## SITZ GENETIC INFLUENCE COMMERCIAL *Female Sale*

December 19, 2016 | Noon (MST)  
Beaverhead Livestock, Dillon MT

1800+ SITZ BRED HEIFERS

Sorted by Calving Date, Sex and Uniformity  
AI bred to calve January, February, March and April

Broadcast On: DISH Channel 998  
[NorthernLivestockVideo.com](http://NorthernLivestockVideo.com)

# SITZ *Angus*

We would like to welcome you to the Annual SITZ Influence Bred Female Sale. We are offering a selection of heifers sourced from some of the top commercial operations in the Northwest, fulfilling our commitment to our customers and our desire to assist them in marketing their product. These heifers are the cream of the crop and are produced from well-known, reputable programs that have been long-time SITZ customers.

This sale will feature 1150 head that are AI bred to the service sires SITZ Sensation, SITZ Reinvested, and Raven Powerball; bulls that excel for calving ease, maternal traits, and have adequate growth and carcass ability. They have all been ultrasound pregnancy tested and will be rechecked safe in calf prior to the sale.

This sale will feature 1450 head of ultrasound sexed pregnancies sorted into similar calving dates. We feel this is one of the best services we can offer you. It takes years of breeding to raise a uniform calf crop, and achieving the desired sex will only excel your program that much quicker, not to mention, these heifers are more likely to breed back better next year than ones with a spread out calving season.

We will be selling 600 head of heifers bred to low birth weight SITZ Angus Ranch Bulls. These heifers will be sorted into tight calving windows.

If you believe in the old adage of "Buy Low, Sell High" then now is the time to buy females backed by a program. The females selling in this sale will be low-cost and will produce calves in higher markets.

We would like to thank all of our consigners for bringing such a great offering, and for being long time SITZ customers. Videos of each lot will be available on NorthernLivestockAuction.com or on our website SitzAngus.com. If you have any questions or there's anything that we can do to assist you with this offering, please do not hesitate to call.

Sincerely,

*The Sitz Family*

NORTHERN LIVESTOCK'S  
SALE DAY BID LINE:  
**1-406-245-0889**

### ATTENTION ALL INTERNET & PHONE BUYERS:

All internet and phone buyers must be pre-registered with Northern Livestock Video Auction and have a buyer number to bid on the phone or internet.

To register with NLVA call 866-616-5035 before sale day. View the online catalog and video of each lot selling at **www.NorthernLivestockVideo.com**.

Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

First time users must register as a viewer. Go to the **Live Auctions** tab, select the sale you are interested in and register as a buyer (only if you wish to buy), then click the **blue submit** button.

– Fill out the required contact and banking information then, click the **proceed** button. After you have been approved as a buyer, you will receive a conformation email.  
– On sale day, click the **green view** button to watch and bid. To place your bid click the green **bid now** button. The bid received by the auctioneer will be the amount showing in the price box in the bid console.

**High speed internet required for viewing & bidding**  
**Questions Call 1-866-616-5035**

### AUCTIONEER:

**SITZ ANGUS RANCH ANNUAL**  
**“GENETIC INFLUENCE COMMERCIAL BRED FEMALE SALE”**

**LOT 5                    Sitz Land and Cattle**

45 AI Bred Heifers  
All carrying Bull calves

\*Bred to: Sitz Sensation 693A  
\*Expected Calving Date: February 3, - 9, 2017  
\*Health/Vaccinations: These heifers have been brucellosis vaccinated with legible tattoos and have been vaccinated with Reprostar VL5 HB and poured with Dectomax. Three weeks prior to breeding, they were vaccinated with Bovishield Gold FP 5 VL5 HB, the most complete reproductive vaccine currently available. They have also received two vaccinations of Fusoguard for footrot protection and been given Long Range Dewormer.  
\*Comment: Excellent set of moderate framed Angus heifers purchased from a top notch 2nd generation commercial operation that has focused on maternal traits for decades. Multiple years of AI breeding with genetic selection for fault free cattle that excel in numerous traits on limited inputs. Produced from a desert cowherd that is well managed and grazes year around seldom seeing a hay stack. These heifers will be uniform, moderate, broody, easy fleshing, and possess an angular feminine look.  
\*Ultra-sounded by Dr. Chuck Gue and Dr. Ralph Miller and re-checked prior to the sale by Dr. Doug Reedy

**LOT 6                    Sitz Land and Cattle**

They have also received two vaccinations of Fusoguard for footrot protection and been given Long Range Dewormer.  
 \*Comment: An excellent set of heifers from a reputation ranch that is a long time Sitz Angus Customer. Bull purchases over the years has been between \$8000 and \$12000. These heifers are genetically programmed for carcass merit and maternal traits. The additional frame these females have will insure they produce a heavy calf. These are the Montana kind. Heifers were wintered out on grass and mineral until March 1  
 \*Ultra-sounded by Dr. Chuck Gue and Dr. Ralph Miller and re-checked prior to the sale by Dr. Doug Reedy

**LOT 24      Hank Higley**

54 AI Bred Heifers

\*Bred to: Raven Powerball 53  
 \*Expected Calving Date: February 7, 2017  
 \*Health/Vaccination: Bovisheild VL5 and Ultrabac 8. Poured with Ivermectin.  
 \*Comment: These heifers were purchased from a reputable ranch in Montana, one iron heifers that are moderate framed, uniform, big bodied heifers with the Angus look. The excellent bred up on these heifers speaks to the fertility that is genetically programmed within. If you're looking for low input females with disciplined frame look no further.  
 \*Ultra-sounded by Kolste Veterinary Service.

**LOT 25      Sitz Land and Cattle**

26 AI Bred Heifers  
All carrying Bull calves

\*Bred to: Sitz Sensation 693A  
 \*Expected Calving Date: February 17, - March 4, 2017)  
 \*Health/Vaccinations: These heifers have been brucellosis vaccinated with legible tattoos and have been vaccinated with Reprostar VL5 HB and poured with Dectomax. Three weeks prior to breeding, they were vaccinated with Bovishield Gold FP 5 VL5 HB, the most complete reproductive vaccine currently available. They have also received two vaccinations of Fusoguard for footrot protection and been given Long Range Dewormer.  
 \*Comment: Excellent set of moderate framed Angus heifers purchased from a top notch 2nd generation commercial operation that has focused on maternal traits for decades. Multiple years of AI breeding with genetic selection for fault free cattle that excel in numerous traits on limited inputs. Produced from a desert cowherd that is well managed and grazes year around seldom seeing a hay stack. These heifers will be uniform, moderate, broody, easy fleshing, and possess an angular feminine look.  
 \*Ultra-sounded by Dr. Chuck Gue and Dr. Ralph Miller and re-checked prior to the sale by Dr. Doug Reedy

\*Comment– COMPLETE HERD DISPERISON- Gentle, moderate framed, home raised heifers. All bulls purchased for the ranch have been exclusively registered Sitz Angus bulls for the last 20 years. AI breeding was introduced to the herd five years ago. Herd selection has been for growth, udder quality and docility. These heifers summered on high pasture in the Big Belt Mountains. Half of these heifers are AI daughters of KCF Bennett Absolute, Woodhill Foresight, Connealy Final Product, and Peterson Safeguard.  
\*Ultra-sounded by Dr. Katie Peters. Rechecked by Dr. Shane Moe prior to sale.

**LOT 58      Sitz Land and Cattle**

34 Head Bred Heifers

\*Bred to: Sitz Calving Ease Bulls  
\*Expected Calving Date: March 17-March 31 ,2017  
\*Health/Vaccinations: These heifers have been brucellosis vaccinated with legible tattoos and have been vaccinated with Reprostar VL5 HB and poured with Dectomax. Three weeks prior to breeding, they were vaccinated with Bovishield Gold FP 5 VL5 HB, the most complete reproductive vaccine currently available. They have also received two vaccinations of Fusoguard for footrot protection and been given Long Range Dewormer.  
\*Comment: Excellent set of moderate framed Angus heifers purchased from a top notch 2nd generation commercial operation that has focused on maternal traits for decades. Multiple years of AI breeding with genetic selection for fault free cattle that excel in numerous traits on limited inputs. Produced from a desert cowherd that is well managed and grazes year around seldom seeing a hay stack. These heifers will be uniform, moderate, broody, easy fleshing, and possess an angular feminine look  
\*Ultra-sound preg checked by Dr. Chuck Gue and Dr. Ralph Miller and re-checked prior to the sale by Dr. Doug Reedy

20 Bred Heifers

\*Bred to: Low birth weight Sitz bulls  
\*Expected Calving Date: March 24-April 7, 2017  
\*Health/Vaccination: They have been on the Vista vaccine program with an Ultrabac 8 and pour on October 10th.  
\*Comments: One iron set of black heifers that are moderate framed and will make a nice set of commercial cows. They have been developed on native grass and a consistent mineral program. These heifers will average approximately 1050 lbs on sale day.  
\*Ultra-sound preg tested by Dr. Will Oliver.

**LOT 65**

**Sitz Land and Cattle**

7 Head Bred Heifers

\*Bred to: Sitz Calving Ease Bulls  
\*Expected Calving Date: April 1-12, 2017  
\*Health/Vaccinations: These heifers have been brucellosis vaccinated with legible tattoos and have been vaccinated with Reprostar VL5 HB and poured with Dectomax. Three weeks prior to breeding, they were vaccinated with Bovishield Gold FP 5 VL5 HB, the most complete reproductive vaccine currently available. They have also received two vaccinations of Fusoguard for footrot protection and been given Long Range Dewormer.  
\*Comment An excellent set of heifers from a reputation ranch that is a long time Sitz Angus Customer. Bull purchases over the years has been between \$8000 and \$12000. These heifers are genetically programmed for carcass merit and maternal traits. The additional frame these females have will insure they produce a heavy calf. These are the Montana kind. Heifers were wintered out on grass and mineral until March 1.  
\*Ultra-sound preg tested by Dr. Chuck Gue and Dr. Ralph Miller and re-checked prior to the sale by Dr. Doug Reedy
