GREETINGS RANCHERS,

We would like to invite everyone to our Annual RANGE CALVED-RANGE RAISED® Calving Ease Production Sale to be held on January 16, 2016.

We sincerely THANK YOU for your interest in and support of our program, it is very much appreciated.

The genetics behind this offering of bulls has been selected for generations to produce lighter birth weight, moderate framed cattle with excellent fleshing ability and muscling. They are designed to thrive in a total grass based range environment.

We think you will find them to be very consistent in their ability to transmit these genetics on to your herd for your increased profitability.

Northern Livestock Video will be broadcasting our sale via the internet at www.cattleusa.com. If weather or distance prohibit you from making it to Buffalo, contact Kendrick or Sharon Redland or Adam Redland and ask about our Guaranteed Bid Program. We offer 100% satisfaction guaranteed for cattle purchased sight unseen if you contact us to assist you with your purchase.

You can see more about what we are doing by "Liking" us on Face Book or going to our web site at www.redlandangus.com. You can view video of each lot selling by going to Northern Livestock Video Auction / Production Sales.

We appreciate you taking the time to look over our program and we welcome your phone calls and questions and look forward to visiting with you. We invite you to join us for lunch starting at 11:00 am on sale day, January 16, 2016.

May God be Blessing the Work of your Hands

Kendrick & Sharon Redland

GUARANTEE

All bulls selling for \$2,000 or more will be covered 50% by **Redland Black Angus** if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between **Redland Black Angus** and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2016.

Example 1: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus one-half any salvage value will be given to the buyer.

Example 2: A \$2,000 bull is injured and will not heal. A credit of \$1,000 minus one-half of any salvage value will be given to the buyer.

Example 3: A \$1,750 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

This is not a mortality policy. Mortality coverage can be purchased sale day.

No machine can begin to compete in efficiency or cost of operation with a grazing cow.

Emblazon makes great range cows that raise big calves.

Calving Ease Bulls Raised the Commercial Man's Way

Coming 3 year old on Winter Range.

A Ranch's Profit Starts With A Live Calf

Cows with time tested proven genetics don't need big feed piles.

Following the same philosophy of the summer calving Range Calved - Range Raised® program. All spring cows calve out on their own with a focus on lighter birthweight genetics. They are bred to sire progeny that survive and thrive on native forage and practical management to increase your profitability and lower your production costs.

COST EFFICIENCY = PROFITABILITY

For a commercial operation to generate a high level of cost efficient production, it must have a cow herd which will cope with fluctuating nutritional conditions and still be productive without requiring high levels of supplemental feeding. A low maintenance, productive cow herd that can efficiently utilize available resources is the key. This is a function of body type and not EPD's or other numbers.

All cattle do well when fed grain as it is an environment providing a constant level of ideal nutrition. Not all cattle do well in a grass-based environment with fluctuating levels of nutrition. Any stand alone commercial breeding operation targeting maximum sustainable net profit is virtually a total grass based production system. At Redland Angus we are raising our cattle in the same method most of our commercial customers do and have found that only generations of cows bred to meet these requirements stand the test.

A commercial producers net profit is tied to their herds ability to efficiently utilize what grass is available throughout the year. The same is true for us and the cattle we produce and offer for sale.

What it's all about. Fertile, moderate framed low input cows raising big calves.

Calves pictured at 5 months of age.

TRIED AND TRUE GENETICS THAT MADE THE ANGUS COW FAMOUS ON THE WESTERN RANGE.

THE ANGUS FEMALE IS THE HEART OF OUR PROGRAM

These high capacity, deep-bodied, easy-fleshing females have been raised and sorted on native range and have answered the challenge of being cost efficient producers. In an entirely forage based program, they have raised heavy calves, stayed in condition and bred back early with low input costs and minimal labor.
