very best daughters of Casino Bomber. This elite mating combines explosive performance with standout carcass merit, backed by a cow family that consistently produces at the highest level. An opportunity built with the genetics, numbers, and phenotype to elevate any program.

Sired by the ever-popular Ellingson Prosper, a breed-leading sire whose sons have topped sales across the country, these embryos represent cutting-edge Angus genetics. Prosper has truly taken the breed by storm, assembling one of the most dominant and high-profile résumés of the 2026 sale season. His ability to transmit performance, structural integrity, and eye appeal has made him a go-to sire for progressive programs nationwide. On the maternal side, these embryos stem from a proven, high-producing female known for consistently raising big, high-growth calves that make their mark year after year. This mating is designed with one purpose in mind—performance. Expect added growth, power, and value-driven genetics backed by a cow family that delivers. A rare opportunity to invest in elite, predictable genetics built to compete at the highest level.

Sired by the popular EXAR Anticipation, a bull widely recognized for his elite performance, carcass merit, and commanding dollar indexes, these embryos represent the kind of forward-thinking genetics that can truly influence the direction of a program. Anticipation combines phenotype with data in a way few sires can, positioning him as a breed changer for progressive cattlemen. This exciting mating is backed by the high-performing Casino Bomber daughter, Vermilion Blackcap 1808—a female that has earned her place in the donor pen with unmatched EPD strength and outstanding dollar values. As a daughter of Casino Bomber, she carries a proven lineage known for productivity and profitability. The result is a true numbers-driven mating with performance stacked on both sides of the pedigree—designed to deliver growth, carcass value, and elite index potential. An opportunity to invest in rare, data-backed genetics built for the future.

Sired by the popular E&B Everett, a bull that has quickly established himself as a breed leader for his unmatched EPD profile, these embryos offer a balanced and data-driven genetic opportunity. Everett is known for his calving ease credentials combined with added carcass merit, making him a valuable sire choice for progressive programs focused on both live performance and end-product value. With Everett calves already on the ground in our program, we've been extremely pleased with their vigor, structure, and eye appeal at a young age—cattle that start right and continue to develop. Mated with Vermilion Blackcap 1808, this proven female adds another layer of performance and genomic strength to the equation. As a daughter of Casino Bomber, she brings consistency, growth, and carcass value from a productive cow family. Expect this mating to offer moderate birth with added growth and carcass merit—an ideal combination for those wanting calving ease without sacrificing performance. Here is your opportunity to tap into the proven Vermilion package through a forward-thinking embryo investment.

Sired by the \$360,000 Boyd Bedrock, a bull that has commanded attention from the moment he entered the marketplace for his unmatched pedigree strength and elite EPD profile, these embryos represent a powerful genetic opportunity. Bedrock blends performance, structural integrity, and data-driven excellence in a way that positions his progeny at the forefront of the breed. On the maternal side, this mating traces to the high-performing Bomber daughter, Vermilion Blackcap 1808—a female that demands attention both phenotypically and genomically. As a daughter of Casino Bomber, she combines eye appeal with elite numeric strength, earning her place among the most impactful females in the program. The result is a balanced, high-powered genetic package designed to deliver performance, carcass merit, and standout herd sire or donor potential. A premier embryo offering backed by proven genetics and next-level data.

These embryos are backed by a sire that has elevated our program to the next level—Circle L Unified. Unified has been used extensively within our operation and will continue to play a major role moving forward. As you study the bulls throughout the offering, you'll quickly notice the consistency he stamps into his progeny—phenotypically correct, structurally sound cattle with the genomic strength to back it up. His ability to transmit balance, look, and data makes him a cornerstone sire in our program. On the maternal side stands Vermilion Blackcap 1808, a female that has earned tremendous respect for her unmatched maternal power and performance. She consistently injects growth, productivity, and longevity into her offspring, making her a true building block donor. The result is what we proudly call the Vermilion package—proven genetics, dependable performance, and elite phenotype combined into one forward-thinking embryo opportunity.

Sired by the popular and widely used Ellingson Prosper, these embryos represent the kind of genetics that are shaping the future of the breed. Prosper progeny have taken the Angus world by storm for their unmatched phenotype and elite genomic profiles—cattle that combine eye appeal, structural correctness, and data-driven performance in one powerful package. On the maternal side stands one of the most feminine yet powerful cows on the place, Vermilion Premium Asset 0499. Long-sided, broody, and built with substance, 0499 consistently transmits quality to her offspring. The reports from past embryo purchases have been nothing short of exceptional, reinforcing the predictability and strength of this cow family. This mating blends elite sire power with proven maternal excellence—delivering performance, phenotype, and consistency. A tremendous opportunity to invest in genetics that are built to stand out and move a program forward.

Sired by the \$75,000 Vermilion Irish Whiskey, a bull that has seen extensive use in our program and will continue to play a major role moving forward, these embryos represent proven and predictable genetics. Irish Whiskey traces back to one of our very top cows, Vermilion Miss 0437, and his progeny have been nothing short of exceptional—offering the look, structural integrity, and performance that today's cattlemen demand. This mating is backed by the low birth SAV Quarterback daughter, Vermilion Lady 9268. Moderate in her calving ease design yet loaded with added ribeye and strong maternal performance, 9268 brings balance and profitability to the table. The result is a true Vermilion combination—elite performance blended with maternal value and carcass strength. An embryo opportunity built on proven production and designed to add value at every stage of the production cycle.

Sired by the widely used and highly admired Basin Jameson, these embryos showcase a sire known for his unmatched phenotype and elite genomic profile. Jameson has truly fired on our set of cows, and the consistency and quality of his progeny are evident throughout this year's offering. His ability to transmit look, structural integrity, and performance-backed data makes him a cornerstone sire for progressive programs. On the maternal side stands the highly maternal and high-performing daughter of BUBS Southern Charm, Vermilion Evergreen 0193. A staple in our program, 0193 has earned her place through productivity, maternal strength, and the ability to consistently raise cattle that add value. This mating blends maternal excellence with performance-driven genetics—bringing together phenotype, data, and cow power in one complete embryo opportunity designed for long-term impact.

True Balance has been utilized across the breed for his ability to consistently transmit structural correctness, eye appeal, and a data profile that supports real-world performance. His progeny are known for their vigor, added growth, and strong maternal value—traits that make a lasting impact in progressive programs. On the maternal side stands the proven donor, Vermilion Evergreen 0193, a female that has exceeded expectations year after year. Her consistency, productivity, and maternal strength have firmly established her as a cornerstone cow in our program. This mating brings together proven genetics and unmatched phenotype—combining performance, maternal reliability, and elite herd-building potential into one exciting embryo opportunity.

BASIN JAMESON 1076 - Sire of the Lot 8A, 9A and 10A embryos.

Performance genetics stacked with reliability and consistency! Sired by the widely used and proven breed influencer Basin Jameson, this mating blends performance and maternal strength at the highest level. The dam, Vermilion Martha 9231, a productive daughter of Vermilion Charge On, has established herself as a cornerstone female in our program. 9231 consistently stamps her progeny with phenotype, structural integrity, and elite genomics, making her one of our most dependable and high-impact producers. This powerful genetic package combines performance, maternal excellence, and longevity—an opportunity to invest in a mating built for real-world profitability and long-term herd advancement.

Sired by the popular and widely utilized RSA True Balance, a bull that has made a significant impact across the breed, this mating represents proven genetics with real-world consistency. True Balance progeny are known for their structural integrity, added shape, and balanced genomics, making him a go-to sire for progressive programs nationwide. The donor dam, Vermilion Martha 9231, is a highly productive female combining low birth with big-time performance and elite maternal strength. She has consistently delivered cattle that excel in both phenotype and genetic merit. Together, this powerhouse mating blends calving ease, performance, and maternal excellence—offering an outstanding opportunity to invest in predictable, high-value genetics designed for long-term herd advancement.

Sired by the popular and influential RSA True Balance, a bull that has taken a significant leap within the Angus breed for his ability to transmit performance and maternal value, this mating offers proven predictability and breed-leading impact. True Balance progeny are recognized for their balance, structural integrity, and added growth without sacrificing maternal strength. The donor dam, Vermilion Lady 1209, is a productive daughter of the widely respected Myers Fair-N-Square. She consistently stamps her progeny with added phenotype, brood cow look, and strong maternal fundamentals that carry forward into the next generation. This powerhouse mating is designed for moderate birth, high performance, and extra maternal strength—an outstanding opportunity to invest in balanced, profitable genetics built for long-term herd advancement.

Sired by the heavily used and high-impact Circle L Unified, a bull that has played a major role in advancing our program, this mating brings together power, presence, and productivity. Unified consistently stamps his progeny with added muscle, shape, and structural correctness, all while maintaining the look and maternal value today's industry demands. The dam, Vermilion Lady 1209, is a highly respected and proven producer that simply never misses. Year after year, 1209 delivers cattle that combine phenotype, consistency, and strong maternal fundamentals—making her a cornerstone female in the herd. This “Vermilion” mating blends high performance with exceptional maternal strength, offering an elite genetic package designed for long-term profitability and lasting impact.

Registered Bred Heifers. We have a very successful fall breeding program and want to share part of it in this sale. Offering 30 fancy bred heifers that are daughters of Riverside, Conclusion, Jameson, Rise Above, Long Teton and G017, to name a few. They will calve in a short period, and are bred to four of our very best young sires. The calving dates are based on a 275 day gestation. *Take advantage.*

5,500 OPEN COMMERCIAL REPLACEMENT ANGUS HEIFERS

Vermilion Ranch

Spring Commercial Female Sale

THURSDAY, MARCH 26, 2026

Heifers sell at the South Pryor Development Center - 12:00 NOON

Located 18 miles East of Billings on Highway 87.

Welcome to Our Spring Commercial Female Sale!

A high percentage of these heifers are sired by or out of Vermilion genetics. These heifers have been sorted three times ahead of the sale for quality and disposition. They are all identified as to the ranches they came from and have never been rebranded. This will be the front end of around 10,000 head that we stated with.

As the years go on, we have learned what our customers want in these replacement heifers. The "Program" is to put the best ones in the sale. These heifers come from prominent commercial breeders who have done their homework when buying bulls and developing their cow herds.

Once the heifers arrive at South Pryor Development Center, we administer Vira Shield 6 +VL5, Cydectin Injectable, and Clean-Up II Pour-On. We also bangs vaccinate the heifers, they are tattooed, and an EID bangs tag is put in. In the spring before the sale, we treat all heifers for lice.

These heifers have been developed in large lots that afford them plenty of exercise. We have sorted them back to their origin and will sell them to you that way.

SPECIAL ADDED ATTRACTION 45 Fancy Two-Year-Old Angus Pairs

All with calves by Vermilion Irish Whiskey. Calved the first two weeks in March. They are located at the Diamond Ring Ranch in Miles City and will deliver May 1 to 10 at the ranch.
