arntzen@mtintouch.net

Welcome to our 41st Annual Production Sale. Even though the cattle market has pulled back off its recent all-time highs, it is still a great time to be in the cattle business. As this market fluctuates it has never been more important to have quality angus genetics.

We are proud of the fact that we have endured 61 years in the registered Angus business and we are holding our 41st annual bull sale. Throughout this time our goals have remained much the same. We demand cows that are easy fleshing, have good udders and breed back on time. We cull hard on disposition, performance and fertility. We work extremely hard to produce bulls that will calve easy and at the same time not sacrifice growth.

We feel this year's set of bulls is the deepest, most uniform set we have ever offered. Through a more rigorous AI program and heavy culling, we have been able to improve the depth of quality in our cow herd. We have culled the bottom 40 percent of our bull crop to ensure the best product for our customers. Through sound breeding decision we have been able to raise bulls that have more performance (no creep) and are just as structurally sound (no hoof trimming). 62% of the bulls offered are ranked in the top 25% for CED and BW. Along with 74% ranking top 25% for dollar weaning value.

The bulls are developed at the Hould Feedlot near Malta, MT. We feed a high roughage ration to ensure structural soundness when they are turned out to pasture. All bulls have passed a fertility examination. This year we did a DNA analysis called 150k on every bull in the sale. This process increases the accuracy on the EPD's of each animal. By doing this, it will allow you to be more confident that each bull's EPD's will more accurately reflect how his offspring will perform. As always we will make every effort to back up these bulls. We are also offering 21 high quality yearling registered heifers and 25 commercial heifers.

We would like to thank our families for all of their hard work over the course of the year. Without them, we could not achieve the work needed to run a farm and ranch. Thanks to Todd and Eva Foran for their many years of service to our ranch. Todd will have a number of his own bulls in the sale that are bred right alongside ours. Tim and Mary McAllister have also been working for us the last nine years and have been outstanding help and a great asset to our operation.

We hope to see you at the sale April 6. Join us for a CAB lunch at noon with the sale to follow at 1:00. The sale cattle will be available for inspection at the ranch anytime. We will be having a burger fry Wednesday evening at 5:30 at the sale barn. This is a great time to preview the cattle and visit with friends. If you are unable to attend, the sale will be broadcast live on www.cattleUSA.com, and you can bid online through Northern Video. If we can help in any way, please feel free to contact us anytime.

Delivery

Free delivery in Montana. Out of state delivery at cost. We enjoy delivering your cattle, but due to the busy season, we will rebate you \$100 per bull or \$50 per registered heifer that are picked up within 4 days of the sale. Commercial heifers are delivered at cost. We'll come and visit at a more convenient time.

Terms & Conditions

This sale is being conducted under the suggested sale terms and conditions adopted by the American Angus Association. Announcements from the block take precedence over information in this catalog.

Additional Information

Additional information will be available sale day. You can also check our website for current information and updates. Videos of the bulls will be available in mid-March at www.arntzenangus.com.

Genomic Enhanced EPDs

All of the bulls in the sale offering have had additional DNA testing to increase EPD accuracies and predictability. These animals are identified by the i50K logo.

References

American Angus Association®, AHIR®, Angus Source®, CAB®, Pathfinder®. EPDs current as of March 3, 2017. Updated EPDs can be viewed at: www.angus.org and www.arntzenangus.com.

Liability

Arntzen Angus Ranch will not be held responsible for any accidents.

Health

All cattle selling are cleared for interstate shipment. All bulls have been fertility tested. All sale lots are free of all known genetic defects. NO CARRIERS SELL! All cattle are guaranteed. We expect them to perform for you. Please notify us if you have an injury or a breeding problem. Special thanks to Dr. Dick Raths, Lewistown, MT for herd health assistance.

Online Bidding

If you are unable to attend the sale, Northern Livestock Video Auction will be carrying the sale live on the internet at www.cattleUSA.com. Contact Northern Livestock Video at 1-866-616-5035 for details and to register. You can then bid live on the phone at 406-245-0889 through Northern Livestock Video during the auction. To view the catalog online, pre-sale video and additional information on the sale offering go to www.northernlivestockvideo.com and click on the Arntzen Angus sale. If you have questions contact Brad or Kevin, phone numbers listed below.

Retained Interest

We will be retaining a 1/3 revenue share interest on all bulls selling in the sale, unless otherwise announced from the block. Natural use and salvage belongs to the buyer. If we choose to collect semen from a bull that you purchased we will have it done at your convenience and our expense.

Insurance

Insurance agent, Jerry Gliko will be available on sale day. If you choose to purchase insurance, Arntzen Angus will pay half of the premium. If you have questions, don't hesitate to ask one of us or an agent and we will help you with the details of the different policies that are available.

Accommodations

There are several nice motels in Lewistown. We would be happy to make your reservations for you.

Weaned Calf \$Value (\$W)

Quantifies four primary economic impact areas:

Birth Weight - birth weight influences on calf death losses related to dystocia, weaned calf crop percentage, and resulting revenue per cow.

Weaning Weight - direct growth impact on weaning weight revenue (pre-weaning growth and pounds of calf sold) and energy requirements and related costs to necessary to support pre-weaning calf growth.

Maternal Milk - revenue from calf pre-weaning growth and pounds of calf sold as influenced by varying cow milk levels, and costs related to lactation energy requirements.

Mature Cow Size - expense adjustments are made for maintenance energy as related to differing mature cow size, including mathematical linkages between mature weight and yearling weight.

The impact areas are combined into a bio-economic value expressed in dollars per head assigned to Angus genetics from birth through weaning. Resources used to form the Wean Calf Value (\$W) include National Research Council (NRC), US Meat and Animal Research Center (USMARC), Cattle-Fax, SPA and university cow-calf budgets, and the American Angus Association performance database.

\$Values only have meaning when used in comparing the relative merit or ranking of two individuals. \$W provides the expected dollar-per-head difference in future progeny preweaning performance in a multi-trait fashion, within a typical U.S. beef cowherd. If Bull A has a \$W of +25.00 and Bull B has a \$W of +15.00, and these sires were randomly mated to a comparable set of females and the calves were exposed to the same environment, and a normal number of replacement females were saved from both sires, on average you could expect Bull A's progeny to have a +10.00 per head advantage in pre-weaning value over Bull B's progeny (25.00 - 15.00 = +10.00 per head). As with any \$Value, \$W only has meaning when used in comparing the relative merit or ranking of two individuals.

Calving Ease Codes

In an effort to assist our customers with calving ease, we use a four star scale. We feel you can moderate birth weights and calving ease without giving up that much growth. But with the higher birth EPD and birth weight bulls, you can still expect a greater increase in weaning and yearling weights. We have coded the bulls in the following way.

- ★ Recommended for cows only.
- ★★ Mainly for cow use. Although some two star bulls would work on large capacity heifers. Their birth weights and EPDs combined with their pedigree would make them hard to recommend.
- ★★★ For heifer use. Many of these bulls will have the genetics to go on and be used on cows.
- ★★★★ For heifer use. These will be the easiest calving bulls of any in the sale.

Pathfinder® (#)

The pound sign in a pedigree represents an animal that has qualified as a Pathfinder®.

In order for a cow to be qualified as a Pathfinder she must meet three criteria:

1. Their first calf must be born near the herds average age for first calving.
2. They must maintain a regular calving interval. The maximum calving interval is 365+ (30 days/number of calving intervals).
3. The cow must produce at least 3 calves with an average weaning weight ratio of 105 to qualify for the report. A minimum of 10 contemporaries must be evaluated together each year to determine the weaning weight.

We put a lot of value in Pathfinder cows. We feel that it is a very good way to sort out the superior cows. Some of our top cows still won't qualify for Pathfinder for reasons that are out of our control. Some such reasons would be flushing a cow, or if a calf dies.

Docility (Doc)

Docility is something that we have focused on since we started in the Angus business over 60 years ago. The American Angus Association is now producing a docility epd that we are finding to be very valuable as an assist for a purchaser when looking at temperament of a bull. This year we decided to include it in the lot block with a higher number being more favorable.

Below is the American Angus Associations definition.

Expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

Beef \$Value (\$B)

Beef Value (\$B) facilitates what almost every beef breeder is already seeking - simultaneous multi-trait genetic selection for feedlot and carcass merit, based on dollars and cents. \$B represents the expected average dollar-per-head difference in the progeny postweaning performance and carcass value compared to progeny of other sires. The \$B value is comprised of two pieces: \$F and \$G. To align \$B with marketplace realities and appropriately value carcass weight in Angus cattle, the following factors are incorporated into the final calculations for \$B.

- \$B is not simply the sum of \$F and \$G.
- Projected carcass weight and its value are calculated, along with production cost differences.
- \$B takes into consideration any discount for heavyweight carcasses.
- Final adjustments are made to prevent double-counting weight between feedlot and carcass segments.

The resulting \$B value is not designed to be driven by one factor, such as quality, red meat yield or weight. Instead, it is a dynamic result of the application of commercial market values to Angus genetics for both feedlot and carcass merit.

Heifer Pregnancy (HP)

Another EPD that we have started watching very closely is Heifer Pregnancy. You will see it mentioned in our footnotes. A higher number is more favorable. We often times refer to it in % Ranking against the rest of the breed. In that situation, 1% is the best with 95% being the poorest.

Below is the American Angus Associations definition.

A selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

- We retained Frontman 3132 due to his awesome phenotype, calving ease and beautiful dam.
- Blackbird 9044 has proved herself to be one of the best cows at AAR. Progeny average of 5 WR 107 and 5 YR 111.
- Great calving ease sire with excellent performance.
- First two calf crops 84 calves with an average BR 98, 84 WR 101, 73 YR 101.
- Leased to Beef 360. He was their #1 seller in 2016.
- First calf daughters are very gentle, have great capacity and excellent uddered.

- "7053" was our pick of the 2014 Minert Simonson Bull sale. He exhibits a moderate frame, easy calving and a very soggy heavy muscle look.
- He first daughters are only yearlings but they look like they will make great cows.
- Sound structure and a gentle disposition as well.

- Here is a special opportunity to own a line bred herd bull prospect that we feel comfortable calling a "structure improver." His sire, Apex Frontman 081 was a moderate, easy calving bull with excellent feet and his daughters have been phenomenal. "081" currently has 24 daughters with 31 progeny that are averaging 106 on their nursing ratio. They are deep ribbed, good tempered with very good udders. "6803" is a power bull who still has a double digit CED Epd. He should be a real cow maker who will leave you with a group of daughters who will be around for the long haul.
- Top 1% YW, \$W and \$F, Top 2% WW, Top 10% Milk and CW, Top 15% \$B and BW, Top 3% Docility.

- Dam and Granddam have both been very steady cows in our herd. Good longevity and they bring in a good calf every year.
- "6512" had a really good feedlot gain ratio of 113 as well. Buyers of his steers will really like that.
- With a high Heifer Pregnancy and SC epd, you can expect really good fertility in this cross.
- Granddam 7 BR 98, 7 WR 102, 6 YR 104
- Top 3% Milk, top 4% HP, and top 5% SC.

- Pathfinder Dam and Granddam.
- "403" is a young sire that you will see more of in the future. He is very attractive phenotypically with a smooth front end, wide, straight back with a big quarter.
- "6913" is a twin out of one of our top Ten X daughters. She is sound with a maternal look and good feet and legs.
- Expect great females from this bull.

Registered Heifers

21 ELITE REGISTERED HEIFERS

Offering 21 of our best yearling heifers picked right off the top. They will be sired by KG Justified 3023, Soo Line Motive 9016, A A R Frontman 3132, Simonson High Five 7053 and more. All registered heifers have been i50K DNA tested to increase EPD accuracies and predictability. Check the website for updated EPDs. Supplement sheet will be available sale day. We will be offering to breed and pasture these registered heifers until mid-August at cost. Heifers will be guaranteed bred.

Tim & Mary McAllister

Dr. Bill Peebles

Bull Pictures - Kate Loose

Todd & Eva Foran

Thanks to Mike Vanek and his crew, and Karla Knox and Jolene Ehlert for their great job clipping the cattle.

COMMITMENT.

Raising quality registered Angus cattle takes commitment. As your genetic supplier, we take that seriously.

That's why we participate in MaternalPlus[®]. Through MaternalPlus, we devote extra time to tracking maternal traits beyond those normally required, ultimately targeting greater performance and predictability.

The data we choose to gather through this inventory-based program today sets the stage for reproductive and lifetime productivity tools tomorrow — tools to pioneer new ways of selecting the most profitable animals.

Herd improvement starts with smart decisions. A commitment to the female starts with MaternalPlus.

Contact AGI at 816-383-5100 or agi@angus.org for more information.

Here is another way to incorporate Arntzen Angus into your herd.

A A R Frontman 3132

Reg: 17614182

Calved: 2/21/13

Tattoo: 3132

Sire: Apex Frontman 081

MGS: B C Matrix 4132

| CED | BW | WW | Milk | YW | SC | CW | Marb | REA | Fat | SW | SB |
|-----|------|-----|------|------|-------|----|------|-----|-------|-------|--------|
| +15 | -2.4 | +62 | +33 | +111 | +1.12 | 52 | +26 | +56 | +0.16 | 74.79 | 134.80 |

- We retained Frontman 3132 due to his awesome phenotype, calving ease and beautiful dam.
- Blackbird 9044 has proved herself to be one of the best cows at AAR. Progeny average of 5 WR 107 and 5 YR 111.
- Great calving ease sire with excellent performance.
- First two calf crops 84 calves with an average BR 98, 84 WR 101, 73 YR 101.
- Leased to Beef 360. He was their #1 seller in 2016.
- First calf daughters are very gentle, have great capacity and excellent uddered.

KG Justified 3023

Reg: 17707279

Calved: 1/21/13

Tattoo: 3023

Sire: Connealy Judgment

MGS: Sitz Wisdom 481T

| CED | BW | WW | Milk | YW | SC | CW | Marb | REA | Fat | SW | SB |
|-----|------|-----|------|------|-------|-----|------|------|--------|-------|-------|
| +14 | -2.1 | +61 | +34 | +105 | +1.98 | +28 | +7.4 | +3.1 | +0.080 | 74.91 | 95.81 |

- Justified was the high selling bull of the 2014 KG Angus bull sale.
- He has tremendous thickness and shape on a very sound set of feet.
- His calves have excellent phenotypical expression and the heifers out of him are very attractive.
- Leased to Genex.
- Co-owned with KG Ranch and Gartner-Denowh Angus Ranch

Sitz Reinvested 636a

Reg: 17467126

Calved: 1/28/13

Tattoo: 636A

Sire: Connealy Thunder

MGS: Sitz Ellunas Elite 656T

| CED | BW | WW | Milk | YW | SC | CW | Marb | REA | Fat | SW | SB |
|-----|------|-----|------|------|------|-----|------|------|--------|-------|-------|
| +11 | -2.0 | +59 | +30 | +101 | +7.6 | +32 | +5.4 | +1.7 | +0.062 | 69.82 | 93.33 |

- We selected Reinvested for his moderate frame, deep rib, and good foot and leg structure.
- Superstar dam who is also the dam of Sitz Investment 660Z. She is deep bodied with a long body and a very good udder.
- Calving ease has been very good on his calves and his daughters look like they will make great cows.
- Co-owned with Sitz Angus, Gartner Denowh Angus Ranch and Genex.
- Reinvested was our hottest sire group at our 2016 Bull Sale, averaging 9250 on 27 head.

A A R Creed 5802

Reg: 18267586

Calved: 1/28/15

Tattoo: 5802

Sire: Connealy Thunder#

MGS: Connealy Consensus 9705

| CED | BW | WW | Milk | YW | SC | CW | Marb | REA | Fat | SW | SB |
|-----|------|-----|------|-----|------|-----|------|------|--------|-------|--------|
| +10 | -1.3 | +52 | +25 | +98 | +4.3 | +38 | +6.1 | +7.6 | +0.052 | 55.90 | 122.24 |

- We retained Creed from our 2016 calf crop because of his moderate frame, wide base and he's backed by a very good cow family. He will provide you with an outcross pedigree with calving ease, good growth, carcass traits and excellent maternal. His dam is a very solid "9705" daughter who is deep ribbed with a really good udder. She traces back to Dash, Contrast and Really Windy. We used Creed very heavily and his calves have a short gestation and come with great vigor. They are young but they already have good muscle shape and have great eye appeal.

A A R Bankroll 5016

Reg: 18241686 Calved: 2/2/15 Tattoo: 5016

Sire: Sitz Reinvested 636a MGS: A A R Ten X 7008 S A

| CED | BW | WW | Milk | YW | SC | CW | Marb | REA | Fat | SW | SB |
|-----|------|-----|------|------|-------|-----|------|-----|-------|-------|--------|
| +13 | -2.3 | +66 | +28 | +119 | +1.20 | +38 | +53 | +24 | +0.22 | 80.31 | 116.38 |

- Bankroll 5016 is the record high selling bull of all time at Arntzen Angus selling for \$50,000 to Bakers Lemar Angus in South Dakota
- Combination of exceptional calving ease and explosive growth with individual performance in a large contemporary group of BR 99, WR 116, YR 120
- He boasts an impressive EPD spread very few non-parent bulls can match
- Ranks top 10% CED, 2% BW and WW, and 1% YW
- His dam is a feminine, tight uddered Ten X that is surfacing as one to the top cows at AAR
- Bankroll has proved his calving ease. Bakers Lemar bred their entire heifer crop to Bankroll with great success. He has also posted very moderate birth weights at Arntzen Angus.

Mc Cumber Unmistakable 524

Reg: 18168191 Calved: 1/16/15 Tattoo: 524

Sire: O C C Unmistakable 946U MGS: Sinclair Extra 4X13#

| CED | BW | WW | Milk | YW | SC | CW | Marb | REA | Fat | SW | SB |
|-----|----|-----|------|-----|-----|-----|------|-----|-------|-------|--------|
| +8 | +2 | +48 | +22 | +77 | +40 | +29 | +66 | +38 | +0.61 | 57.33 | 103.90 |

- Mc Cumber Unmistakable 524 was the high selling bull in the 2016 McCumber Angus ranch annual production sale. He is wide based and deep ribbed with lots of length and extra bone. Excellent maternal pedigree. The cow side of his pedigree has 4 straight pathfinders and the dam is on her way to pathfinder status as well. We are very excited about our first set of "524's" that are just hitting the ground. They calved easy, have a lot of style and a jet black hide. We used him on our heifers with no problems and would recommend him on most heifers.

A A R Thirty-Aught-Six

Reg: 17615397 Calved: 2/4/13 Tattoo: 3006

Sire: Connealy Confidence 0100 MGS: S A V Final Answer 0035#

| CED | BW | WW | Milk | YW | SC | CW | Marb | REA | Fat | SW | SB |
|-----|----|-----|------|-----|-----|-----|------|-------|-------|-------|-------|
| +14 | +9 | +63 | +22 | +98 | +27 | +35 | +47 | +1.05 | +1.74 | 66.39 | 97.45 |

- Thirty-Aught-Six was a standout of our 2014 sale selling to Hilltop Angus.
- He sires moderate framed very easy doing cattle, with sound structure.
- Daughters are moderate, gentle, deep bodied and have been excellent uddered.
- The consistency of his calves are second to none. They are thick and deep from the flank to the hind quarter.

Ellingson Consistent 6235

Reg: 18543081 Calved: 3/6/16 Tattoo: 6235

Sire: Ellingson Chaps 4095 MGS: LT Territory 5824 of EA#

| CED | BW | WW | Milk | YW | SC | CW | Marb | REA | Fat | SW | SB |
|-----|----|-----|------|------|-------|-----|------|-----|-------|-------|--------|
| +10 | +6 | +65 | +27 | +117 | +1.88 | +58 | +62 | +70 | +0.60 | 73.84 | 149.12 |

- Well-balanced curvebender that possesses extra muscle shape and softness.
- He has a flawless pedigree, stacked with some of the best ancestors in the Angus breed.
- He is also loaded with maternal. His dam and granddam are two of the Ellingson's absolute favorites cows on the ranch both phenotypically and for production.
- Co-owned with Richard Angus Ranch in Belfield, ND.

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs). EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 7-24 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation at www.angus.org.

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD).

Thank you to all those who have made the last 41 years a wonderful success!

Montana Angus Tour 2016

Kevin giving the introduction at our stop during the MT Angus Tour

After 61 years of breeding Angus cattle, our philosophy at Arntzen Angus Ranch has stayed the same. We breed cows to be trouble free. They must be easy fleshing, high capacity cows with good feet and udders. Late calvers and poor dispositions are not tolerated. We want light birth weight and moderate framed calves, with exceptional growth and thickness. A strong emphasis is also put on maternal and carcass traits.
