Dave & Maureen Cote, owners

P.O. Box 215 • Wolf Creek, MT 59648
oxbow@3riversdbs.net

Dear Friends,

It is a pleasure to welcome you to the Annual Ox Bow Ranch Bull Sale. Although last year was my first year to be a part of the sale, helping my customers select genetics for their programs, I can say with confidence that the bulls I purchased for my customers performed to my expectations, in harsh desert environments. I will continue to breed for a core cowherd of females that are moderate, reproductively efficient, good-uddered, with shape and eye appeal that can exceed expectations when these genetics are put to the test for you.

This year after we finished breeding, the cows were turned out in the foothills and drainages with our cover bulls for the first cycle and then they were trailed up the mountain at the end of May. The bull calves were weaned the first of September and the cows were pushed back into the mountains. We put them back as far as possible and let them graze home by the end of October. From November until mid-January the cows were then grazed out on winter pasture in the foothills and flats on the ranch. This is the type of grazing regimen and country that allows us to truly test our cattle to see which ones will hold up and travel to feed and water all the while still excelling at raising a calf.

This past fall, we held our bi-annual mature cowherd dispersal. Today, when writing this letter, I received a call from Cory Poser of Hilltop Angus telling me that we were crazy to sell this female and that he is very pleased with his future donor cow. We are excited for Cory and to see the impact of this donor on his program. I feel that we have a group of young cows that will be able to perform and excel in this rugged environment. Along with producing the level of bulls that we will be selling this year.

The bulls are being developed on a ration that allows us to see their performance yet let them grow out on a balanced growth curve that doesn't hinder their feet or structural soundness. Our Lot 1 bull is a true example of this. This is a bull who has excellent performance in a moderate framed package, out of a very attractive, long, smooth made, good-footed, and good-uddered female.

Once again, the sale will be broadcast on Northern Livestock Video. The bulls can be viewed on Northern Livestock Video, or any time prior to the sale at the ranch. We invite you to stop by and look through the bulls as well as the females to see our program. This year, John Andras will be assisting me with the marketing of the bulls. If John or I can answer any questions, please feel free to give us a call. We look forward to hearing from you and seeing you at the sale Wednesday, March 6th at the ranch!

Best Regards,

Marc Orem

BID LIVE ON THE PHONE ON NLVA

Be sure to register before sale day to bid.

**If you are unable to attend the Ox Bow Sale,
it will be broadcast live at www.cattleUSA.com**

Northern Livestock Video Auction will be carrying the sale live on the internet at www.cattleUSA.com

You need to contact Northern Livestock Video at **1-866-616-5035**. You can then bid live on the phone through Northern Livestock during the auction.

To view online catalog, pre-sale video and supplement sheets on sale order, weights and scrotals, go to

www.northernlivestockvideo.com

and click on the Ox Bow Sale.

Sale Location: Paved road to the sale site! The sale site is conveniently located at Ox Bow Ranch's Sentinel Rock Ranch just off I-15 at Wolf Creek then 2 miles east on Holter Lake Frontage Road. See map below.

Terms and Conditions: Cash. Cattle will sell under the Terms and conditions of the American Angus Association. No cattle will leave Ox Bow Ranch until paid for in full. No cattle will be loaded out until after the sale. All bulls with potential defect carrier pedigrees have been tested free.

Retained Ownership: Ox Bow Ranch is retaining 1/3 revenue sharing semen interest in all bulls. Full possession sells on all bulls.

Sight Unseen Purchases: Satisfaction guaranteed on all sight unseen purchases through the sale team.

Bids: Buyers unable to attend the sale may send or phone their bids to Marc Orem, John Andras field representatives or the auctioneer.

Fertility: All bulls were palpated, semen tested and scrotal measured by Dr. Clint Hilt.

Herd Health: All cattle have had a complete vaccination program prescribed by Dr. Clint Hilt. All bulls were vaccinated and received pour-on last fall. **All bulls have tested negative for persistent BVD infection.**

Delivery: Bulls will be delivered as soon as arrangements can be made. Please give delivery or pick up information at the end of sale. \$100 discount on bulls picked up sale day.

Performance Data: All performance data will be available sale day. This includes ultrasound, final weights and scrotal. Current EPDs can be viewed at www.angus.org

First Year Breeding Guarantee: Ox Bow Ranch will guarantee soundness for the first year, if any issue comes up, we will replace with an equal value bull if available or do what it takes to make it right. We stand behind our cattle!

Volume Discounts: We will offer volume discounts starting with 5 bulls at 5%, up to 10% on 10 bulls or more. Repeat customers: Repeat customers from the previous year will receive 2% discount on all bulls, this will also be added on to your volume discount if you purchase more than five bulls.

Liability: All persons attending this sale do so at their own risk and responsibility without liability on the part of the ranch owners or their employees.

Cattle Inspection: Cattle are available for inspection prior to the sale at Ox Bow Ranch's main ranch, 1 mile Northeast of Wolf Creek on Holter Lake Recreation Road then right on gravel 2.5 miles southeast. Cattle will arrive at the sale site on March 4.

Accommodations:

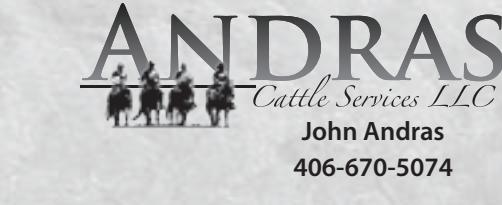

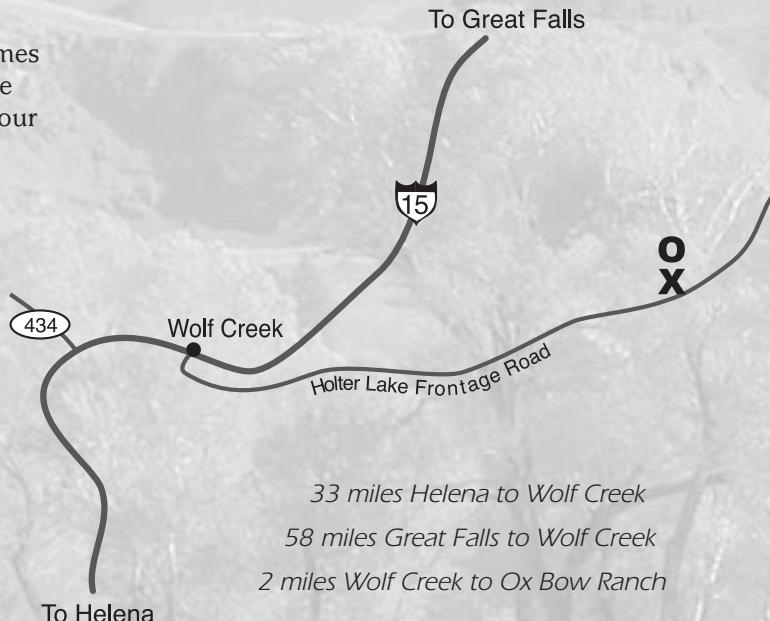

Numerous nice motels are available in Helena (35 miles south) & Great Falls (58 miles north)

Comfort Suites, Helena	406-495-0505
Holiday Inn Express, Helena	406-422-7500
Howard Johnson	406-422-2300
O'Haire Motor Inn, Great Falls	406-454-2141
Heritage Inn, Great Falls	406-761-1900

Both Helena and Great Falls are served by Delta, United Airlines and Alaska Airlines

Video of Cattle: Can be viewed at Northern Video. Target release date Mid February.

Conference Call: Bill Pelton will conduct a conference call during the sale to accept bids. Contact Ox Bow Ranch prior to sale day for your buyer number and other information.

Bulls designed to be more profitable!

American Angus Association \$Value Indexes

\$Values are multi-trait selection indexes expressed in dollars per head, to assist commercial beef producers by adding simplicity to genetic selection decisions. A \$Value has meaning only when used in comparison to the \$Value of another animal. For example, just as with EPDs, variation in \$Values between animals indicates average expected differences in the relative value of progeny if random mating is assumed and the calves are exposed to the same environment.

How do I use them?

\$Values should be used to complement the criteria that producers already use when selecting bulls.

The \$Values are not designed to be driven by a single trait, as an index is multi-trait by design. These selection tools are the result of the application of industry-relevant market values to Angus genetics for preweaning, feedlot, and carcass merit.

The \$W, \$F, \$G and \$B values on individual animals and the Sire Evaluation Report may be viewed at www.angus.org.

Calving Ease Direct (CED): expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers

Cow Energy Value (\$EN): an index expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

Weaned Calf Value (\$W): an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

Grid Value (\$G): an index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B): a terminal EPD that measures end product carcass value only. It calculates carcass value as a combination of \$F and \$G.
