All Bulls Carcass Ultra-
Sounded & tested
negative for PI BVD.
Bulls wintered free until April 1.

Greetings Folks,

We would like to welcome you and look forward to seeing you at our Annual RANGE CALVED – RANGE RAISED[®] Calving ease sale January 16, 2010 in Buffalo Wyoming.

We follow the same philosophy in our spring calving cows as we do in our RANGE CALVED RANGE RAISED[®] summer calving program. All of the cows calve out on their own with genetic selection of lighter birth weights in the spring herd.

To range calve we must have predictable sires that calve easily and leave a quality product. You will note over 85 of the bulls sell with the influence of OCC Emblazon 854E, more than anywhere else in North America. This is for one simple reason, these genetics have excelled in our environment in a dominant way. We are breeding these genetics heavily into our cowherd because it leaves us an exceptional product and we believe it will do the same for you.

As we have bred these females for generation after generation we have found that a certain body type evolves that fits the ideal type of female that can survive and thrive under these conditions. Moderate framed cows that are easy doing, productive, have good udders, and exceptional mothering ability rise to the top. Survival and vigor of newborn calves is essential and bred in for generations. You will note on the Calving Ease Direct Scores generated by the AAA that many of our reference sires are among the top 2% for calving ease in the breed. This is not a result of breeding for a number, but breeding for a certain type of animal that works, and having that type reflected in those scores. The number we invest in is problem free cattle that are profitable to raise for our customers and ourselves.

Northern Livestock Video will be broadcasting our sale via satellite on Dish Network Channel 219. If weather or distance prohibits you from making it to Buffalo please contact Kendrick Redland or Marcy Livestock Services and ask about our Guaranteed Bid Program. There is a 100% satisfaction guarantee for cattle purchased in your absence if you contact us and we assist you with your purchase.

We invite you to evaluate this group of deep bodied, easy fleshing, heavy muscled, calving ease bulls for your program. Don't hesitate to give us a call anytime if we can be of further assistance. We look forward to seeing you and hope you can join us for lunch starting at 11:30 a.m. on sale day, January 16th 2010.

BIDS: Prior to the sale, bids can be phoned into Kendrick Redland at (home) 307 -347-2270 or (mobile phone) 307-272-5704 **after January 14** you can reach Kendrick at Buffalo Livestock Auction 307-684-0789 or in the evenings at Comfort Inn 307-684-9564 or George Marcy at his mobile phone 308-430-2005.

TRUCKING: We will be glad to assist you on delivery to central points when purchases are \$3500 or more. Please contact us ahead of time if arrangements need to be made.

HERD HEALTH: All cattle sell with proper health papers for interstate shipment. A rigid herd health program is followed. All cattle selling have been calfhood vaccinated with 7 Way Somnus at branding and again at weaning along with IBR, PI3, BVD, BRSV and Ivomec Pour On. All bulls have been fertility tested and scrotal measured and are guaranteed breeders. All bulls tested negative for PI BVD

RETAINED INTEREST: Redland's will retain a 1/3 semen interest in all bulls selling..

SUPPLEMENT SHEET: A supplement sheet will be posted with updated weights, scrotals and sale order on Redlands' website at www.Redlandangus.com as soon as the information is available.

Announcements from the block will take precedence over information in this catalog.

GUARANTEE

All bulls selling for \$2,000 or more will be covered 50% by **Redland Black Angus** if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between **Redland Black Angus** and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2010.

Example 1: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus one-half any salvage value will be given to the buyer.

Example 2: A \$2,000 bull is injured and will not heal. A credit of \$1,000 minus one-half of any salvage value will be given to the buyer.

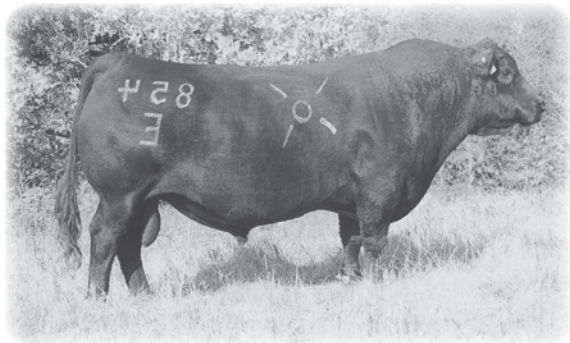

Example 3: A \$1,750 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

This is not a mortality policy. Mortality coverage can be purchased sale day.

Range Calved – Range Raised is a registered trademark of Redland Angus.

- Over 85 bulls sell carrying his influence including 28 bulls selling out of direct Emblazon daughters. We have used Emblazon heavily, he is a prepotent, dominant sire that stamps his characteristics in his progeny with tremendous uniformity. His genetic traits excel in our part of the country. His daughters fit our program very well!
- Emblazon is the #1 high accuracy bull in the breed for Sweaning, the American Angus Association dollar value for cow efficiency per # of calf weaned.
- Emblazon is an extraordinary calving ease sire, we have used him extensively to range calve heifers. His daughters have near perfect udders.
- Emblazon is a deep ribbed, thick quartered bull that is smooth shouldered and has produced as good a females that walk, for us, under range conditions. They are easy keeping, good uddered and very consistent.

- Missing Link ranks in the top 2% of the breed for Calving Ease Direct. He is a sure fire heifer bull that breeds style, fleshing ability and muscle. He. We used him very successfully on range calving heifers.
- Missing Link is sired by the great proven Argentine AI sire OCC Headliner and out of a beautiful OCC Glory daughter whose dam, Erica 816 B, is Emblazon's full sister.
- Missing Link sires sons that are deep bodied, stout and well made. Some of the widest based, thickest bulls in the sale are out of this popular young sire.
- Missing Link's granddam is a full sister to Emblazon. His young daughters in production are said to be outstanding.

- Moderator is another sure fire heifer bull that ranks in the top 2% of all calving ease sires for Calving Ease Direct with a score of +12.
- Moderator is linebred for consistency. He is double bred Emblazon grandson and sires perfect uddered, easy keeping, moderate framed females. He had an excellent scrotal EPD of +.85 and a REA of +.30
- Moderator sires cattle that are extremely efficient, low maintenance and easy fleshing.

--	---

- Restyle has been a surefire heifer bull for us and we really like his first big group of sons that we are offering in this sale.
- Restyle's dam is a smooth made perfectly uddered female that is leaving daughters with the same easy fleshing, smooth made, high quality udders that she has. The first daughters we have in production look excellent.
- Restyle's sons are smooth shouldered with excellent phenotype and muscle. They look to be easy fleshing with a lot of rib and dimension.

---	---

- Homer sires sure-fire calving ease progeny that have really worked well for Redlands range calving their heifers. He is one of the highest combination bulls in the breed for calving ease and a high \$EN & \$W values.
- Homer is the result of a half sib mating and is double bred to Dixie Erica of C H 1019, the dam of O C C Emblazon. His sons have a lot of capacity and fleshing ability.
- Homer's daughters are easy fleshing, easy claving, females with excellent udders, plenty of milk and perfect teat placement. His daughters should be extremely efficient for dry tough country.

CALVING EASE DIRECT SCORE

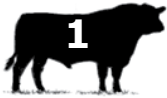

Calving Ease Direct Score is an EPD that predicts the average difference in calving ease with which a sire's calves will be born when he is bred to first calf heifers. Simply put, the higher the score, the easier calving the bull is predicted to be when bred to first calf heifers. We decided to add this EPD to our January sale catalog. We felt it might have some value to our customers for bulls you are considering for range calving heifers.

**REDLAND ANGUS IS THE SOURCE OF THE MOST
EMBLAZON SONS TO SELL IN NORTH AMERICA.**

**Over 85 Bulls
Sell Carrying His
Influence**

EMBLAZON is the #1 high accuracy bull in the breed for \$ Weaning, the new American Angus Association \$ Value that measures simple beef cow profit. It allows producers to measure the amount saved in cow energy requirements plus the profit those females generate on their calves. EMBLAZON exemplifies what the Redland Black Angus Range Calved – Range Raised® program is all about: deep ribbed, heavy muscled cattle that are highly efficient and thrive under harsh conditions to raise a big calf at weaning. EMBLAZON daughters are the best to ever graze the Redland pastures. They are moderate framed, beautifully uddered, heavy muscled, easy fleshing converters of grass.

Cows on winter range.

Small teats with well suspended udders are important to our range calved program for profitability and less labor. We breed for it generation after generation.

Emblazon is a true reflection of what we want in our RANGE CALVED - RANGE RAISED® females. They are as good uddered females as we have ever produced and forage well on what nature provides in every kind of weather. They are deep ribbed, high volume females that are extremely efficient and raise a big calf.

**Survival & vigor of calves is essential.
Bulls in this sale are bred and selected
for easy calving on heifers & cows**

**These bulls work for us under
Range Calved-Range Raised®
conditions. We think they will
do the same for you.**

2 year old range calving heifers.

Feed is the major cost in any cow/calf operation.

Research has demonstrated reproduction is from two to ten times more profitable than carcass traits.

High capacity, deep volume, easy fleshing convertors of grass produce high growth calves with optimum efficiency.
