Welcome

Dear Cattlemen,

On behalf of my family and crew, I would like to thank you for showing interest in our breeding program. More importantly, we would like to sincerely thank those of you who have supported our program in the past. A few of you have been customers since our first sale in 1966, and most of you have purchased from us for well over 20 years. We are humbled that you return each year - it reinforces your trust and belief in the principles that guide us as a breeder.

As in the past, in addition to EPDs and a 3 generation pedigree we include a wide range of information including but not limited to eye pigment, actual scrotal, and REA/100 lbs. Seems each year there is more and more infomation for you to sort through. Our goal is not to overwhelm or confuse you, but simply provide you with every available trait that can assist you in making a decision on your breeding stock.

We believe our buyers are astute cattlemen who value structure and phenotype just as much as a solid EPD panel. It has always been our intent as a breeder to produce well balanced cattle that calve easy, gain well and adapt and perform in ALL environments. We avoid single-trait selection & lean more heavily on phenotype, structure and actual performance. That being said, I think you'll find that a large number of cattle selling have solid EPD profiles. The bullet points below each animal highlight the traits for which it ranks in the top 30% of the breed.

The bulls and heifers were weaned on September 4th and immediately placed in a drylot where they were fed a mixture of chopped hay, alfalfa sileage, whole corn, and a mineral based protein supplement. Both groups performed well and posted solid weights as yearlings.

We hope that you contact us directly if you have any specific questions or if we can be of any assistance at all and look forward to seeing you at the ranch in March.

Sincerely,

Mark & Cristy Cooper

COOPER HEREFORD RANCH

Sale Schedule

03/08-03/11
All sale cattle will be on display.
Please stop by early to view the offering.

Trucking/Delivery

Bob Woolsey..... (406)670-1877

We offer free delivery for the first 1,000 miles on purchases totaling $5,000 or more. *Deliveries will be to central points.*

Terms/Conditions

All sales are cash unless arrangements are made with seller prior to the sale. All announcements made from the auction stand take precedence over printed material. Each animal will be sold to the highest bidder with the auctioneer settling any disputes. The animal becomes the property of the purchaser as soon as sold. Any death or injury thereafter falls upon the buyer. All animals in the sale are guaranteed breeders. If failing to be satisfactory, they must be reported to or returned in good condition and in compliance with the health regulations of MT to CHR by August 1, 2019. The seller reserves the right to try said animal for six months, and if it proves a breeder, to return it to the buyer at the buyer's expense. If an adjustment is required, it will be made with a replacement animal of equal value (or) credit on the purchase of another animal in our NEXT sale. No adjustments will be made after (9) months of sale day. Any person attending the sale does so at his/her own risk. Neither the owners nor any person associated with the sale assumes any liability, legal or otherwise.

This 402B son weaned off the cow at 855 lbs. and weighed 1430 lbs. at yearling. We retained 1/4 semen interest when he sold in 2016. We really liked his rib shape, muscle expression and big bone. His progeny are likewise heavy boned, with big hips and nice depth of rib. 602D ranks in the top 5% in Milk, M&G, Fat and top 25% in WW, SC and CW. Dam 435B has WR (112/3) and YR (105/3). Owned by Hermann Ranch.

GE-EPDs on *All* Herd Sires, Cows, Bulls & Heifers

In the fall of 2012 the American Hereford Association (AHA) released its first Genomically Enhanced EPD (GE-EPD). We were one of the first breeders to test our ENTIRE calf crop, which we continue to do each year. As a result, our herd is 100% GE-EPD tested and ALL cattle featured in this catalog have GE-EPDs.

AHA GE·EPD

The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

AHA GE·EPD Each animal tested is recognized with the AHA GE-EPD logo.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

American HEREFORD ASSOCIATION

A gentleman recently shared a remark made by my father in the late 1960's and we thought it fitting to share again.

" One should never loose sight of the FACT that the ability to grow rapidly to desirable market weight with an acceptable degree of finish, next to being born alive, is the MOST important trait of any beef animal."

AHA Breed Averages
CED = 1.9 BW = 3.1 WW = 52 YW = 84

Top 25% of the breed
CED = 5.1 BW = 1.9 WW = 57 YW = 92

CHR 2019 Sale Offering

CED = 85% above breed avg.
55% in the top 25% of breed

BW = 70% at or above breed avg.
35% in the top 25% of breed

WW = 85% at or above breed avg.
63% in the top 25% of breed

YW = 80% at or above breed avg.
54% in the top 25% of breed

115 Bulls on Test

ADJ 205 = 710 LBS
ADJ 365 = 1220 LBS
ADG = 3.6 LBS

1/3 of the sale bulls rank in the top 30% of the breed for CED, WW, YW combined!

The bulls listed in this catalog represent the top 70% of our 2018 bull calf crop. The bulls were weaned on September 4th.
The group as a whole posted an actual WW of 710 lbs. Performance numbers were on target again this year and exceeded our goal of gaining 3.5 lbs./day. Over the past several years we have tried to improve the scrotal size of our bulls and are pleased that 90% of the sale offering ranks at or above breed average for SC EPD (0.9) and over 50% of the offering ranks in the top 20% of the Hereford breed. Also, Teat and Udder scores on all cows are recorded within 24 hours of calving and submitted to AHA with our calf crop, and ultrasound data is recorded on ALL animals (heifers included) with a recorded yearling weight.

Fertility

January 23, 2019
All yearling bulls featured in this catalog have passed a Breeding Soundness Exam (BSE) completed by Dr. Will Oliver, DVM
Scrotal and Pelvic measurements were obtained by Dr. Oliver as well.

SC (Scrotal Circumference) A measurement of fertility. Testicle size indicated by scrotal circumference measured in centimeters is a highly inheritable trait very much correlated to reproductive efficiency. A valuable indicator of bull fertility and puberty, and highly related to early puberty in heifers and cow fertility, increased bull scrotal circumference should improve fertility and inherent cow herd productivity.
Acceptable range (cm) for bulls 12-14 mo. is 30 - 35 cm

This 4067B son has a really attractive pattern. He's well balanced with good length and solid muscle. Low birth wt. (77 lbs.) and good growth. Solid maternal pedigree - dam is a 1st calf heifer with a WR (114). She's ideal in size, has 100% pigment and a great udder. Granddam is a donor at Holden Herefords.

- *Top 5% IMF and Top 25% BW, Milk, Udder*
- *40% or better CED, SC, M&G*

Another 6187D son with an outstanding EPD profile - top 25% in 11 traits! This bull packs loads of eye appeal. He's thick made, red necked and solid marked. Calving ease prospect with good growth - 79 lb. actual BW and good gains. #5 bull in the sale for combination of CED and YW. Lots of bred-in calving ease and maternal strength fill this pedigree. Maternal granddam 148Y is a maternal half sister to 055X. Dam 648D is a 1st calf heifer with a lot of promise.

Retaining 1/4 in-herd use!

WR	98/5
YR	101/5

A mainstay in our breeding program, 1178Y has been a solid producer and powerful donor cow! She has as much bone, volume, and overall scale as any female in our herd. Sound in every aspect and very fertile - she's maintained a 369 day calving interval despite being flushed numerous times. She's the top cow in our herd for marbling and her daughter, 450B, has the 2nd highest marbling EPD. Fine herd bulls have been produced by this pedigree including 6187D (450B son) and 776E (1178Y son) who sold for $80,000 to L Bar W .

- *Top 2% of the breed for CED, IMF*
- *Sells with bull calf 956G as side - sired by 710E 1ET*
- *Retaining 1/4 interest in calf 956G*

A proven donor cow - she combines calving ease and maternal excellence with strong IMF. She's moderate, with extra pigment, loads of volume, spring of rib, and a big hip. Son, and herd bull 105Y produced a load of great daughters, many of which remain in our herd and have proven to be functional females with great udders, strong calving ease, and longevity! Outstanding flush of calves on the ground out of our 2018 top seller, 7131E.

- *Top 2% of the breed Milk, M&G, CEM*

Our pick in Holden's 2017 Female sale - we thought she was one of the very best cows on their ranch that year. Holdens flushed her once before she entered into our ET program. She's deep ribbed, easy fleshing and has an excellent udder. Full sister to our herd bull 4067B and her granddam, 8225U, has been a donor at Hoffman Ranch.
Strong set of ET calves out of 7131E on the ground.
- *Top 10% or better CED, SC, Teat*

Cooper Hereford Ranch Herd Health Program (Bulls & Heifers)

Birth: Alpha CD, C. Perfringens A, Calf Guard, Microbial Supplement
Branding: Express 5, Presponse SQ, Vision 8, MultiMin
Summer: Ocuguard, M. Bovoculi, Long Range, Fly Tag
Pre-Weaning: Express FP 5, Vista Once SQ, Vision 8/somnus
Weaning: Coronovirus, MPB Guard, Dectomax, MultiMin
Post-Weaning: Heifers: Brucellosis Vaccinate, MPB Guard, MultiMin, Noromectin, CleanUp
Bulls: MPB Guard, MultiMin, Nuplura, Noromectin, CleanUp
Pre-Breeding: Express FP 5, Reprostar VL5 HB (heifers), MultiMin

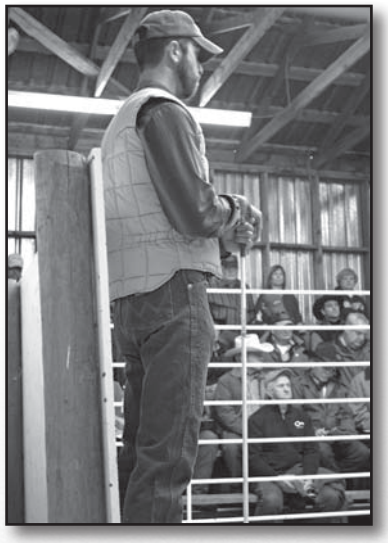
- The bulls have passed a Breeding Soundness Exam and are guaranteed.
- All sale animals have been tested (IE) Free.
- Montana is once again Class Free with regard to Brucellosis. All cattle will meet the import requirements of their state of destination.

Fertility (*January 26, 2018*) Reprostar VL5 HB, Multimin

- All bulls have been semen tested by Dr. Will Oliver, DVM; scrotal and pelvic measurements obtained as well.

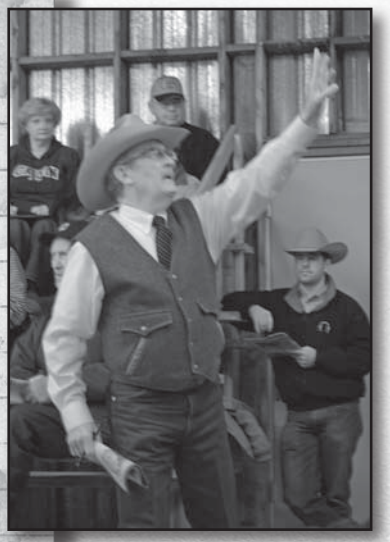
We appreciate your professionalism & support...

We are eternally grateful for the professionals that assist in making our business run smoothly, and for the support we receive each year from our many loyal, long-standing customers. We can't thank you enough for continuing to invest in our program. We appreciate each and every one of you!



Jay George

Hereford Hall of Merit Inductee, October 2018



We've always known our ringside crew was excellent, but awards like this help to validate our belief. After all, Jay George is to an auction what Hank Williams or George Jones is to country music - you simply cannot have one without the other. Jay first shot photos and worked our bull sale in March of 1997 and hasn't missed a beat over the 20 plus years since.. It's hard to imagine a sale barn void of his instantly recognizable and lovable Yaaaaaahhhh!!!

Back in the day he likely could have lured even the most fiesty senorita with that call of his! His keen eye, love of the cattle industry, and quick wit have earned him the trust and friendship of many great Hereford breeders. Jay has devoted his life to the marketing and promotion of cattle, and his customers' operations have undoubtedly benefitted from his knowledge, expertise and creativity. He's a true cattleman, a cowboy, a rancher at heart, and certainly deserving of this recognition.

Congratulations, Wildcat!!

" A person's success is dictated by the people whom they are surrounded and the values they share. I've had the opportunity to be surrounded by many great people. "

- Jay George

Thank You!

In addition to those who contribute their professional services to our operation throughout the year, there is also a large group of talented individuals working ringside and on the auction block who help ensure our sale runs smoothly. THANK YOU - your expertise, prefessionalism & dedication do not go unnoticed.

Our sale would not be possible without help from our friends, family, and neighbors working behind the scenes to ensure a smoothly run event. We are sincerely appreciative of your help. Thanks to...
