Terms - Cash

All cattle will sell under the current terms and conditions of the American Angus Association.

Liability

All persons who attend the sale do so at their own risk. Hinman Angus LLC, Dave & Yvonne Hinman, William & Heidi Luloff assume no liability, legal or otherwise, for any accidents which may occur.

Trucking

Free delivery on bulls to CENTRAL POINTS (stockyards, etc) within 1000 miles, or the nearest Canadian border, on purchases of \$3000 or more. We will refund \$50 per bull on any bulls picked up sale day or within the next two days after the sale.

Bids

Sight unseen satisfaction guarantee. Call Dave or Billy prior to sale day to discuss your requirements; that will help us purchase the bulls you need.

Volume Discount

A 10% discount will be given on 10 or more bulls purchased by, transferred and delivered to one buyer.

Sale Order

Fall Bulls will sell first, followed by Lot 1 and the remaining bulls in catalog order.

EPDs

EPDs current as of February 20, 2015. Updated EPDs at www.angus.org

Bulls Born After March 26, 2014

Yearling information on younger bulls will be available sale day.

Marketing Alternatives

Hinman Angus is in contact with several feedlots, order buyers and marketing consultants in order to create innovative marketing opportunities for our customers. Contact us for details.

Cattle Available For Viewing

The cattle are fed at Hould Feedlot south of Malta and can be seen there anytime until the weekend before the sale when they are moved to the ranch.

Calving Ease Explanation

- ☉ - Recommended for Cows
- ☉☉ - Moderate Calving Ease, recommended for use mostly on cows
- ☉☉☉ - Superior Calving ease, should work well with most heifers
- ☉☉☉☉ - Excellent calving ease, use on first calf heifers

Retained Interest

Hinman Angus is retaining 1/3 semen revenue-sharing interest in each individual bull in the sale, unless otherwise announced from the block. Natural use and salvage value belong to the buyer.

Herd Health

We have an excellent whole herd health program with the help of Dr. Rick Levesque. All bulls have been tested for BVD and have had 2 shots of Fusogard.

First Year Loss of Use & Mortality Insurance

Hinman Angus is offering to pay 1/2 the cost of a full year policy covering mortality and loss of use on the bulls. The total cost of the coverage is 10% of the purchase price to be split between Hinman Angus and the buyer. Request for insurance must be made sale day to be eligible. We think this is a very fair and complete coverage and it will be the only loss of use breeding guarantee offered by Hinman Angus. (see page 4 for more details)

AM, NH, CA, M1 and DD Guarantee

All sale bulls are pedigree free or have been tested free of these defects except for Lot 13.

Fertility & Ultrasound

Bulls were semen evaluated and scrotal measured by Dr. Roger Baxter, and Dr. Brock Aiton, DVMS on February 23 and scanned by Dr. Maureen Deitz, DVM on February 9.

Dear Friends,

We, like you, have to be very excited about the cattle market that we have seen in 2014 and 2015. We appreciate the calls that we have had about your calf sales and it would put a smile on anyone's face. We are very excited to be a little part of our customers' success. With the cattle numbers where they are, we should see a strong market for some time.

All of us at HA feel very good about this year's bulls. There are several new sire groups along with the proven ones from past sales. This year's selection offers strong herd bull prospects, along with high performance sire groups that are large enough for you to get consistency in performance and kind. We work very hard on selecting only the bulls that pass all the stringent hoops of performance testing, with top results, in the sale! If we do our job right, yours becomes easier.

We are pleased to have Ron Frye working with us and look forward to some innovative ways of helping to market customers' calves as the year unfolds.

We are very appreciative of the terrific job Bruce and Linda Hould and their crew do at their bull development center. Bruce takes extra care and pride in feeding the bulls to their potential, without going too strong, to insure there is enough condition on the bulls to breed well and yet to stay sound for many years of production.

As always, we sincerely appreciate your support of our program. As we travel around different areas and see progeny of our bulls, it is exciting to see they are working well in the many different environments. If we can be of help for any reason, please don't hesitate to call. Yvonne always has the coffee pot on, and with a little a notice she usually has some baked goodies.

Sincerely,

Dave & Yvonne
Billy & Heidi

Dave and Yvonne

Ty, Heidi, Tessa, Billy

Bull Mortality and Loss of Use Insurance

NEW! Lower Premium Rate - 10% of Purchase Price

Hinman Angus will pay 5% of the premium and the buyer will be responsible for the remaining 5%. That amount will be added to the cost of your bull(s) upon settlement on April 7, 2015 if this insurance is purchased. This is the only insurance that will be offered on the bulls.

RON FRYE MARKETING

406-600-7514 | Livestock Marketing and Consulting

Welcome to the annual Hinman Angus sale. I believe this is one of the finest offerings this reputation Angus family has ever offered. Decades of breeding cattle has its advantages, in Dave's case it has allowed for greater perspective, how to best serve the commercial cattle industry in an ever changing environment. It's my opinion that is when he decided that balance trait cattle allow you, the commercial cattlemen, the greatest opportunity to succeed. A live calf, pounds at weaning and uniformity has been the foundation in which the Hinman Angus cow herd has used to produce quality bulls for decades. Hinman Angus has always had an eye on carcass traits, but understood it could not sacrifice any one of the three traits above just to chase fads. As you look through this year's offering you'll see that they are able to address all critical traits because long ago they laid that foundation that allows this to come to fruition.

A very astute breeder recently commented on his trip a year ago to look through the offering for that year's sale "You can tell he's a cowman. The first bull looks like the last one. Same kind, same style straight through". Well stated I thought.

All good operations have their checks and balances, of course Dave has Yvonne to keep all the office work straight and Billy to make sure he sees the cattle right. The latter has become an excellent cowman in his own right, with a hands on commitment to the operation and a no nonsense approach to what a productive Angus cow should be. Rest assured you're in good hands. If I can answer any questions about Hinman Angus and the upcoming sale please feel free to contact me.

Ron Frye
406-600-7514

The Cash Is Always Greener

Each year, beef producers earn up to \$50 million in grid premiums for cattle that meet the *Certified Angus Beef*™ brand specifications.

To learn more about how you can cash in on some extra green, visit www.CABpartners.com.

Paul Dykstra is a native of the western slope and eastern plains of Colorado where he was raised in both commercial cow/calf and feedlot areas. Prior to his current role he was the Feedlot Manager for the U.S. Meat Animal Research Center at Clay Center, Nebraska. Paul has worked in Supply Development with Certified Angus Beef LLC for the past 12 years and has responsibility for the north-central and western states of the U.S. His role is centered around helping cattle feeders and ranchers to better meet the demands of the marketplace by breeding and managing Angus cattle to their highest potential to further the supply of the *Certified Angus Beef*® brand. Paul resides in Chappell, Nebraska.

Please join us Monday afternoon to preview the bulls.

At 5:00 pm Paul will discuss the current trends in the beef industry and strategies ranchers can use to remain competitive.

Dinner will follow Paul's talk, approximately 6:00 pm

Owned by Hinman Angus, Rollin' Rock, Bodner Angus, Boylan Angus, Witte Angus. Leased to ABS.

Image Maker has been a standout from day one. He was the high selling bull in the 2001 Performance Breeders Bull Sale; his EPDs were BW +2.8, WW +34, Milk 28, YW 54. Since that time his progeny have excelled him to his present numbers with high accuracy as one of the best spread bulls in the industry.

Image Maker has been used very successfully in large heifer projects all across the county. He sires extra length of body, with heavy weaning weights and extra feedlot growth along with outstanding daughters that have exceptional fertility with good udders and are very easy to be around.

0415 is homozygous for tenderness markers and homozygous SNP 530, an additional indicator of tenderness. 0415 is among the top 1% of the bulls in the breed for WW. Image Maker daughters are truly foundation females that have the unique ability to work with a wide variety of pedigrees.

Image Maker sons have also been used in many herds across the country with the same consistent results as their sire.

0415 is in the top 1% for \$W index. As you go through the catalog, you will notice many Image Maker daughters who, with their steady production of superior progeny, have made a major impact on our cowherd.

Image Maker died at home on the ranch in June 2013. His tremendous influence will live on for many generations at HA, as well as on farms and ranches, in both registered and commercial herds across our great country. He truly is **A Bull that will Keep You in the Cow Business!**

Owned by Hal & Lois Schudel, Hinman Angus, Austin Angus, Bakers LeMar Angus Ranch, SoDak Angus Ranch and ABS

Program was the high selling bull in the Performance Breeders 2006 sale, going to Hal & Lois Schudel, OR. Program is a unique spread bull that excels in all areas of production, maternal and end product traits.

Program calves have heavy weaning weights along with explosive feedlot growth. Program daughters have nearly perfect udders, with small teats and excellent front attachment, along with outstanding fertility. His daughters look like they will have very high longevity traits. They also are very good mothers with good dispositions.

Program continues to leave his mark at HA by siring sons and daughters that are very balanced trait cattle excelling in all aspects of production.

Semen Available

We have semen for sale on most of our bulls. Please call either Dave or Billy to inquire about it.

Sirloin was the high selling bull in the Vermilion 2012 spring sale.

Sirloin sires moderate birth weights with very good growth traits.

Sirloin progeny show awesome carcass potential.

Sirloin daughters should make very good cows.

Sirloin is a well balanced bull that we will use heavily at HA.

Sons sell as Lots: 71, 72, 73, 112, 113, 114, 115, 116, 173

7229 has sired many sale toppers all across the country. 7229 progeny exhibit a great deal of natural thickness along with calving ease and excellent performance at both weaning and yearling. Balanced trait bull that fits our program.

7229 daughters have near perfect udders, great dispositions and show wonderful mothering ability.

Sons sell as Lots: 98, 99, 100, 101, 144, 145, 168

Owned by Hinman Angus, Vermilion Ranch

Xtra X was our pick of the 2011 spring Vermilion sale. He showed that eye-catching look and he is passing on that smooth, long, shapely kind. X is siring big ribeye, high performance sons, that in turn will sire calves that will push the scale down and then have excellent feedlot performance and quality end product. We will use Xtra X heavily at HA.

The Xtra X first daughters have awesome udders with a lot of milk and look to be very good cows.

We will lead off this sire group of high performance Bismarck sons with HA Force 4730. Force has been an overwhelmingly high performance bull from birth to yearling. He is in the top one percent of the breed in five traits, WW, YW, RADG, \$W, and \$F. He is generations deep in high producing good cows. His carcass scores are excellent. He has a weight per day of age of 3.7. Force 4730 is a balanced trait bull that has excelled in all areas of production. Low birth, high growth at its best.

We will lead off the Blackjack sons with the 4472 bull, which is one of our favorites. His dam is an outstanding Image Maker daughter in our flush program. She is a moderate framed cow with a perfect udder and near perfect structure. Heavy weaning heifer bull that will sire moderate framed females that will have the ability to last for many years of production.

We will lead off this strong set of Sirloin sons with HA Prime Cut 4493. He is a Sirloin son that we started liking early on last spring. Prime Cut 4493 is one of those unique bulls that combines every trait in near perfect balance. Low birth weight, heavy weaning, high gain, outstanding carcass merit, along with a fabulous cow family. Starting with the 1250 cow and going back two more generations, they have all been in our flush program. Prime Cut is a deep sided, high volume bull combining feedlot gain and moderate frame size in as complete a package as any bull we have ever produced. As you can tell, we really like this bull and he will be used on both heifers and cows at HA.

Another very high performance Sirloin son with outstanding carcass traits and high dollar value. Balanced trait heifer bull with high growth traits.

Vermilion-Sirloin

Why So Much Emphasis On Bulls?

Bulls have the greatest economic impact on any breeding program, thus bull selection is among the most important decisions and investments a cowman will make during the course of the year.

Scientists have long postulated that over 80% of the improvement in a herd over time is directly attributed to bull selection.

High performing, moderate birth cow bull.

H-A-Blackcap-Lady-1055

1055 is what I call a real cowboy's cow! She is 14 years old and is still producing. 1055 is a moderate framed cow with perfect feet, high volume, along with a near perfect udder. We have had over 100 calves from this cow over the years, and her sons sire low birth, along with very good growth. All of the 1055 sons are the thick made, big butted type. 1055 sons are the kind you see in the pasture three years from now and you will really like their look. 1055 daughters make excellent cows. 1055 has sons working in top registered and commercial herds, all across the country. She has had our top selling bull twice: HA Relentless 1564 and HA Blackjack 2312.

This year's bulls are a very strong set that show consistency in kind across the different sire groups. 1055 sons selling are the following, in sire groups:

SAV Pioneer 7301 - Lot: 46.

SAV Thunderbird 9061 - Lots: 43, 44, 70, 176.

Sitz Wisdom 481T - Lots: 40, 41, 42, 74, 167.

SAV Mustang 9134 - Lots: 45, 76, 77, 78, 80, 172.

SAV Bismarck 5682 - Lots: 47, 48, 66, 79, 120, 121.

Connealy Consensus 7229 - Lots: 71, 72, 73, 112, 113, 114, 115, 116, 173.

PAPA-Forte-1921

High performance cow bull with very strong carcass traits. This is our first group of Open Country calves and we really like them. They all show excellent length of body with lots of substance.

Another big ribeye, low birth 1055 son that does everything well.

Flush Brothers

Lots 76, 77, 78, 79, 80

Lots 76, 77, 78, 79, 80 are all 1055 sons with plus 14 CED, for calving ease at its best. They also all show big ribeye areas. Heavy muscled heifer bulls that hold together is what it is all about.

Solid performance with moderate birth.

Flush Brothers

Lots 112, 113, 114, 115, 116, 173

Balanced trait heifer bulls that do everything well!
This flush of 7229 sons are nice patterned, clean made,
balance trait, moderate frame good bulls.
They all show very strong carcass marks.

Coverage Summary of Bull Mortality and Loss of Use Insurance Coverage

Hinman Angus has arranged for PayneWest Insurance Agency to make available Mortality/Loss of Use Coverage for Hinman Angus bulls sold in the April 7, 2015 sale.

The Value of the bull is considered to be the Purchase Price as listed on the Date of Sale.

We will reimburse as follows:

- Full Mortality: 100% of the Value of the bull(s) in the event of) in the event of death or life-threatening injury;
- Loss of Use: 80% of the Value of the bull(s) in the event of Loss of Use from Accident, Injury, or Disease from an identifiable cause;
- Loss of Use: 25% of the Value of the bull(s) in the event of Loss of Use from Accident, Injury, or Disease with no known cause;

The coverage provides traditional, full mortality for death from natural causes and accidental causes including life-threatening injuries. The coverage includes Loss of Use for claims made during the policy term.

The coverage is available on the Date of Sale for those who choose to insure their bull(s). The policy will insure the bull(s) from the Date of Sale for a period of One Year. All claims made to the Company require a Veterinarian's certified examination of the animal(s) for which the claim is made. Under the Loss of Use extension of coverage, the animal's inability to naturally service cows must be diagnosed by a Veterinarian, and immediately reported to the Company. A Loss – as defined by the policy – shall occur if after the date of diagnosis and first report, the bull cannot breed due to accident, injury, illness, or disease. Loss of Use claims will be settled as above.

All this is an abbreviated summation of the actual policy terms and conditions. Please read the entire policy to know how coverage applies.

The cost of the coverage is 5% of the Purchase Price for Mortality with Loss of Use. That amount will be added to the cost of your bull(s) at settlement on the Date of Sale if this insurance is purchased. Hinman Angus is paying the other half of the premium to encourage the buyer to purchase the insurance policy.

Salvage value – if any – belongs to the OWNER of the bull.

**IT'S CLOSING TIME FOR
REPRODUCTIVE DISEASES.**

Express® FP is one of the only MLV vaccines specifically designed for cowherd protection against reproductive diseases. Express FP vaccines for the breeding herd were introduced to the market with, and today are still backed by, a written guarantee.

Confidence is available in one complete, convenient vaccine. A healthy herd means healthier cows and calves, and that means more opportunity for growth for you.

Express FP — Ask your veterinarian or local Boehringer Ingelheim Vetmedica, Inc. representative for more information. Call 1-800-325-9167 or visit bi-vetmedica.com.

*Thanks Harvey & Pam for being part of our sale
for about 25 years! We will miss you!!*

Pam sent this note to us earlier this year –

To the Hinman family –

Here's wishing you all the best for your
2015 sale; unfortunately we won't be able
to attend this year. Harvey has Alzheimer's
so we are cutting back on our travels.

Harvey is having fun with more time to
sculpt and visit when old friends stop by.

We hope to see you
again soon,
Happy Trails,
Pam & Harvey

Owned by Hinman Angus and KG Ranch

High Regard was the high selling bull in the 2013 KG Ranch bull sale. High Regard shows extreme length of body, while maintaining structural soundness, as good as any bull I have seen. We used High Regard on heifers with very good results. Moderate birth with high growth and structural soundness is a good combination to work with. We used High Regard on heifers and cows in both of the spring and fall groups and should have 80+ calves in 2015. We are encouraged by the things we have seen on High Regard and are anxiously awaiting the information on his first calf crop.

Thanks from all of us to all of you!

Once again, our sincere thanks to all of our friends and customers, family members and good neighbors, and all the businesses that support us, each in their own way, so we can continue raising Angus cattle!

Dave & Yvonne

Billy & Heidi
