

Performance. Function. Balance.

Our focus is and has always been to raise the most functional, balanced trait cattle possible that excel at every segment of the industry. We have not wavered from that goal which began 31 years ago with two heifers from a family that has relied on the Black Angus cow since the 1940's. Our cattle are expected to perform with less input in the extreme climate and rugged terrain of the Bear Paw Mountains in North Central Montana.

We are a family owned and operated outfit that survives solely from our cowherd.

80 Coming 2-Year Old Bulls sell at our 7th Annual Sale on December 9th, 2015 at 1:00 pm

About the Bulls

- ❖ NO hoof trimming and NO creep
- ❖ Only the top 50% of the 2014 calf crop make the sale
- ❖ Tested for Zoetis i50K, Performance and Fertility
- ❖ Graze one of our roughest pastures for the summer as yearlings
- ❖ Developed slowly at home to insure soundness and longevity
- ❖ Put more trust in these older, more mature bulls to do the job
- ❖ Backed by one of the best guarantees in the business
