On-line catalog & video at www.northernlivestockvideo.com

Dear Cattlemen,

Welcome to another summer marketing season at Northern Livestock Video Auction. We have a great turnout for our annual "Early Summer Special." This catalog is full of high quality calves and yearlings that we are very proud to market. Our representatives have handled most of these calves for many years and know them well.

After a slow start most of our region has had adequate or better rain fall, and it was a banner spring for calving. All of us here at Northern are very proud of the consignors and the cattle we represent. Many of our loyal buyers know the value of genetics and the quality that is bred into these Northern cattle. The market is again very strong and there is great prospects for ample feed across the country. Our friends in the South have had a huge turnaround in moisture and for that we are thankful. The years of breeding and time put into our customers cattle give them the extra "power" that will give buyers that extra gain needed in today's market place.

When Pat started the video way of merchandising in 1976, many innovations have taken place. All of us in the business realize change is inevitable and that we must be flexible to keep up with an ever changing marketplace. With that in mind, we are excited to introduce our **Northern Gold Program** starting this sale. All cattle enrolled in the Northern Gold Program will sell in special sections and the gold program will be explained in more detail ahead of each section. We will also continue our established program with no 10 pound window and a larger slide increase in the event of heavy cattle (51lbs or more over base weight). All of us want a strong contract that is **fair** to all parties involved.

Plan on joining us June 22nd & 23rd at Billings Livestock Commission. We will start the sale at 9:00 AM MDT both days. Hitts the Spot Café inside Billings Livestock will be open for breakfast & lunch both days at 6:00 AM. On Monday, June 22nd we will sell bigger calves, yearlings, and bred and exposed females. On Tuesday, June 23rd we will sell outstanding calves weighing 400-600 lbs as well as bigger calves.

We want to invite all consignors and buyers to a Monday evening social & prime rib dinner co-sponsored by Northern Livestock Video Auction, The Northern Ag Network & The Mighty 790 KGHl at Cowboys along the Yellowstone River in Huntley, MT starting at 5:30 PM.

Thanks for your continued support of Northern Livestock Video and best of luck for a safe and prosperous summer!

Sincerely,

Pat Goggins
Joe Goggins
Ty Thompson

Social & Dinner co-sponsored by:

Monday Evening Social & Prime Rib Dinner

at Cowboys Restaurant Bar & Casino
Huntley, MT

Social 5:30 PM ** Dinner 6:30 PM

2. Take the 1st right onto Johnson Ln.
 - If you reach Firth St you've gone a little too far (go 0.18 miles)
3. Merge onto I-90 E/US-87 S/US-212 E via the ramp on the left toward Sheridan/I-94.
 - If you reach Old Hardin Rd you've gone a little too far (go 1.08 miles)
4. Take I-94 E toward Bismarck. (go 5.79 miles)
5. Take EXIT 6 toward MT-522/Huntley. (go 0.25 miles)
6. Turn left onto Pryor Creek Rd.
 - If you reach I-94 E you've gone about 0.1 miles too far (go 0.07 miles)
7. Stay straight to go onto County Hwy-522/Northern Ave. (go 0.9 miles)
8. Turn right onto Nahmis Ave.
 - Nahmis Ave is 0.1 miles past Shopis Ave
 - United States Postal Service is on the left
 - If you reach Noopis Ave you've gone about 0.1 miles too far (go 0.02 miles)
9. 1588 NAHMIS AVE.
 - If you reach Pacific Ave you've gone a little too far (go 0 miles)

B) 1588 Nahmis Ave, Huntley, MT 59037-9113 US

ATTENTION BUYERS

Sellers are responsible for general health certificates. Buyers are responsible, at their expense, for any additional tagging or testing, required by some states. Please check in advance with **Representatives** if your state of destination requires more than a general health, as some ranchers are unable to tag or test.

BUYERS MUST SEND ENOUGH TRUCKS TO HAUL GROSS WEIGHT OF CONTRACT PURCHASED.

Ph. 430238-4218 2754-001

NORTHERN GOLD

If you received this catalog you also received a letter explaining our Northern Gold Program. The complete letter and terms are also in the last pages of this catalog. The terms are also on the back of all contracts.

This program was started as a way to better protect our buyers after last year's unusually wet August and cattle coming heavy due to that weather. We got together with all our representatives and came up with some ideas on how to afford buyers as much protection as possible. Although last years weather and market was great for our consignors, we all remember the years we have delivered in dry years with grasshoppers, little water and light cattle. With that in mind we wanted to offer a protection to our consignors that has been resisted for many years in the buying sector. It is our hopes that you will look at this with an open mind and run your calculator. We realize this program might need a tweak here and there, but we spent a good amount of time and energy to get it right and **fair** for all parties as long as the price per pound stays in this general area.

Northern Gold Program Offers:

- ✓ Freight adjustment to 100% of gross weight sold on contract not within 95% of head count.
 - Example: If cattle come in light there is a freight adjustment for the buyer unless enough extra head count of like cattle is available. If cattle come in heavy buyer is only responsible to take the weight sold on contract.
- ✓ The same slide up and down from the base weight.
- ✓ 50# weight stop (51# and more over base weight is free to the buyer).
- ✓ 50# slide stop.
 - In the event cattle come in more than 50# light. The slide stops at 50# under the base weight for figuring the sale price/lb . If cattle are more than 50# light, you then take net sale wt times the sale price/lb for total cost of cattle.
- ✓ Cattle must be a PRE-CON 1 (Spring Shots) or better.
 - Note: 7 Way or 8 Way is fine in spring or fall Shots. Somnus is not required in spring just in fall.
- ✓ Cattle must meet a required weigh-up comparable to a 2% pencil shrink on calves and a 3% pencil shrink on yearlings.
 - We have always felt a fair weigh-up is important and with buyers giving from \$2 to \$4 per pound it is imperative.
- ✓ Required slides for weight categories.

**Monday, June 22nd
9:00 AM**

**The following lots are weaned &
un-weaned calves in the Northern
Gold Program weighing between
530-625 lbs for fall delivery**

PrimeVAC™

BetterHEALTH // HeavierWEANING WEIGHTS // HigherVALUE

THE SATISFACTION OF A JOB WELL DONE IS ITS OWN REWARD.

Better performance and higher value for every calf is even more satisfying. From birth to sale day, a PrimeVAC™ preconditioning program can turn healthier calves and higher weaning weights into real value for you and your customers.

To find the PrimeVAC preconditioning program that's right for your operation, talk to your veterinarian and visit cattleprimevac.com.

Always consult your veterinarian concerning: best health management decisions specific to your operation, selection of qualified USDA/FDA approved products, optimum use of combination products, and the efficacy of vaccination in the face of maternal antibodies. Always read, understand, and follow product label and use as directed.

NORTHERN GOLD

If you received this catalog you also received a letter explaining our Northern Gold Program. The complete letter and terms are also in the last pages of this catalog. The terms are also on the back of all contracts.

This program was started as a way to better protect our buyers after last year's unusually wet August and cattle coming heavy due to that weather. We got together with all our representatives and came up with some ideas on how to afford buyers as much protection as possible. Although last years weather and market was great for our consignors, we all remember the years we have delivered in dry years with grasshoppers, little water and light cattle. With that in mind we wanted to offer a protection to our consignors that has been resisted for many years in the buying sector. It is our hopes that you will look at this with an open mind and run your calculator. We realize this program might need a tweak here and there, but we spent a good amount of time and energy to get it right and **fair** for all parties as long as the price per pound stays in this general area.

Northern Gold Program Offers:

- ✓ Freight adjustment to 100% of gross weight sold on contract not within 95% of head count.
 - Example: If cattle come in light there is a freight adjustment for the buyer unless enough extra head count of like cattle is available. If cattle come in heavy buyer is only responsible to take the weight sold on contract.
- ✓ The same slide up and down from the base weight.
- ✓ 50# weight stop (51# and more over base weight is free to the buyer).
- ✓ 50# slide stop.
 - In the event cattle come in more than 50# light. The slide stops at 50# under the base weight for figuring the sale price/lb . If cattle are more than 50# light, you then take net sale wt times the sale price/lb for total cost of cattle.
- ✓ Cattle must be a PRE-CON 1 (Spring Shots) or better.
 - Note: 7 Way or 8 Way is fine in spring or fall Shots. Somnus is not required in spring just in fall.
- ✓ Cattle must meet a required weigh-up comparable to a 2% pencil shrink on calves and a 3% pencil shrink on yearlings.
 - We have always felt a fair weigh-up is important and with buyers giving from \$2 to \$4 per pound it is imperative.
- ✓ Required slides for weight categories.

WE LET YOU KEEP THE REINS IN YOUR HANDS.

Most people can sit on a horse, but depending on rider experience, the horse's performance will vary greatly. And, if thrown, many will walk away.

At U.S. Bank, our ag bankers have the experience to recognize the opportunities and risks associated with the cattle industry. And as with horse and rider, experience and ability are critical to the level of performance that is expected.

We're comfortable with ranchers, backgrounders and feedlots. That's what you need in a banker. One who understands the cattle business and knows how to let you hold the reins.

U.S. Bank... let's keep riding. In Billings, call us at 1-866-386-8542. And, in Miles City, you can reach us at 1-406-232-0810.

NORTHERN GOLD

If you received this catalog you also received a letter explaining our Northern Gold Program. The complete letter and terms are also in the last pages of this catalog. The terms are also on the back of all contracts.

This program was started as a way to better protect our buyers after last year's unusually wet August and cattle coming heavy due to that weather. We got together with all our representatives and came up with some ideas on how to afford buyers as much protection as possible. Although last years weather and market was great for our consignors, we all remember the years we have delivered in dry years with grasshoppers, little water and light cattle. With that in mind we wanted to offer a protection to our consignors that has been resisted for many years in the buying sector. It is our hopes that you will look at this with an open mind and run your calculator. We realize this program might need a tweak here and there, but we spent a good amount of time and energy to get it right and **fair** for all parties as long as the price per pound stays in this general area.

Northern Gold Program Offers:

- ✓ Freight adjustment to 100% of gross weight sold on contract not within 95% of head count.
 - Example: If cattle come in light there is a freight adjustment for the buyer unless enough extra head count of like cattle is available. If cattle come in heavy buyer is only responsible to take the weight sold on contract.
- ✓ The same slide up and down from the base weight.
- ✓ 50# weight stop (51# and more over base weight is free to the buyer).
- ✓ 50# slide stop.
 - In the event cattle come in more than 50# light. The slide stops at 50# under the base weight for figuring the sale price/lb . If cattle are more than 50# light, you then take net sale wt times the sale price/lb for total cost of cattle.
- ✓ Cattle must be a PRE-CON 1 (Spring Shots) or better.
 - Note: 7 Way or 8 Way is fine in spring or fall Shots. Somnus is not required in spring just in fall.
- ✓ Cattle must meet a required weigh-up comparable to a 2% pencil shrink on calves and a 3% pencil shrink on yearlings.
 - We have always felt a fair weigh-up is important and with buyers giving from \$2 to \$4 per pound it is imperative.
- ✓ Required slides for weight categories.

Livestock Weighing Made Easy

Mobile Group Animal Scale (shown above)

Hook up to any standard vehicle and tow the scale to the herd in pasture, lot, or sales ring. Weighs Legal for Trade even when off-level up to four degrees. No need to recalibrate or recertify after relocation.

The Static Group Animal Scale (shown right)

The MAS-LC provides reliable, accurate weighing for ranchers and processors that prefer a load cell based weighing system. This scale combines the accuracy of fully electronic weighing technology with steel I-Beam weigh bridge designs typically found in heavy capacity vehicle weighing scales. With a wide range of sizes, the MAS-LC is the right choice for any stationary weighing application.

Fall Performance Sale

Saturday, November 28, 2015

PAYS, Billings, MT

1800 Angus Sell!

300 Total Performance Bulls

150 Outstanding Fall Yearlings

- The best of our 2014 fall bulls by Vermilion Sirloin, Vermilion Bear Paw, Connealy Spur, Sitz Game Day 9630 and Connealy Earnan.

150 Big, Stout Coming Two's

- Sired by Connealy Spur, Vermilion Sirloin, FF Dempsey Y11, Bear Paw, Sitz Game Day 9630 plus many of the Vermilion top sires.

40 Select Registered Bred Heifers

- Bred to Connealy Countdown, SAV Privilege, Sitz Game Day and Sitz Conformation.

SPECIAL FEATURE!

130 - Dispersion of all our 2008 born registered cows!

- An outstanding, top producing set of cows. Bred to SAV Privilege, Countdown, Conformation, Big Sky, Sirloin, Spur and Game Day.

130 - Dispersion of all our 2008 born commercial cows!

- Always an attraction from the Diamond Ring Ranch. Bred to top Vermilion sires.

1200 Fancy Commercial Bred Angus Heifers

- All one iron, only the tops of 10,000.
- AI bred to Connealy Countdown. February to March 2016 calvers.
- Ultrasound pregnancy tested to sex and short calving periods

Connealy Countdown

AI service sire of all commercial heifers and many of the registered females. One of the best calving ease, high performance sires we have ever used. His calves are outstanding!

Sitz Game Day 9630

Service sire and many sons sell! Daughters are fantastic. Sons are some of the most popular we sell.

Vermilion Sirloin

Service sire & sons sell. He sired our top sellers in the spring. He's loaded with complete performance.

~ATTENTION~

Dish Network Channel 998 requires a **HD Package**

First step is to see if you can see **Channel 998** with your current setup

There is a Business TV slate up all the times.

If you don't see the slate, call Dish customer support and upgrade to any of the HD packages.

Call Dish customer service at **1-800-333-3474** to upgrade your systems or verify you already have the proper system

May take up to two weeks for installation.

ATTENTION BUYERS

Sellers are responsible for general health certificates. Buyers are responsible, at their expense, for any additional tagging or testing, required by some states. Please check in advance with **Representatives** if your state of destination requires more than a general health, as some ranchers are unable to tag or test.

BUYERS MUST SEND ENOUGH TRUCKS TO HAUL GROSS WEIGHT OF CONTRACT PURCHASED.

NORTHERN VACCINATION PROGRAM

PRE-CON 1

These calves will be given the following suggested shots at branding:

1. Modified live IBR-BVD-PI3-BRSV
2. Pasteurella (both types)
3. Clostridial 7 or 8 Way with or without Somnus

PRE-CON 2

Shots given to calves approximately 3-6 weeks prior to weaning:

1. Killed or chemically altered viral containing IBR-BVD-PI3-BRSV
2. Pasteurella (both types)
3. Clostridial 7 or 8 Way with Somnus

PRE-CON 2 PLUS

Two rounds of shots (branding time & 3-6 weeks prior to weaning). Same shots as PRE-CON 2.

PRE-CON 45

These calves are weaned 45 days and had the following shots twice in their lifetime:

1. Modified live IBR-BVD-PI3-BRSV
2. Pasteurella (both types)
3. Clostridial 8 Way with Somnus

PRE-CON 90

These calves are weaned 90 days or more with PRE-CON 2 program.

NORTHERN "ALL NATURAL" PROGRAM

To qualify for the NLVA "All Natural" program the following procedures must be followed:

- Animals have been born and raised from birth in the United States of America
- Animals have received NO: **antibiotics, synthetic hormones, steroids or synthetic growth promotants** - To the Producer's knowledge, all animals receiving medication have been identified and removed from the program.
- That the following items have not been used in the production of these animals and that all feedstuff labels have been checked to be sure that feeds used in the production of these animals, contains NO: **antibiotics, ionophores, growth hormones, or animal by-products of any kind.**

Northern Livestock Video Auction

Terms & Conditions

BUYER REGISTRATION: Each bidder must be properly registered and have a **NLVA Buyer's Number** to bid.

DISPUTE: If any dispute arises between two or more bidders, the Auctioneer may immediately put the lot up for sale again and resell to the highest bidder. The decision of the Auctioneer shall be final and absolute.

The Auctioneer & Northern Livestock Video Auction reserves the right to reject any and all bids.

The record of sale kept by the Auctioneer and Clerk will be taken as final in the event of any dispute.

Northern Livestock Video Auction reserves the right to refuse any bid at the time of the sale.

Every effort has been made to ensure the correctness of this catalog, but all announcements from the auction block shall take precedence over the printed material.

PAYMENT: Buyer agrees to pay to Northern Livestock Video Auction for the benefit of Seller, \$100.00 per head as part payment upon entering into this contract and to pay the remaining balance to Northern Livestock Video Auction at the time of delivery. If Buyer is present at delivery, payment is to be received at time of delivery. If Buyer is not present at delivery, payment is to be received by Northern Livestock Video Auction no later than the first business day following delivery. This can be done by wire or ACH transfer of funds or by overnight mail on the day of delivery.

Seller acknowledges that it has received from Northern Livestock Video Auction \$85.00 per head as part payment for the livestock and agrees that the remaining balance is to be held in Northern Livestock Video Auction Custodial account for shipper's proceeds, as a deposit on commission, until delivery, when the actual commission can be determined. If Buyer defaults or otherwise fails to take delivery he will forfeit his \$100.00/head part payment. In addition if either Buyer or Seller defaults, the defaulting party shall be liable for actual and incidental damages as are permitted by the Uniform Commercial Code, plus court costs and reasonable attorney's fees.

ACCEPTABLE PAYMENT: a check or wire transfer of funds. *No drafts will be accepted as payment of livestock.* In the event of multiple shipments, payment will be required on each day's delivery. Any and all payments will be made to Northern Livestock Video Auction Custodial Account for Shipper's proceeds.

BANK INSTRUCTIONS

Wire Information: Call Office 866-616-5035	NLVA Mailing Address Northern Livestock Video Auction P.O. Box 31533 Billings, MT 59107	For Overnight Delivery (Fed-Ex/UPS) Northern Livestock Video Auction 2443 North Frontage Road Billings, MT 59101
--	---	--

BASE WEIGHT: Is the estimated average pay weight of the cattle on the day of delivery.

SLIDE EXPLANATION: Example: A lot with a 650# base weight sells for \$200/cwt. If cattle weigh 651# on a 10 cent slide the price would be \$199.90, 660#=\$199.00, etc.

BUYER INSURANCE (MANDATORY) - If the pay weight of cattle is 51 pounds or more over BASE WEIGHT, the slide will increase 4 cents on the total animal weight. If pay weight of cattle is 15% more than the base weight, buyer has option to turn cattle down or renegotiate price.

There will be a 25 pound allowance from the base weight and the slide will be 80 cents per pound under the slide weight on bred heifers and 50 cents per pound under slide weight on the bred cows unless otherwise stated.

INSPECTION AND WARRANTIES: Seller shall deliver within 5% of the stated number of livestock on contract, in the event Seller fails to deliver within 5% of stated number of livestock on contract, he will be liable for replacing any cattle not delivered with cattle of equal size and quality or make the necessary freight adjustment to Buyer. If Buyer demands, replacement of cattle or freight adjustment will be at Seller's expense and Buyer's approval.

Buyer, his agent, or Northern Livestock Video Auction shall have the right, at delivery, to sort and reject any stags, crippled, blind, loco, lump-jawed or otherwise un-merchantable cattle, or any other cattle that are not described in this contract, as determined by Northern Livestock Video Auction. Buyer shall notify Northern Livestock Video Auction of any grievance regarding any livestock within twenty four (24) hours after possession.

FREIGHT ADJUSTMENT: No adjustment will be given on cattle that weigh below the estimated base weight, if the head count is within 5% of the contract. Buyer is not required to accept a specific number of cattle sold, if they exceed the base weight. **Buyer must compute number of loads from gross weight on livestock contract and have enough trucks available at delivery.**

WEIGHING CONDITIONS: All cattle will be weighed on a certified scale according to weighing conditions stated in the Livestock Contract. No cattle will be delivered or weighed on days when temperatures are 10 below zero or more.

OVERNIGHT DRY STAND: Cattle will be drylotted (no feed or water) the evening prior to delivery.

HEALTH: Seller shall furnish to buyer any brand and health certificate required by Federal and State law. Buyer is responsible for notifying Northern Livestock Video Auction when health certificates are needed.

SPLIT LOADS: Heifer price will be a set \$ amount/cwt as stated in the lot information back of the original price of the steers.

NORTHERN GOLD PROGRAM: Cattle must meet the following criteria: (1) Pre-Con 1 or better, (2) Weigh conditions on yearlings of 3% shrink or comparable to a 3% shrink. Weigh conditions on calves of 2% shrink or comparable to a 2% shrink, (3) **Required Slides for base weight listed on contracts:** 300-400# 30 cents plus, 405-500# 25 cents plus, 505-550# 20 cents, 555-595# 15 cents, 600-695# 12 cents, 700-830# 8 cents, 835-1100# 6 cents, (4) All cattle selling in the Northern Gold Program will have a weight stop at 50# over the base weight (any weight over the 50# is free to the buyer), (5) Cattle will slide both ways, same slide up and down with a **weight stop** of 50# to upside & a **slide stop** of 50# to the light side. **Example:** 500# base weight, sells at \$250/cwt. If cattle weigh 501# on a 25 cent slide the price would be \$249.75/cwt. If cattle weigh 499# on a 25 cent slide the price would be \$250.25. **Example coming in heavy:** 500# base weight, 25 cent slide, sells at \$250/cwt, calves come in weighing 560#. 560#-500#=#60# (50# weight stop) 50#x25 cent slide=\$12.50. Sale price \$250-12.5=\$237.50/cwt @ 550#. **Example coming in light:** 500# base weight, 25 cent slide, sells at \$250/cwt, calves come in weighing 440#. 500#-440#=#60# (50# slide stop) 50#x25cent slide=\$12.50. Sale price \$250+\$12.50=\$262.50/cwt @ 440#. **FREIGHT ADJUSTMENT:** Adjustment will be given on cattle that weigh below the estimated base weight if extra head count from the same contract cannot be provided to fill the load. Buyer is not required to accept a specific number of cattle sold, if they exceed the base weight. Buyer only is required to take gross weight sold on the contract.

BRED CATTLE: Bred cattle are to be pregnancy checked and aged by a licensed veterinarian (at seller's expense) within 30 days prior to sale. Buyer has 7 days upon possession to confirm pregnancy. After 7 days, Seller & Northern Livestock Video Auction will have no further liability for cattle that are not pregnant. Heifers that are sold as Open Feeder Heifers will be pregnancy checked by a licensed veterinarian (at seller's expense) within 30 days prior to delivery. A veterinarian's certificate must accompany cattle.

BRED CATTLE SLIDE EXPLANATION: All breeding cattle will be sold on a sliding scale on the bottom side only. There will be a 25 pound allowance from the base weight and the slide will be 80 cents per pound under the slide weight on bred heifers and 50 cents per pound under slide weight on the bred cows unless otherwise stated. Bred cattle will also be banded vaccinated with a legible tattoo, unless otherwise stated.

COMMISSION: Seller agrees to pay Northern Livestock Video Auction a commission of 2.25% of the gross proceeds of the sale for calf & feeder contracts, 3% of gross proceeds for bred cows and heifers. The minimum commission charge is \$11.00 per head or 2% of the gross proceeds, whichever is higher for calf & feeder contracts.

NO SALE OR PASS OUT: If seller elects to decline the highest bid offered at the auction, he must do so **before the next lot is sold.** If Seller declines the highest bid or for any reason withdraws, said livestock from the auction, the No Sale fee is \$4.00 per head. The No Sale fee will immediately become due and payable.

DESIGNATION OF AGENT: If Seller and Buyer are not present at the auction, Seller and Buyer authorizes Northern Livestock Video Auction to complete and sign a Livestock Contract for the sale of the livestock described in this contract, on behalf of and in the name of the Seller and Buyer, which will make Seller and Buyer obligated to all terms and conditions of the Livestock Contract, as if Seller and Buyer had signed the contract himself. Seller also authorized Northern Livestock Video Auction to negotiate a satisfactory settlement regarding any discrepancies at delivery.

LIEN: Seller warrants that he has good and marketable title to the livestock and that the livestock will be delivered free from all security interests, liens or encumbrances, unless otherwise stated on consignment contract.

DEFAULT: In the event of failure on the part of either the Buyer or Seller (Parties), to fully perform under the terms of this Agreement, the non-defaulting party may pursue any available remedy at law or equity including specific performance against the defaulting party. In addition, the successful party in any action brought to enforce this agreement shall be entitled to costs and reasonable attorney's fees as determined by the Court.

In the event of a default and upon receipt of written notice clearly stating the default, Northern Livestock Video Auction shall deliver the balance of the down payment to the non-defaulting party or in the event of a dispute concerning the performance by either party, Northern may deposit the down payment into an interest bearing account located at US Bank, Billings, Montana and shall place both parties names on the account which shall require a signature from both parties to remove any of the money. Upon payment of the down payment as provided for in this paragraph, Northern Livestock Video Auction, its members, employees and representatives shall be released from any further liability and have no other obligations to either party. The parties understand and agree that Northern Livestock Video Auction does not guarantee the performance of either party and is not a "Party" to this Agreement. The parties further understand and agree that all warranties either expressed or implied are between the parties.

The parties both agree that after payment of the money as described in this provision, they release Northern Livestock Video Auction, its representatives, members, and employees from all responsibility for any default by either party. In no event shall Northern Livestock Video Auction be liable for lost profits or any special, incidental consequential damages however arising.

SECURITY AGREEMENT: Buyer hereby grants Northern Livestock Video Auction a security interest in the livestock described herein, including the products and proceeds thereof, until such time as final payment of the full purchase price of said livestock is made by Cashier's check, wire transfer of funds or until Northern Livestock Video Auction actually receives final payment on any payment item issued. Default shall exist if final payment is not received within one day from the date buyer takes possession of the livestock described herein, or upon the death, bankruptcy or insolvency of the buyer or upon the sale of said livestock without prior written permission. Upon default, Northern Livestock Video Auction, with or without notice, may exercise any and all rights accorded it by law.

Northern Customers:

Another video auction marketing season is upon us and we are ready for your business here at Northern.

After 11 successful years with very little change in our terms, we are introducing a couple of big changes to our established contract and an exciting new **optional** program to keep pace with today's cattle market.

All of us in the business have seen some major changes in the cattle industry in the past decade. With that being said, we are still using the same slides and shrinks that were used 10, 20, 30 even 40 years ago. All of us here at Northern understand the challenges our consignors face with weather and being able to predict what available forage there will be a month or so out, let alone 4 to 6 months out when we are marketing these cattle for later delivery. We also fully understand our buyers' challenges with the amount of money being invested up front on these purchases and their varying feed costs. Buyers need protection and confidence to know they are getting what they purchased, not only quality wise, but in weigh-ups, slides, and vaccinations.

In taking into account these challenges our consignors and buyers face in today's market place, we are very proud to announce our **"Northern Gold Program"**.

Northern Livestock Video's "Northern Gold Program" was designed to keep pace with the rising cost of cattle and add to the strength of the contract for buyers and sellers alike.

Slides have been increased to make them more applicable mathematically to today's market. Extra protections have been afforded to the buyer for shots, weigh-up, and the event of heavy cattle (51# or more over base weight is free to the buyer). In the same respect we have given the sellers the same slide in the event cattle come in light (True Two way slide). The slide to the light side stops after the cattle are 51# or more under the base weight. When figuring the price on cattle that come in under the base weight, the actual weight is used, but sellers are only allowed 50# of slide. All slides are from the base weight with **no ten pound window**.

We feel as long as prices stay at current levels the Northern Gold Program consignments will be the new industry standard for a strong, **FAIR** contract for all parties involved.

Cattle must meet the following criteria to be part of the Northern Gold Program:

1. Must be a Pre-Con 1 or better.
2. Weigh conditions of 3% shrink on yearlings and 2% shrink on calves, or comparable.
 - Examples where less shrink can be used: long haul unload, long trail, overnight stand, most of the morning sorting ahead of weighing
3. Required slides for base weight listed on contract:
 - 300-400# - 30¢ Plus
 - 405-500# - 25¢ Plus
 - 505-550# - 20¢
 - 555-595# - 15¢
 - 600-695# - 12¢
 - 700-830# - 8¢
 - 835-1100# - 6¢
4. Cattle will slide both ways from the base weight with the same slide up and down. There is a weight stop at 50# over the contract base weight (any weight over 50# is free to the buyer) and a slide stop at 50# under the base weight.
5. Freight Adjustment: Adjustment will be given on cattle that weigh below the estimated base weight if extra head count from the same contract cannot be provided to fill the load. Buyer is not required to accept a specific number of cattle sold, if they exceed the base weight. Buyer only is required to take gross weight sold on the contract.

We feel these parameters will make the Northern Gold Program very useable for buyers and sellers alike. All cattle will be sold in one section and carry the Northern Gold Logo,

By making this an **optional** program the market will decide whether or not this program works. It is our hopes that in the not too distant future most of our catalog will be a Northern Gold section. Please feel free to call with any questions you might have regarding this program.

Mandatory changes to Established Contract:

For the last 11 years in our established contract we have used a 10# window until the slide starts. We will no longer have a 10# window, the slide will start at 1# over the listed contract weight. We have always had mandatory “buyer insurance”. This is where the slide increases 2¢ if the cattle come in 51# or more over the base weight. We will still have mandatory “buyer insurance”, however the slide will increase to 4¢ rather than 2¢ in the event of cattle coming in 51# or more heavy. We are also encouraging larger slides. These are big changes everyone needs to be aware of and they will take effect starting with our June 22 “Early Summer Special” Sale.

All cattle selling on Northern will have a down payment of \$100/per head collected from the buyer, at time of sale with balance due at delivery.

All cattle listed as part of the Northern Pre-Con program will have the required shots that are listed below and also listed in the catalog. If they do not meet the full list of shots to qualify for a specific Northern Pre-Con program, individual shots will be listed. We have added a Pre-Con 2+ which are calves that have had all listed shots both spring and fall. So here is a breakdown of our Pre-Con Program:

PRE-CON 1

These calves will be given the following suggested shots at branding:

1. Modified live IBR-BVD-PI3-BRSV
2. Pasteurella (both types)
3. Clostridial 7 or 8 Way with or without Somnus

PRE-CON 2

Shots given to calves approximately 3-6 weeks prior to weaning:

1. Killed or chemically altered viral containing IBR-BVD-PI3-BRSV
2. Pasteurella (both types)
3. Clostridial 7 or 8 Way with Somnus

PRE-CON 2 +

Two rounds of shots (branding time & 3-6 weeks prior to weaning). Same shots as PRE-CON 2.

PRE-CON 45

These calves are weaned 45 days and had the following shots twice in their lifetime:

1. Modified live IBR-BVD-PI3-BRSV
2. Pasteurella (both types)
3. Clostridial 8 Way with Somnus

PRE-CON 90

These calves are weaned 90 days or more with PRE-CON 2 program.

As always the market will go up and down, the weather will change, and cattle will change. Our hope is for our contract to be **strong** and **fair** for all parties involved regardless of changes.

Thanks for your continued support of Northern Livestock Video Auction and here's to a great 2015 sale season.

Joe Goggins

Ty Thompson
