ARNTZEN
ANGUS RANCH

59 Years of Breeding Cattle that are
EFFICIENT, MATERNAL & PRACTICAL

After 59 years of breeding Angus cattle, our philosophy has stayed the same. We breed cows to be trouble free. They must be easy fleshing, high capacity cows with good feet and udders. Late calvers and poor dispositions are not tolerated. We want light birth weight and moderate framed calves, with exceptional growth and thickness. A strong emphasis is also put on maternal and carcass traits.

www.ArntzenAngus.com

Dear Friends,

Welcome to our 39th Annual Production Bull Sale. What an exciting time to be in the cattle business. Prices have recently moved to all time highs with no sign of softening. With worldwide demand up and the cattle supply down, this great market looks here to stay. A person should really be able to capitalize on these high prices by selling their feeders high this summer.

We are proud of the fact that we have endured 59 years in the registered Angus business and that we are holding our 39th annual bull sale. Throughout this time our goals have remained much the same. We demand cows that are easy fleshing, have good udders and breed back on time. We do not put up with cows that are late calvers or have poor dispositions. We like calves that have moderate birth weights with above average growth and carcass traits.

We feel this year's group of bulls is the deepest, most uniform set we have ever produced. We thoroughly analyzed every bull in order to ensure top quality from start to finish – no exceptions! We will be offering a high percentage of calving ease bulls to go along with a strong set of high growth calves. Several of the bulls have what it takes to be your next herd sire.

The bulls are developed at the Hould Feedlot near Malta, MT. We feed a high roughage ration to ensure structural soundness when they are turned out to pasture. The bulls have been semen tested and ultrasound scanned for carcass traits. As always, we will make every effort to back up these bulls. This year the sale offering includes 16 of the highest quality registered replacement females we have ever sold. There is also a great offering of 20 commercial heifers.

We would like to thank our families for all of their hard work over the course of the year. Without them, we could not begin to achieve the work needed to run a farm and ranch. Thanks to Todd and Eva Foran for their many years of service to our ranch. Todd will have a number of bulls in the sale that are bred right with ours. Tim and Mary McAllister have also been working for us the last seven years and have been a real asset to our operation.

We hope to see you at the sale on April 2nd. Join us for a CAB lunch at noon with the sale to follow at 1:00. The sale cattle will be available for inspection at the ranch the week prior to the sale. We will be having a burger fry Wednesday evening at 5:30 at the sale barn. This is a great time to preview the cattle and visit with friends. If you are unable to attend, the sale will be broadcast live on www.cattleUSA.com, and you can bid online at www.northernlivestockvideo.com. If we can help in any way, please feel free to contact us anytime.

*Thank you,
Doug and Keith*

Delivery

Free delivery in Montana. Out of state delivery at cost. We enjoy delivering your cattle, but due to the busy season, we will rebate you \$100 per bull or \$50 per registered heifer that are picked up within 4 days of the sale. Commercial heifers are delivered at cost. We'll come and visit at a more convenient time.

Terms & Conditions

This sale is being conducted under the suggested sale terms and conditions adopted by the American Angus Association. Announcements from the block take precedence over information in this catalog.

Additional Information

Additional information will be available sale day. You can also check our website for current information and updates. Videos of the bulls will be available in mid-March at www.arntzenangus.com.

Genomic Enhanced EPDs

Many of the bulls in the sale offering have had additional DNA testing to increase EPD accuracies and predictability. These animals are identified by the HD50K logo.

References

American Angus Association®, AHIR®, Angus Source®, CAB®, Pathfinder®. EPDs current as of February 27, 2015. Updated EPDs can be viewed at: www.angus.org and www.arntzenangus.com.

Liability

Arntzen Angus Ranch will not be held responsible for any accidents.

Health

All cattle selling are cleared for interstate shipment. All bulls have been fertility tested and ultrasounded for carcass information. All sale lots are AM, NH, and CA free. NO CARRIERS SELL! All cattle are guaranteed. We expect them to perform for you. Please notify us if you have an injury or a breeding problem. Special thanks to Dr. Dick Raths, Lewistown, MT for herd health assistance.

Online Bidding

If you are unable to attend the sale, Northern Livestock Video Auction will be carrying the sale live on the internet at www.cattleUSA.com. Contact Northern Livestock Video at 1-866-616-5035 for details and to register. You can then bid live on the phone through Northern Livestock Video during the auction. To view the catalog online, pre-sale video and additional information on the sale offering go to www.northernlivestockvideo.com and click on the Arntzen Angus sale. if you have questions contact Brad or Kevin, phone numbers listed below.

Retained Interest

We will be retaining a 1/3 revenue share interest on all bulls selling in the sale, unless otherwise announced from the block. Natural use and salvage belongs to the buyer. If we choose to collect semen from a bull that you purchased we will have it done at your convenience and our expense.

Accommodations

There are several nice motels in Lewistown. We would be happy to make your reservations for you.
Yogo Inn 406.535.8721
Super 8 Motel. 406.538.2581
B&B Motel 406.535.5496
Calvert Hotel 406.535.5411

Additional Contacts

Brad & Stacie 406.462.5555 or 406.350.4000
Kevin 406.462.5570 or 406.350.1612
Derik & Corry 406.462.5526 or 406.350.1728
Erik & Amber. 406.462.5410 or 406.350.2180
Todd Foran. 406.462.5663

Be our guest for a CAB lunch starting at 12:00 p.m. Sale at 1:00 p.m. A pre-sale burger fry will be held at the sale barn on Wednesday starting at 5:30 p.m.

Selection Tools

Weaned Calf \$Value (\$W)

Quantifies four primary economic impact areas:

- Birth Weight** - birth weight influences on calf death losses related to dystocia, weaned calf crop percentage, and resulting revenue per cow.
- Weaning Weight** - direct growth impact on weaning weight revenue (pre-weaning growth and pounds of calf sold) and energy requirements and related costs to necessary to support pre-weaning calf growth.
- Maternal Milk** - revenue from calf pre-weaning growth and pounds of calf sold as influenced by varying cow milk levels, and costs related to lactation energy requirements.
- Mature Cow Size** - expense adjustments are made for maintenance energy as related to differing mature cow size, including mathematical linkages between mature weight and yearling weight.

The impact areas are combined into a bio-economic value expressed in dollars per head assigned to Angus genetics from birth through weaning. Resources used to form the Wean Calf Value (\$W) include National Research Council (NRC), US Meat and Animal Research Center (USMARC), Cattle-Fax, SPA and university cow-calf budgets, and the American Angus Association performance database.

\$Values only have meaning when used in comparing the relative merit or ranking of two individuals. \$W provides the expected dollar-per-head difference in future progeny preweaning performance in a multi-trait fashion, within a typical U.S. beef cowherd. If Bull A has a \$W of +25.00 and Bull B has a \$W of +15.00, and these sires were randomly mated to a comparable set of females and the calves were exposed to the same environment, and a normal number of replacement females were saved from both sires, on average you could expect Bull A's progeny to have a +10.00 per head advantage in pre-weaning value over Bull B's progeny (25.00 - 15.00 = +10.00 per head). As with any \$Value, \$W only has meaning when used in comparing the relative merit or ranking of two individuals.

Beef \$Value (\$B)

Beef Value (\$B) facilitates what almost every beef breeder is already seeking - simultaneous multi-trait genetic selection for feedlot and carcass merit, based on dollars and cents. \$B represents the expected average dollar-per-head difference in the progeny postweaning performance and carcass value compared to progeny of other sires. The \$B value is comprised of two pieces: \$F and \$G. To align \$B with marketplace realities and appropriately value carcass weight in Angus cattle, the following factors are incorporated into the final calculations for \$B.

- \$B is not simply the sum of \$F and \$G.
- Projected carcass weight and its value are calculated, along with production cost differences.
- \$B takes into consideration any discount for heavyweight carcasses.
- Final adjustments are made to prevent double-counting weight between feedlot and carcass segments.

The resulting \$B value is not designed to be driven by one factor, such as quality, red meat yield or weight. Instead, it is a dynamic result of the application of commercial market values to Angus genetics for both feedlot and carcass merit.

Calving Ease Codes

In an effort to assist our customers with calving ease, we use a four star scale. We feel you can moderate birth weights and calving ease without giving up that much growth. But with the higher birth EPD and birth weight bulls, you can still expect a greater increase in weaning and yearling weights. We have coded the bulls in the following way.

- ★ Recommended for cows only.
- ★★ Mainly for cow use. Although some two star bulls would work on large capacity heifers. Their birth weights and EPDs combined with their pedigree would make them hard to recommend.
- ★★★ For heifer use. Many of these bulls will have the genetics to go on and be used on cows.
- ★★★★ For heifer use. These will be the easiest calving bulls of any in the sale.

Calving Ease Direct

While birth weight is the indicator trait, calving ease is the true trait of interest to breeders. Using birth weight EPDs is a good indirect measurement of calving ease. However, we know there are examples of the low-birth-weight-EPD bull that is harder calving than expected and the higher-birth-EPD bull that consistently produces calves born unassisted to first-calf heifers. The large database of calving scores at the American Angus Association allows more of a direct prediction of calving ease.

The calving ease EPDs are designed to improve the probability or chance of unassisted births in first-calf heifers. Calving ease EPDs are presented in units of percent unassisted births and appear as Calving Ease Direct (CED) and Calving Ease Maternal (CEM) EPDs. The CED EPD is most closely associated with the traditional birth weight EPD.

For example, let's assume the CED EPDs between Sire A and Sire B predict the average difference in percent unassisted births to be 7%, favoring Sire A. (Sire A = +10 and Sire B = +3) If you bred Sire A and Sire B each to 100 heifers, then you would expect seven more unassisted calves out of the 100 born to Sire A when compared to the 100 born to Sire B.

With calving ease EPDs, a higher value is more favorable since the units are percentage unassisted births. This tool can be used to select sires for use on heifers to improve the chance of easier calving through unassisted births. Since calving ease is a threshold trait, if there is no difficulty in heifers calving in a particular herd, then this percentage difference in unassisted births will not be realized or measurable.

- A A R Ankonian 1523, the \$18,500 high selling bred female at the 2013 National Western Foundation Female Sale in Denver.
- Big ribbed and clean fronted, with a great udder.
- Dam of Lot 18.

- Moderate framed, deep ribbed, Adapter daughter.
- Excellent udder quality.
- Currently ranks top 15% WW, 15% YW, 20% Milk, 1% Marb, 5% REA, 1% \$W, 20% \$F, 1% \$QG and 1% \$B.

- Ten X offers calving ease, performance, carcass merit, \$Values and an outcross pedigree.
- 137 daughters have had 217 calves with an average ratio of 102.
- Sires as consistent a calf from birth to yearling as we've ever used.
- Phenotypically he carries tremendous length and thickness, along with excellent structural soundness.
- Second most registered sire through the American Angus Association.
- Ten X progeny has been topping sales nationwide.

- Final Answer 2029 was our 2013 high seller going to Ray Sikes in CO.
- He has proven exceptional calving ease with plenty of performance.
- We will continue to use this bull in our program.

Special Thanks

Bruce, Linda and Lance Hould,
and all the feedlot crew.

Tim & Mary McAllister

Dr. Bill Peebles

Ultrasound Technician
Sonja Gregory

Todd & Eva Foran

to all of those who make
our program successful!

Thanks to Mike Vanek and
his crew, and Karla Knox
and Jolene Ehler for their
great job clipping the cattle.

Registered Heifers

THE SWEET 16

All registered heifers have been HD50K DNA tested to increase EPD accuracies and predictability. Check the website for updated EPDs. Supplement sheet will be available sale day. We will be offering to breed and pasture these registered heifers until mid-August at cost. Heifers will be guaranteed bred.

Donation Heifer

Half of the proceeds from the sale of this heifer will go to the Owen Murnion Family Benefit Fund.

The donation will go to the family of Owen Murnion. Owen died tragically in a farm accident, leaving behind a wife and seven beautiful daughters that could sure use our help. Additional donations can be made at GoFundMe.com

Sale Notes

Semen Available

Here is another way to incorporate Arntzen Angus into your herd.

A A R Ten Fold 1539

Reg: 17049156

Calved: 2/20/11

Tattoo: 1539

Sire: A A R Ten X 7008 S A

MGS: Rito 6I6 of 4B20 6807

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	\$W	\$B
+6	+1.3	+57	+22	+103	+57	+41	+1.12	+5.7	-.012	53.32	120.95

- Co-owned with JMB Angus and Universal Semen Sales.
- Ten Fold is loaded with maternal. Dam is double bred A A R New Trend.
- 2nd high selling bull at 2012 bull sale, bringing \$20,000 for ½ interest.
- Ranks in the top 2 % of the breed for \$Beef.
- Semen available through Universal Semen Sales.

A A R Ten X 9903

Reg: 16472165

Calved: 2/17/09

Tattoo: 9903

Sire: A A R Ten X 7008 SA

MGS: A A R Rambler 356

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	\$W	\$B
+12	-.6	+63	+29	+125	+1.91	+55	+.99	+.94	+.021	55.93	432.30

- "9903" was one of the first Ten X sons ever born and he may be the best. He consistently sires calves that come easy, have extra dimension and are loaded with carcass. All this plus his Pathfinder donor dam is one of our best cows. 12 years old and still going strong!
- Co-owned with Clear Creek Angus Ranch, Chinook, MT.
- Semen available through Universal Semen Sales, ORIgen and Arntzen Angus Ranch.

Simonson High Five 7053

Reg: 17641663

Calved: 1/31/13

Tattoo: 7053

Sire: A A R High Five 8563

MGS: Leachman Right Time

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	\$W	\$B
+11	-1.1	+69	+23	+105	+59	+36	+.47	+.17	+.068	68.26	89.49

- Simonson High Five is a bull that we selected from the Minert-Simonson bull sale in 2014.
- He is the bull we have chosen to carry on for our deceased herd sire, AAR High Five 8563.
- Expect calving ease and growth out of this flashy looking herd bull.

KG Justified 3023

Reg: 17707279

Calved: 1/21/13

Tattoo: 3023

Sire: Connealy Judgment

MGS: Sitz Wisdom 481T

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	\$W	\$B
+13	-1.6	+69	+33	+114	+1.66	+36	+.65	+.55	+.048	72.06	94.52

- KG Justified was the \$58000 high seller at the KG sale last fall we purchased with Gartner Denowh Angus.
- He has tremendous shape and thickness in a moderate package
- Recently leased to Genex Cooperative.

Semen Available

A A R Frontman 3132

Reg: 17614182

Calved: 2/21/13

Tattoo: 3132

Sire: Apex Frontman 081

MGS: B C Matrix 4132

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	\$W	\$B
+11	+2	+72	+28	+133	+1.10	+56	+22	+60	+041	63.94	107.34

- We retained Frontman 3132 due to his awesome phenotype, calving ease and beautiful dam.
- Blackbird 9044 has proved herself to be one of the best cows at AAR. Progeny average of 3 WR 108.
- Calves have been very light and we plan to use him extensively in our program.

A A R Rito 1163

Reg: 17034441

Calved: 3/13/11

Tattoo: 1163

Sire: Brooks Rito 6220

MGS: ER Justice N013

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	\$W	\$B
+14	-2.9	+39	+23	+93	+85	+27	+31	+13	+027	31.11	77.38

- Dam is a moderate framed, feminine cow with tremendous production and great udder. She has recently been put into our ET program.
- Rito 6220 has been one of the best heifer bulls ever used at AAR.
- 1163 is a very correct made bull with exceptional eye appeal.
- This bull has proved his calving ease the last two years with no assistance on heifers.

Sitz Reinvested 636a

Reg: 17467126

Calved: 1/28/13

Tattoo: 636A

Sire: Connealy Thunder

MGS: Sitz Ellunas Elite 656T

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	\$W	\$B
+15	-1.6	+53	+30	+108	+99	+44	+63	+47	+038	51.40	100.66

- Reinvested was our pick of the 2014 Sitz Angus Spring Sale.
- He is moderate framed with lots of rib and a thick quarter.
- His dam is also the dam of the Genex featured sire, Sitz Investment 660Z.
- His first calves are just hitting the ground. They are coming easy and look great.

A A R Wind Over 3822

Reg: 17658719

Calved: 2/13/13

Tattoo: 3822

Sire: V D A R Really Windy 4097

MGS: Brooks Rito 6220

CED	BW	WW	Milk	YW	SC	CW	Marb	REA	Fat	\$W	\$B
+17	-2.3	+56	+17	+96	+78	+30	+45	+11	+046	48.65	79.91

- We retained Wind Over from our 2013 calf crop for use in our own herd.
- He is thick quartered, clean fronted and out of one of our very top cows. She is a very angular, long bodied cow with a great udder and very sound structure.
- His first calves are calving easy and look great.
