Welcome to our 40th Annual Production Sale. Even though the cattle market has pulled back off its recent all-time highs, it is still a great time to be in the cattle business. As this market fluctuates it has never been more important to have quality angus genetics.

We are proud of the fact that we have endured 60 years in the registered Angus business and we are holding our 40th annual bull sale. Throughout this time our goals have remained much the same. We demand cows that are easy fleshing, have good udders and breed back on time. We cull hard on disposition, performance and fertility. We work extremely hard to produce bulls that will calve easy and at the same time not sacrifice growth.

We feel this year's set of bulls is the deepest, most uniform set we have ever offered. Through a more rigorous AI program and heavy culling, we have been able to improve the depth of quality in our cow herd. We have culled the bottom 40 percent or our bull crop to ensure the best product for our customers. Through sound breeding decision we have been able to raise bulls that have more performance (no creep) and are just as structurally sound (no hoof trimming). Sixty percent of the bulls offered are ranked in the top 25 percent for CED and BW. Along with two thirds ranking top 25% for dollar weaning value.

The bulls are developed at the Hould Feedlot near Malta, MT. We feed a high roughage ration to ensure structural soundness when they are turned out to pasture. All bulls have passed a fertility examination. This year we did a DNA analysis called 150k on every bull in the sale. This process increases the accuracy on the EPD's of each animal. By doing this, it will allow you to be more confident that each bulls EPD's will more accurately reflect how his offspring will perform. As always we will make every effort to back up these bulls. We are also offering 20 high quality yearling registered heifers and 20 commercial heifers.

We would like to thank our families for all of their hard work over the course of the year. Without them, we could not achieve the work needed to run a farm and ranch. Thanks to Todd and Eva Foran for their many years of service to our ranch. Todd will have a number of his own bulls in the sale that are bred right alongside ours. Tim and Mary McAllister have also been working for us the last eight years and have been outstanding help and a great asset to our operation.

We hope to see you at the sale April 7. Join us for a CAB lunch at noon with the sale to follow at 1:00. The sale cattle will be available for inspection at the ranch anytime. We will be having a burger fry Wednesday evening at 5:30 at the sale barn. This is a great time to preview the cattle and visit with friends. If you are unable to attend, the sale will be broadcast live on [www.cattleUSA.com](http://www.cattleUSA.com), and you can bid online through Northern Video. If we can help in any way, please feel free to contact us anytime.

**Delivery**

Free delivery in Montana. Out of state delivery at cost. We enjoy delivering your cattle, but due to the busy season, we will rebate you \$100 per bull or \$50 per registered heifer that are picked up within 4 days of the sale. Commercial heifers are delivered at cost. We'll come and visit at a more convenient time.

**Terms & Conditions**

This sale is being conducted under the suggested sale terms and conditions adopted by the American Angus Association. Announcements from the block take precedence over information in this catalog.

**Additional Information**

Additional information will be available sale day. You can also check our website for current information and updates. Videos of the bulls will be available in mid-March at www.arntzenangus.com.

**Genomic Enhanced EPDs**

All of the bulls in the sale offering have had additional DNA testing to increase EPD accuracies and predictability. These animals are identified by the i50K logo.

**References**

American Angus Association®, AHIR®, Angus Source®, CAB®, Pathfinder®. EPDs current as of March 2, 2016. Updated EPDs can be viewed at: www.angus.org and www.arntzenangus.com.

**Liability**

Arntzen Angus Ranch will not be held responsible for any accidents.

**Health**

All cattle selling are cleared for interstate shipment. All bulls have been fertility tested. All sale lots are free of all known genetic defects. NO CARRIERS SELL! All cattle are guaranteed. We expect them to perform for you. Please notify us if you have an injury or a breeding problem. Special thanks to Dr. Dick Raths, Lewistown, MT for herd health assistance.

**Online Bidding**

If you are unable to attend the sale, Northern Livestock Video Auction will be carrying the sale live on the internet at www.cattleUSA.com. Contact Northern Livestock Video at 1-866-616-5035 for details and to register. You can then bid live on the phone st 406-245-0889 through Northern Livestock Video during the auction. To view the catalog online, pre-sale video and additional information on the sale offering go to www.northernlivestockvideo.com and click on the Arntzen Angus sale. if you have questions contact Brad or Kevin, phone numbers listed below.

**Retained Interest**

We will be retaining a 1/3 revenue share interest on all bulls selling in the sale, unless otherwise announced from the block. Natural use and salvage belongs to the buyer. If we choose to collect semen from a bull that you purchased we will have it done at your convenience and our expense.

**Accommodations**

There are several nice motels in Lewistown. We would be happy to make your reservations for you.

Yogo Inn .....406.535.8721  
Super 8 Motel.....406.538.2581  
B&B Motel.....406.535.5496  
Calvert Hotel.....406.535.5411

**Additional Contacts**

Brad & Stacie..... 406.462.5555 or 406.350.4000  
Kevin ..... 406.462.5570 or 406.350.1612  
Derik & Corry..... 406.462.5526 or 406.350.1728  
Erik & Amber..... 406.462.5410 or 406.350.2180  
Todd Foran .....406.462.5663

*Be our guest for a CAB lunch starting at 12:00 p.m. Sale at 1:00 p.m.  
A pre-sale burger fry will be held at the sale barn on Wednesday starting at 5:30 p.m.*

Calving Ease	★★★★		Dam Production		1 WR 116	1 YR 120	

## Calving Ease Codes

In an effort to assist our customers with calving ease, we use a four star scale. We feel you can moderate birth weights and calving ease without giving up that much growth. But with the higher birth EPD and birth weight bulls, you can still expect a greater increase in weaning and yearling weights. We have coded the bulls in the following way.

- ★ Recommended for cows only.
- ★★ Mainly for cow use. Although some two star bulls would work on large capacity heifers. Their birth weights and EPDs combined with their pedigree would make them hard to recommend.
- ★★★ For heifer use. Many of these bulls will have the genetics to go on and be used on cows.
- ★★★★ For heifer use. These will be the easiest calving bulls of any in the sale.

## Pathfinder® (#)

The pound sign in a pedigree represents an animal that has qualified as a Pathfinder®.

In order for a cow to be qualified as a Pathfinder she must meet three criteria:

1. Their first calf must be born near the herds average age for first calving.
2. They must maintain a regular calving interval. The maximum calving interval is 365+ (30 days/number of calving intervals).
3. The cow must produce at least 3 calves with an average weaning weight ratio of 105 to qualify for the report. A minimum of 10 contemporaries must be evaluated together each year to determine the weaning weight.

We put a lot of value in Pathfinder cows. We feel that it is a very good way to sort out the superior cows. Some of our top cows still won't qualify for Pathfinder for reasons that are out of our control. Some such reasons would be flushing a cow, or if a calf dies.

# Selection Tools

## Weaned Calf \$Value (\$W)

Quantifies four primary economic impact areas:

**Birth Weight** - birth weight influences on calf death losses related to dystocia, weaned calf crop percentage, and resulting revenue per cow.

**Weaning Weight** - direct growth impact on weaning weight revenue (pre-weaning growth and pounds of calf sold) and energy requirements and related costs to necessary to support pre-weaning calf growth.

**Maternal Milk** - revenue from calf pre-weaning growth and pounds of calf sold as influenced by varying cow milk levels, and costs related to lactation energy requirements.

**Mature Cow Size** - expense adjustments are made for maintenance energy as related to differing mature cow size, including mathematical linkages between mature weight and yearling weight.

The impact areas are combined into a bio-economic value expressed in dollars per head assigned to Angus genetics from birth through weaning. Resources used to form the Wean Calf Value (\$W) include National Research Council (NRC), US Meat and Animal Research Center (USMARC), Cattle-Fax, SPA and university cow-calf budgets, and the American Angus Association performance database.

\$Values only have meaning when used in comparing the relative merit or ranking of two individuals. \$W provides the expected dollar-per-head difference in future progeny preweaning performance in a multi-trait fashion, within a typical U.S. beef cowherd. If Bull A has a \$W of +25.00 and Bull B has a \$W of +15.00, and these sires were randomly mated to a comparable set of females and the calves were exposed to the same environment, and a normal number of replacement females were saved from both sires, on average you could expect Bull A's progeny to have a +10.00 per head advantage in pre-weaning value over Bull B's progeny (25.00 - 15.00 = +10.00 per head). As with any \$Value, \$W only has meaning when used in comparing the relative merit or ranking of two individuals.

## Beef \$Value (\$B)

Beef Value (\$B) facilitates what almost every beef breeder is already seeking - simultaneous multi-trait genetic selection for feedlot and carcass merit, based on dollars and cents. \$B represents the expected average dollar-per-head difference in the progeny postweaning performance and carcass value compared to progeny of other sires. The \$B value is comprised of two pieces: \$F and \$G. To align \$B with marketplace realities and appropriately value carcass weight in Angus cattle, the following factors are incorporated into the final calculations for \$B.

- \$B is not simply the sum of \$F and \$G.
- Projected carcass weight and its value are calculated, along with production cost differences.
- \$B takes into consideration any discount for heavyweight carcasses.
- Final adjustments are made to prevent double-counting weight between feedlot and carcass segments.

The resulting \$B value is not designed to be driven by one factor, such as quality, red meat yield or weight. Instead, it is a dynamic result of the application of commercial market values to Angus genetics for both feedlot and carcass merit.

Calving Ease ★★★★★ Dam Production 1 WR 102 1 YR 110

- This bull is the real deal!
- Moderate and long with extra muscle and a tremendous EPD profile. He also traces back to a top cow line in our herd. Great granddam was an exceptional pathfinder who has several daughters and grand daughters doing a great job for us. His great granddam is the super donor cow, AAR Blackcap Kay 1221, who was a top notch producer for many years. His dam is a good uddered Ten Gauge daughter who raised a calf like this and still bred back early. She calved on 2-10-16.
- Granddam 6 WR 104, 5 YR 102
- Great Granddam 6 BR 96, 6 WR 106, 6 YR 105

Calving Ease ★★★★★ Dam Production 2 WR 115 2 YR 106

- Tons of maternal potential in this bull. Every animal on the bottom side of his three generation pedigree is a pathfinder. Big numbers on this easy calving, long made "636a" son. His dam is a super producer and she traces back to AAR Ankonian 4015, the dam of our top herd sire AAR Leupold 0578. The 4th dam happens to be AAR Ankonian 350, a Traveler 124 GDAR daughter. "124" is considered one of the best maternal sires the breed has ever seen.
- Top 2% SC, 3% BW YW, 4% \$W, 10% \$B.

•ET Calf  
 •We turned back the clock a little on this calf and flushed an older "362" daughter that did it all. She was moderate framed with lots of rib, a really good udder and awesome feet and legs. He carries on a lot of her traits with his deep body and moderate frame. He also adds loads of thickness and top.

We miss your help Tony

# Registered Heifers

## 20 ELITE REGISTERED HEIFERS

Offering twenty of our best yearling heifers picked right off the top. They will be sired by Ten X, Sitz Reinvested 636a, Connealy Counselor, A A R Frontman 3132 and more.

All registered heifers have been i50K DNA tested to increase EPD accuracies and predictability.

Check the website for updated EPDs. Supplement sheet will be available sale day.

We will be offering to breed and pasture these registered heifers until mid-August at cost.

Heifers will be guaranteed bred.

## Donation Heifer

Half of the proceeds from the sale of this heifer will go to the Hilger and Winifred rural Fire Departments.

Here is another way to incorporate Arntzen Angus into your herd.

## Sitz Reinvested 636A

Reg: 17467126 Calved: 1/28/13 Tattoo: 636A

Sire: **Connealy Thunder** MGS: **Sitz Ellunas Elite 656T**

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	SW	SB
+15	-2.5	+55	+27	+107	+1.12	+38	+.61	+.42	+.069	62.51	113.19

- We selected Reinvested for his moderate frame, deep rib, and good foot and leg structure
- Superstar dam who is also the dam of Sitz Investment 660Z. She is deep bodied with a long body and a very good udder.
- Calving ease has been very good on his calves and his daughters look like they will make great cows.
- Co-owned with Sitz Angus, Gartner Denowh Angus Ranch and Genex.

## A A R Thirty-Aught-Six

Reg: 17615397 Calved: 2/4/13 Tattoo: 3006

Sire: **Connealy Confidence 0100** MGS: **S A V Final Answer 0035 #**

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	SW	SB
+17	-1.0	+55	+21	+93	+.43	+28	+.47	+1.05	+.092	64.66	99.54

- Thirty-Aught-Six was a standout of our 2014 sale selling to Hilltop Angus
- We sampled him a little and were blown away by the consistency and thickness of his calves
- He sires moderate framed very easy doing cattle, with sound structure
- He's worked great on heifers proving to be a short term calving sire
- Recently leased to ST Genetics in Navasota, TX

## A A R Ten X 9903

Reg: 16472165 Calved: 2/17/09 Tattoo: 9903

Sire: **A A R Ten X 7008 SA** MGS: **A A R Rambler 356**

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	SW	SB
+12	-.8	+60	+29	+126	+1.89	+50	+.95	+.97	+.011	65.78	175.77

- "9903" was one of the first Ten X sons ever born and he may be the best. He consistently sires calves that come easy, have extra dimension and are loaded with carcass. All this plus his Pathfinder donor dam is one of our best cows. 12 years old and still going strong!
- Co-owned with Clear Creek Angus Ranch, Chinook, MT.
- Semen available through Universal Semen Sales, ORigen and Arntzen Angus Ranch.

## A A R Frontman 3132

Reg: 17614182 Calved: 2/21/13 Tattoo: 3132

Sire: **Apex Frontman 081** MGS: **B C Matrix 4132**

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	SW	SB
+13	-1.9	+65	+30	+110	+1.78	+31	+.66	+.46	+.059	83.22	103.40

- We retained Frontman 3132 due to his awesome phenotype, calving ease and beautiful dam.
- Blackbird 9044 has proved herself to be one of the best cows at AAR. Progeny average of 3 WR 108.
- Calves have been very light and we plan to use him extensively in our program.

# Semen Available

Ask about customer appreciation semen discounts.

## A A R Magnum 5106

Reg: 18241732 Calved: 2/11/15 Tattoo: 5106

Sire: A A R Thirty-Aught-Six MGS: B C Matrix 4132#

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	SW	SB
+14	-.2	+58	+21	+97	+1.27	+30	+.49	+.86	+.106	72.65	107.04

- We retained 5106 out of a great set of Thirty-Aught-Six bulls
- He was the standout all year long and out of a beautiful feminine Matrix cow
- i50k calls him a great calving ease bull ranking top 6 CED and 10 BW
- We will use Magnum extensively back in our program.

## A A R Frontman 4504

Reg: 17962837 Calved: 2/1/14 Tattoo: 4504

Sire: Apex Frontman 081 MGS: S A V Final Answer 0035#

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	SW	SB
+6	+.2	+64	+30	+107	+1.16	+22	+.44	+.58	+.055	80.26	84.90

- Moderate framed, thick topped with good feet and legs and a good dam.
- His sire, Apex Frontman 081, has been a really good female producer. They have high, tight udders with nice sized teats. The cows are feminine, deep ribbed and very good mothers.
- We are calving the first "4504" calves and they are coming easy with a good look to them.

## KG Justified 3023

Reg: 17707279 Calved: 1/21/13 Tattoo: 3023

Sire: Connealy Judgment MGS: Sitz Wisdom 481T

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	SW	SB
+13	-1.9	+65	+30	+110	+1.78	+31	+.66	+.46	+.059	83.22	103.40

- Justified was the high selling bull of the 2014 KG Angus bull sale
- He has tremendous thickness and shape on a very sound set of feet
- Our calves have hit the ground and they were very small and vigorous
- Calves are starting to stand out at a month of age
- Leased to Genex

## A A R Creed 5802

Reg: 18267586 Calved: 1/28/15 Tattoo: 5802

Sire: Connealy Thunder# MGS: Connealy Consensus 9705

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	SW	SB
+10	-1.3	+56	+25	+105	+.61	+41	+.68	+.75	+.042	62.85	135.52

- We retained Creed from this years calf crop because of his moderate frame, wide base and very good cow pedigree.
- His dam is a very solid "9705" daughter who is moderate framed, with a really good udder.
- She bred back early as a three year old(2/7/16).
- We will use this bull very hard in the future.
- The dam traces back to Dash, Contrast and Really Windy.

## *Special Thanks*

*to all of those who make  
our program successful!*

*Bruce, Linda and Lance Hould,  
and all the feedlot crew.*

*Tim & Mary McAllister*

*Dr. Bill Peebles*

*Bull Pictures  
Kate Loose*

*Todd & Eva Foran*

*Thanks to Mike Vanek and  
his crew, and Karla Knox  
and Jolene Ehlert for their  
great job clipping the cattle.*

# Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-20 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	21	Docility	12
Birth Weight	13	Heifer Pregnancy	10
Weaning Weight	19	Mature Weight	13
Yearling Weight	22	Carcass Weight	10
Milk	14	Carcass Marbling	9
Yearling Height	11	Carcass Rib	11
Yearling Scrotal	14	Carcass Fat	12
Dry Matter Intake	18		

## How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD). These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

## *DELIVERY INSTRUCTIONS:*

Thank you to all those who have made the last 40 years a wonderful success!

After 60 years of breeding Angus cattle, our philosophy at Arntzen Angus Ranch has stayed the same. We breed cows to be trouble free. They must be easy fleshing, high capacity cows with good feet and udders. Late calvers and poor dispositions are not tolerated. We want light birth weight and moderate framed calves, with exceptional growth and thickness. A strong emphasis is also put on maternal and carcass traits.
