

ANNUAL BULL SALE

December 8, 2016 • 1 pm

Paint Rock Angus Ranch • 1926 Hwy 31 • Hyattville, Wyoming

**Selling 80 Yearling Angus Bulls
and 25 Two-Year Old Bulls**

All bulls are P.A.P. Tested, Carcass Ultrasounded and are BVD Negative

From a cowherd that has been running from the badlands of Wyoming to the peaks of the Big Horns for over 65 years — providing a natural selection that few other registered herds can offer.

View Videos of the bulls at **PAINTROCKANGUS.COM**

To register with NLVA call 1-866-616-5035 BEFORE SALE DAY.

View the online catalog & videos of each bull selling at www.northernlivestockvideo.com

Guarantee:

All bulls will be covered 50% by Paint Rock Angus Ranch if they are injured during their first breeding season and unable to return to service during that first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. If a replacement bull is available, he will be provided, or if a buyer prefers credit towards a bull in the following year's sale, 50% of the value of the injured bull, minus one-half salvage value will be given as credit. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1st, 2017

Terms & Conditions:

All bulls guaranteed breeders!

This sale is being conducted under the suggested terms and conditions adopted by the American Angus Association effective March 16, 1992.

Herd Health:

All bulls have been fertility inspected by a licensed veterinarian. Bulls PAP testing 46 or under at any elevation will be guaranteed against brisket disease.

Vaccination program:

Spring: In Force, Vision 7, Pyramid 5+prsoponce & SolidBac Pinkeye

Fall: In Force, Vision 7 w/somnus, Titanium 5 PHM
& SolidBac Pinkeye

Cattle are available for inspection at the ranch Anytime!

Retained Interest:

Paint Rock Angus Ranch retains 1/3 revenue sharing interests in each bull selling. Buyer has 100% possession and 100% salvage value.

He is an early maturing bull with lots of muscle and thickness * Calves are easy fleshing and early maturing * Calves are wide and deep in the rib area * He is a know frame reducer. *

Welcome to Paint Rock Angus Ranch! We are grateful that you have taken the time to check out our 2016 fall sale offering! It excites us to see our customers and friends, new and old, using the proven Angus genetics of Paint Rock Angus. We feel that this year's selection will not disappoint!

As always we will have the data insert available sale day and online at www.paintrockangus.com. This year we decided to also use the Zoetis HD 50K testing on a handful of bulls. This data is listed in the back of the catalog, along with the Angus Associations explanation of how to interpret the data. You will know which bull was tested by the logo under their pedigree throughout the catalog. We hope that this data will make your selection of bulls for your use much easier!

Thanks once again to all of our friends, family and fellow cattlemen for all of your support over the years. Without you we would not be able to advertise that Paint Rock Angus has been in the Angus business for over the past 65 years!

Sincerely,
The Paint Rock Crew

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 7-24 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	24	Docility	11
Birth Weight	13	Heifer Pregnancy	22
Weaning Weight	19	Mature Weight	16
Yearling Weight	24	Mature Height	7
Milk	14	Carcass Weight	7
Yearling Height	12	Carcass Marbling	8
Yearling Scrotal	16	Carcass Ribeye	11
Dry Matter Intake	17	Carcass Fat	12

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD). These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

THE TRADITION

Some folks just don't get it.
They think owning cattle makes no sense.
It takes too much time, too much equipment,
not to mention the expense.

But the fondest memories of my life
- they might think sound funny -
were made possible by Mom and Dad,
'cause they spent the time and spent the money.

You see, the most important lessons
helping values grow so strong,
come from loving cattle
and passing that tradition on.

Paint Rock Angus
