**Open Range** has sired an outstanding first calf crop. He is a true beef bull and performance sire who produces progeny with extra muscle, power, and mass all in an eye appealing and attractive phenotype. Open Range is featured at Accelerated Genetics and is an up and coming young sire in the Angus breed. Open Range also offers an outcross pedigree to many of the popular blood lines in the Angus breed today.

Welcome to the Annual Hilltop Angus Ranch bull sale. Before anything else we would like to say thank you for your consideration and past support.

Also we would like to welcome Gary and Buck Ward of Wards Flying W Angus. They have consigned a very nice group of bulls sired mostly by Connealy Black Granite and Hilltop True Grit. Gary and Buck have a great set of solid foundation cows and their bulls have fit in perfectly.

Most of the bulls selling this year have been 50k genetically tested. We believe strongly in the future of Genomic testing and believe that it is a great benefit to our customers. Bulls that have been tested and sell with Genomic enhanced epds have much greater accuracy and more reliable epds. We have decided that we won't buy a bull that has not been Genomically tested and therefore we feel it is even more important to test the bulls we are selling.

Thank you again for your consideration and support. The bulls will be able to be viewed the weekend before the sale at the Lewistown Livestock Pavilion. Please stop by Monday evening and join us for dinner and refreshments.

The Poser Family

**“Concentrating on Basics  
for Commercial Cattlemen”**

Fellow cattlemen and cattlemen,

Welcome to the annual Hilltop production sale. It is with great appreciation to the Poser family for inviting us to be a part of this event.

In 1936, the Ward brothers started raising Angus cattle. To our knowledge, it is one of the oldest existing herds in Montana. Our philosophy has always been to breed trouble free cattle with longevity. Calving ease, along with all the traits has been most important to us, with the female being the focus of our program. The top 40% of our bulls were selected for the sale.

Our home base is Gallatin Gateway, Montana, but we are not strangers to central Montana. We ranched at Grass Range in the early 80's and production sales in Lewistown and Miles City, as well as Rupert, Idaho, with Bryngelson Angus.

We stand behind the bulls 100% and hope to see you on sale day.

Gary Ward & Buck Ward

## **Bids**

Bids can be phoned in to our publication representatives or auctioneer.

## **Terms and Conditions**

All registered cattle sell fully guaranteed under the standard terms and conditions of the American Angus Association. Announcements Sale Day take precedence over all printed material.

## **Volume Discount**

5% off on any bull purchase of 3 or more. 10% off any bull purchase of 5 or more.

## **Delivery**

Free delivery of bulls within 300 miles, beyond at cost. \$100 discount per load picked up sale day.

## **HD 50K**

Several bulls carry HD 50K enhanced EPDs as noted with the 50K logo. See pages 2 and 3 for further information.

## **Retained Interest**

We reserve the right to retain 1/3 semen interest in any bull selling in the sale.

## **Inspection of Cattle**

All cattle can be inspected at any time prior to the sale at Midland Bull Test Feedlot in Columbus, MT or the day before the sale at the Livestock Pavilion.

## **Health**

All cattle are vaccinated with or for: 8-Way, Blackleg, IBR, PI3, BVD, treated for grubs. Fertility tested, scrotal measured and carcass ultrasound measured.

## **First Year Breeding Guarantee**

The bull mortality and loss of use insurance which we offered in years past is no longer available. For this reason, we are now offering a first year breeding guarantee. We hope this breeding guarantee is a suitable replacement.

All bulls selling for \$2000 or more will be covered 50% by Hilltop Angus Ranch if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull will be given as credit in a future sale or towards a replacement bull if one is available. Salvage value, if any, will be split equally between Hilltop Angus Ranch and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2015.

## **Northern Livestock Video Auction**

If you are unable to attend the Hilltop Angus Sale, it will be broadcast live at [www.cattleUSA.com](http://www.cattleUSA.com).

Northern Livestock Video Auction will be carrying the sale live on the internet at [www.cattleUSA.com](http://www.cattleUSA.com). You need to contact Northern Livestock Video at 1-866-616-5035 to preregister. You can then bid live on the phone at 406-245-0889 through Northern Livestock during the auction or via the internet on [www.cattleusa.com](http://www.cattleusa.com).

*Pre-register and for Additional Information Call:* Cory Poser at 406-366-3461 or Northern Livestock Video at 866-616-5035.

To view online catalog and pre-sale video of the bulls, go to [www.northernlivestockvideo.com](http://www.northernlivestockvideo.com) and click on the Hilltop Angus Sale.

# Better Bull Buying - GE-EPDs & Percent Ranks Powered by HD50K

The more cow-calf producers know about the bulls they buy, the more they can take advantage of the genetic forces - selection and mating - that drive the productivity and value of each calf-crop. With genomic-enhanced expected progeny differences (GE-EPDs) and percent ranks powered by High-Density (HD) 50K from Zoetis, commercial users can unlock the power of these forces like never before.

## The value of HD 50K

HD 50K for Angus includes genetic predictions in the form of percent ranks for 19 traits plus parentage verification. For most of these traits, Angus Genetics, Inc. (AGI), computes and reports weekly GE-EPDs powered by HD 50K, which are the most accurate genetic predictions possible for young bulls with limited or no progeny. The resulting EPD accuracy is generally equivalent to tested bulls having an initial progeny proof of roughly a dozen calves carcasses/daughters with performance data contributing to their EPDs (ranges from six to 22 progeny, depending upon the trait - Table 1). Increasingly, Angus bull buyers are demanding tested bulls (Figure 1).

## HD 50K percent ranks, interpretation for non-GE-EPD traits

HD 50K percent ranks from Zoetis are currently based on a reference population of nearly 40,000 tested Angus animals. Ranks range from 1 to 100, with lower numbers generally favored for most traits (Table 1). Some traits for which HD50K percent ranks are available do not yet have GE-EPDs. These include ranks for residual feed intake (RFI) and end-product tenderness (Tend).

Percent ranks for RFI provide Angus bull buyers with added feed efficiency information, while ranks for Tend explain approximately one-fourth of the genetic differences in this component of eating satisfaction.<sup>1</sup>

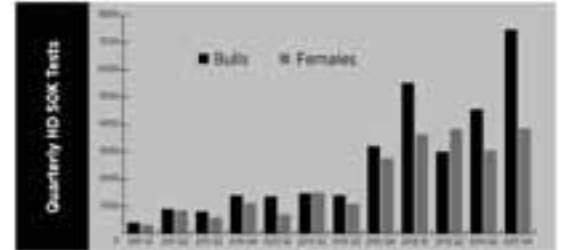

## Selection - Better bull buying for specific purposes

Higher-accuracy GE-EPDs and more complete trait information from HD 50K percent ranks help Angus bull buyers more dependably select bulls for specific purposes, including:

- **Heifer bulls** - GE-EPDs for calving ease direct (CED) and birth weight (BW) have accuracies roughly equivalent to bulls with 22 and 12 progeny, respectively, with calving ease and birth weight data recorded (Table 1).
- **Growth/carcass bulls** - GE-EPDs for growth (WW & YW), feed efficiency (RADG) and carcass merit (CW, Marb, RE, Fat) have accuracies that are basically equal to bulls having 21, 17 and 10 progeny/carcasses, respectively, with performance data recorded (average of trait groupings from Table 1).
- **Maternal bulls for making replacements** - GE-EPDs for scrotal circumference (SC), docility (Doc), milk and mature size (YH and MW) deliver the rough equivalent accuracy of bulls having 12 daughters with performance/productivity information recorded for these traits (average of trait groupings from Table 1). Percent ranks from HD 50K for heifer pregnancy (HP) and calving ease maternal (CEM) provide information for these important maternal traits.
- **All-purpose bulls** - Across all applicable traits, GE-EPDs powered by HD50K have accuracies that are approximately equal to bulls with a dozen progeny/carcasses/daughters with recorded performance (average of all traits in Table 1)

### GE-EPDs powered by HD 50K for Angus

Figure 1. Quarterly GE-EPDs powered by HD 50K for Angus tests by sex distributed by AGI.

## Mating

Besides selection, mating is the other genetic force that drives production. More accurately evaluated bulls may be more strategically matched with sets of females to accentuate strengths and correct weaknesses - creating more valuable progeny, carcasses and replacements. This is especially true if commercial Angus females are tested with GeneMaxT~ and genetic information, and assigned Angus sires are used for selection and mating (see www.genomexchange.com).

As well, HD 50K-verified parentage improves the accuracy of EPDs and the precision with which commercial producers can minimize inbreeding. It also reliably documents relationships to tested sires and dams that are proven to be free of known genetic conditions.

## Summary

Angus bulls with more accurate and complete GE-EPDs powered by HD 50K from Zoetis can more dependably be selected and matched with females for specific purposes to produce progeny with increased productivity.

## GE-EPDs powered by HD 50K for Angus, cont.

Table 1. GE-EPDs powered by HD 50K for Angus — Impact on EPDs, accuracy values, associated progeny equivalents and interpretation of percent ranks.

Trait	Correlation (%GV) for GE-EPDs <sup>a</sup>	Average accuracy <sup>a</sup>	Progeny equivalents <sup>a</sup>	Percent rank interpretation
CED	63 (40)	.32	22	Lower number, easier calving
BW	66 (44)	.36	12	Lower number, lower BW
WW	58 (31)	.29	19	Lower number, heavier WW
YW	67 (45)	.33	23	Lower number, heavier YW
DMS (RADG)	73 (53)	.36	17	Lower number, higher RADG
RFI	NA	NA	NA	Lower number, more efficient
YH	73 (53)	.37	10	Lower number, taller YH
SC	77 (59)	.40	13	Lower number, larger SC
Doc	65 (40)	.29	9	Lower number, calmer Doc
HP	49 (24)	.36	12	Lower number, higher HP
CEM	NA	NA	NA	Lower number, easier calving
Milk	38 (14)	.20	15	Lower number, more milk
MW	71 (50)	.36	14	Lower number, heavier MW
MH	NA	NA	NA	Lower number, taller MH
CW	58 (34)	.21	6	Lower number, heavier CW
Marb	66 (44)	.32	9	Lower number, more Marb
RE	68 (46)	.29	11	Lower number, larger RE
Fat	64 (41)	.31	12	Lower number, less fat
Tend	NA	NA	NA	Lower number, more tender

NA (Not Available) designates that either an EPD is not available for the trait (RFI, Tend) or that HD 50K information for the trait is not yet directly integrated into the EPD (CEM, MH).

• A Solid Foundation You Can Build On! •

Connealy Black Granite is a proven calving ease sire that is very popular because of his ability to sire light calves that grow well above average and have extra muscle and big thick tops. Granite is also one of the top sires for carcass in the breed. Few bulls can match Granite's ability to sire calving ease, growth, and carcass.

Open Range was the 2nd top selling bull in a past sale to Accelerated Genetics and Hart Farms. He posted outstanding individual performance with an actual Birth weight of 72#, a nursing ratio of 112, Yearling ratio of 114 and urea ratio of 114. Open Range is a smooth made and very complete bull with a unique calving ease pedigree that combines the performance of Identity and the Maternal traits of Alliance. Dam has 4@97 bw and 4@109 ww.

Open Range sired an outstanding first calf crop. His sons were the most sought after sire group in the 2015 Hart sale including sons selling for \$15000.00 and \$14000.00.

Hilltop Angus Ranch

Concentrating  
on Basics  
for  
Commercial  
Cattlemen

Welcome to the annual Hilltop Angus Ranch bull sale. Perhaps no other seedstock program has made as much progress in the last decade as the Hilltop program. Taking a solid cowherd, and by purchasing bulls and using AI sires that complimented the females already in place they have thrust themselves into the upper echelon of Angus breeders. It sounds simple enough, just select some really good bulls! But To find the right bulls to move your operation in the best possible direction, isn't as easy as it sounds. It takes a lot of time studying and evaluating progeny and most of all the ability to listen to your customers and implement their needs with your beliefs. What sets the great breeders apart from the good breeders is their passion to raise the very best cattle possible. You can read all the AI sire catalogs, study your friends and colleagues bull sale books and you will receive more advice than you can digest but in the end a cowman must evaluate all that goes into being a seedstock producer and make breeding decisions that are best for his cowherd and his customers.

Hilltop continues to work with AI sire companies and progressive breeders to keep their program in the forefront of Angus genetics. Gary and Cory are far too modest to come right out and tell you how proud they are of this offering and that this is probably the best set of bulls they have ever raised. To those of us that have watched this program over the years it's not surprising to see the progress they have made. When your program is on the right track and I believe Hilltop Angus is, it is easy to see, that the females they've been creating become the core of their cow herd and allows them to raise high quality bulls year after year. If you have any question about the Hilltop Angus sale please don't hesitate to call.

Confidence 3006 was our selection of the 2014 Arntzen sale. 3006 is exceeding our expectations.

He is good footed, big boned, and powerfully made. 3006 will play a major part in our breeding program in the future.

A solid foundation you can build on.

# BLACK GRANITE

Black Granite sits on top of the breed with curve bending Birth to Yearling EPDs. He has a \$B over 100 and a flawless phenotype.

This is a bull you can use to build a rock solid foundation.
