

Welcome to our 14th Annual Production Sale

On behalf of Bryan, Ernie, and our families, we would like to thank you for your support and commitment to our operation. We know it's been said if you enjoy what you do, it's not a job, it's a lifestyle. We enjoy our 'job' of producing quality Black Angus cattle and continue to work to improve the product we provide to you, our customers.

This year's offering of 175 bulls has new and exciting herd sires which will offer different genetics to add to your herd. We strongly believe in performance and phenotype which we incorporate into our own commercial herd. We are striving at Bobcat Angus to produce bulls with balanced EPD's which are above breed averages.

All of the bulls have been either tested with i50K or Angus Genesek. We firmly believe in the value these tests add to genetic advantage of the bulls. \$Beef values and predicted carcass traits are two of the most important inputs in our breeding decisions.

As the next generation of our families become more involved in the business, we continue to strive to raise cattle that meet the commercial producer's need. We hope you will take a look at this year's offering and join us at Western Livestock Auction Yard on January 26th.

We will host a Certified Angus Beef pre sale dinner at the Elks Lodge in Great Falls on Friday January 25th. Lunch will be served at 11:30 on sale day and will also feature Certified Angus Beef. Please make plans to come the night before the sale and join us for dinner. Lodging for the sale is available at the O'Haire Motor Inn. Call 406-454-2141 to reserve your room and join us in Great Falls!

Sincerely,
Bryan and Cathy Ratzburg - Cole, Kamron & Rebecca
Ernie and Jayne Ratzburg - David, Justin & Richard

14th Annual Production Sale

Look to the future with **Bobcat** ANGUS

Accommodations

O'Haire Motor Inn • 406-454-2141

Delivery Arrangements

Free delivery in Montana on bulls only. \$100 discount on bulls picked up sale day. Arrangements can be made to winter bulls at cost. All yearling bulls wintered free of charge.

Terms and Conditions

Cattle will sell under the standard terms and conditions as recommended by the American Angus Association

Sale Day Information

A supplemental sheet will be available sale day. Announcements from the auction block regarding the cattle selling in this sale take precedence over information listed in this catalog.

First Breeding Season Guarantee

All bulls selling for \$2,000 or more will be covered 50% by Bobcat Angus, if they are injured during their first breeding season. This guarantee does not include death as that can be insured for. Breeding season is defined as a 60 day period following the first turnout of bulls. Fifty percent of the value of the injured bull, minus one-half the salvage value, will be given credit in a future Bobcat Angus sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Bobcat Angus and the buyer. All injured bulls must be diagnosed by a veterinarian. We also reserve the right to a second opinion by a veterinarian of our choice. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2020.

B ANGUS

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

- Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs
- Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)
- The ability to make more rapid progress for traits that are important to you, due to:
 - more accurate selection
 - easier identification of genetic outliers
 - the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-33 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	28	Milk	33
Birth Weight	21	Mature Weight	11
Weaning Weight	26	Mature Height	8
Yearling Weight	21	Carcass Weight	9
Dry Matter Intake	8	Yearling Height	11
Scrotal Circumference	13	Carcass Marbling	9
Docility	10	Carcass Ribeye	12
Heifer Pregnancy	14	Carcass Fat	10

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

BOBCAT ANGUS CREW

We appreciate our crew and the countless hours they contribute.

Brian Tothill and Felisario Villagran have been working full time, year round on the ranch for many years. Shawn Cassidy just joined the full time ranch crew. Ron Harrer, Dan Bock and Michael Walsh all put in long hours during the summer months and help with AI season and the National Western Stockshow. Jose Magnos keeps the feed truck rolling. Veterinarians Wade Spears and Ralph Miller know the road to the Sweet Grass Hills quite well.

650 COMMERCIAL BRED HEIFERS

Look to the future with *Bobcat* ANGUS

We are offering 650 bred heifers. 200 head were purchased from a customer that has a heavy influence of Bobcat Angus in his herd. These 200 were AI bred to Vermilion Spur B024 on May 17-18. This bull was sought after by Select Sires and we eventually sold an interest of him to Select Sires.

There are 440 head of no brand heifers that were AI bred to Circle L Gus May 24-25. We have sold no brand heifers from these same breeders for the past 10 years. They are a fancy set of females that are heavily influenced by Bobcat Angus genetics and will raise big calves. All of the heifers are ultrasound pregnancy tested by Dr. Ralph Miller for calving dates and sex. They have been vaccinated with Virashield 6 VL, Scour Boss 4, and Ivomec.

Vermilion Spur B024

LOT 214 46 HEIFERS

AI bred to Vermilion Spur B024

Due to calve Feb. 15-25

Carrying bull calves

EARTAG: GREEN WITH BLACK NUMBERS

LOT 215 50 HEIFERS

AI bred to Vermilion Spur B024
