Cody, Mindy, Tripp & Jett Sutherlin

Whether you are one of our repeat customers, neighbors and friends or you are considering our genetics for the first time, we thank you! We invite you to be our guest on March 7th, for our 15th Annual Bull Sale. We are excited to be offering you this set of bulls and appreciate you taking the time to look through the sale offering.

3C Cattle is owned and operated by Chad, Lacey & Cayden Sutherlin. Our Angus cow herd was started partially from offspring of the Genetic Connection cow herd. Genetic Connection is owned by Loren and the late Dorothy Brubaker, Chad's grandparents. Loren lives across the pasture from 3C Cattle and still has cows of his own. Grandpa helps with daily feeding chores, calving, harrowing and some farming in the Spring. Chad's brother, Cody, his wife Mindy, and their two sons, Tripp and Jett, own 406 Cattle. They are the 3rd partner in the Annual Sale. It has truly become a family affair. Even though the cattle are owned by different people they are all managed, daily by Chad, as one cow herd and ran entirely together all year around.

As always we concentrate on structurally correct, durable, heavy muscled, stout made bulls that offer longevity and extreme quality to your herd. Our bulls are based on the best maternal genetics, mixed with growth, carcass traits and conformation. We strive to produce bulls and replacement heifers that the commercial cattleman can use to make a real noticeable difference in their herds. All bulls have been ANGUS GS 50K tested to increase their accuracies and are sire verified. During calving all the cows are scored for feet and udder quality and are strictly culled if issues should arise. We have spent a couple decades building this cow herd and we assure you they have proven their longevity and durability.

The bulls are developed at Sutherlin Farms Feedlot. They are fed hay, silage, oats, corn and a protein supplement ration. The protein supplement is a blend of natural by-pass proteins that provide essential amino acids for improved feed conversion. This means we get the desired gains using less grain. It also helps produce more muscle and less fat. This ration is designed for a 3 lb/day gain.

Back by popular demand we are offering 45 Fancy Commercial Replacement Heifers. They have been given their pre-breeding vaccinations including: Vision 8, Pyramid 5 and poured with Dectomax Pour-On. See more information on page 13. All of these heifers have NO BRANDS, you can take them home and make them yours!

After reviewing the catalog, feel free to contact us if you would like to view the bulls or their dams prior to the sale, we would love for you to visit. Lunch will be served at 11:30 a.m. Be sure to visit www.3CCattleLLC.com for sale updates and to view videos of the bulls online. If you are unable to attend the sale please contact us to bid on the phone or preregister with Northern Livestock Video Auction at bid.northernlivestockvideo.com. Note: We did change to Northern Video for online bidding this year. We appreciate your business and hope to see all of you on March 7th!

Thank You

The 3C Crew!

**Join us for a Pre-Sale Tri-Tip Dinner
at the Sutherlin Sale Barn at
6:30 pm on Friday, March 6th, 2026**

Terms and Conditions

Cattle sell under the terms and conditions recommended by the American Angus Association. Cash on sale day, unless prior arrangements have been made. Announcements made the day of sale take precedence over all printed information.

Cattle Insurance

Kathy Moeykens, Novich Insurance Twin Bridges MT

Trucking

Free delivery within 500 miles of Stevensville, MT on all bulls sold. Free delivery in the Contiguous 48 states on any bulls selling for at least \$4500. The bulls will be delivered in March and April. Please Note: if you are out of state, health certificates will not be available sale day due to most state health testing requirements. Females are expected to be taken home by March 12th, unless other arrangements have been made. Let us know if you need assistance with trucking. \$100 discount on all bulls taken home the day of the sale!

3C Cattle, or Genetic Connection reserve the right to 1/2 semen interest on all bulls

Please bring this catalog with you sale day

Herd Health

All cattle will sell with proper health papers for interstate shipment. A complete breeding soundness exam has been performed. If you have questions about our health program contact us or our herd veterinarian at Blue Mountain Vet Clinic.

First Year Mortality Insurance

3C Cattle is offering to pay 1/2 the cost of a full year insurance policy covering mortality. Request for insurance must be made on sale day.

First Breeding Season Guarantee

This will be our guarantee on all bulls opting out of the insurance. All bulls selling for \$4500 or more will be covered 50% by 3C Cattle if they are injured during their first breeding season. This guarantee does not include death as that can be insured for. Breeding season is defined as a 90 day period following the first turnout of bulls. Fifty percent of the value of the injured bull minus one-half the salvage value, will be given only as a credit in a future 3C Cattle sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between 3C Cattle and the buyer. All injured bulls must be diagnosed by a veterinarian. We also reserve the right to a second opinion by a veterinarian of our choice. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2026.

EPDs

EPDs are current as of February 10, 2026. Updated EPDs can be viewed at www.angus.org

All bulls have been Genomic Tested as well as DNA typed to their Sire. More information on page 2.

Transportation and Lodging

Bitterroot River Inn - Hamilton 877-274-8274
Days Inn - Lolo, MT 406-273-2121
Missoula International Airport is only 30 miles away

BONUS THIS YEAR! For bull buyers in attendance at the sale, a name will be drawn at the conclusion of the sale to give away a \$500 credit towards a bull purchased! Be sure to stay till the end!

Driving the science of better breeding

There's little room for error in the cattle business. You need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI[®]) provides it through genomically-enhanced expected progeny differences (GE-EPDs). GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association[®], home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

All bulls in the offering have been Angus GS Tested to increase accuracies and to be sire verified.

In fact, GE-EPDs on unproven animals have the same level of accuracy as if they had recorded 7-33 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	24	Heifer Pregnancy	28
Calving Ease Maternal	18	Maternal Milk	33
Birth Weight	22	Mature Weight	14
Weaning Weight	25	Mature Height	9
Yearling Weight	20	Carcass Weight	13
Yearling Height	15	Marbling Score	10
Dry Matter Intake	12	Ribeye Area	11
Scrotal Circumference	12	Backfat Thickness	11
Docility	10	Teat Size	12
Foot Claw Set	13	Udder Suspension	13
Foot Angle	12	Pulmonary Arterial Pressure	7
		Hair Shed Score	10

How do you know if EPDs are genomically-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS[™] powered by partner Neogen GeneSeek or the HD50K by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

Angus.org/AGI

NEW Online Bidding Platform!

Desktop

1. It is best to use the Google Chrome web browser.
2. Pre-Register at least one day prior to the sale.
3. Go to bid.northernlivestockvideo.com and click "Get Approved to Bid".
4. Doing this will prompt you to create an account, after which you will fill out a bidder approval application.
5. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided.
6. On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!

Mobile

Use your mobile device to download the Northern Livestock Auction App and follow the above steps to get approved.

There is an instructional video on how to register to bid on our website, www.northernlivestockvideo.com

Phone Bidding

Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone. To register with NLVA call 866-616-5035 Before Sale Day.

Northern's Sale Day Bid Line: 1-406-245-0889.

View the Online CATALOG and VIDEO CLIP of each BULL selling at www.northernlivestockvideo.com.

Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.

DEDICATED. COMMITTED.

The 3C cow herd is a proud member of the Maternal Plus Total Herd Enrollment Program.

WHOLE HERD REPORTING WITH MATERNALPLUS®

Raising quality registered Angus cattle takes **COMMITMENT**.

As your genetic supplier, we are **DEDICATED** to not only improve today's genetics, but also prepare for the future of the Angus breed. We believe a commitment to improvement starts with the female.

Commit to the female — commit to MaternalPlus®.

Contact Customer Service at 816-383-5100 or angus@angus.org for more information.

Yearling Bull Actual Weights

Below is a chart of the bull's actual weights and average daily gains (ADG). September 28, 2025 is the day the bulls were weaned off their dams and the day the actual weaning weights were turned in on all the bulls. The Angus Association uses this weight to calculate the adjusted weaning weight so all bulls can be compared evenly as to what they weighed at 205 days of age. The birth dates on the bulls range from 01/20/2025 to 03/07/2025 so all of the adjusted weaning & yearling weights are listed on the bull's lot pages making easier to compare the bulls at different ages.

Lot #	Reg No.	Name	Birth Date	Act WW 9/28/25	Weight 11/10/25	Weight 1/20/26	Act YW ADG

Commercial Angus Replacement Heifers

These heifers were maintained the same as our registered heifers. They have been given their pre-breeding vaccinations including: Vision 8, Pyramid 5 and poured with Dectomax Pour-On. We are offering a total of 43 head of these fancy heifers. They should average 800 pounds at sale time. The heifers will sell in minimum lots of 5 head. The highest bidder will have the option of purchasing 5, 10, 15 and so on in increments of 5 or they can buy the whole pen. If that person doesn't buy all of the heifers, they will continue to be sold in lots of 5, until the remainder of each pen is sold. The heifers are separated into two pens. All of these heifers have NO BRAND, you can take them home and make them yours!

MAKE YOUR CATTLE STAND OUT

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating our cattle with AngusLinkSM programs: the Genetic Merit ScorecardSM and AngusVerifiedSM.

ANGUSLINKSM
**GENETIC
MERIT**
SCORECARDSM

The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.

ANGUS
VERIFIEDSM

AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day.

Users of AngusLink programs earn **\$13-15/CWT PREMIUMS** on average. Give us a call, and learn how to claim your competitive edge with AngusLink value-added programs.

ANGUSLINKSM
VALUE ADDED PROGRAMS

ANGUSLINK.COM | 816-383-5100

The Genetic Merit Scorecard and AngusVerified are administered by IMI Global.

American Angus Association \$Value Indexes

Maternal Weaned Calf Value (\$M), an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Weaned Calf Value (\$W), an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. \$W assumes that producers retain 20% of their female progeny for replacements and sell the rest of their cull female and male progeny as feeder calves. Over time, increased selection pressure on \$W will increase weaning and maternal milk traits while also continuing to increase mature cow size.

Feedlot Value (\$F), an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

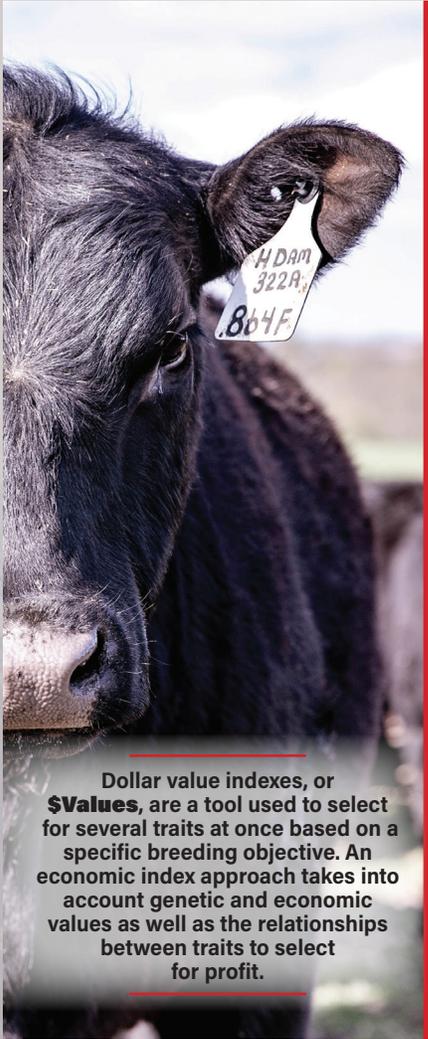

Grid Value (\$G), an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

Beef Value (\$B), an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny post-weaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Combined Value (\$C), an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.

Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

Thank you for sponsoring the lunch!

Growing your future.

With over a century financing agriculture, we know firsthand the challenges and rewards you face every day. Let's work together to help you build your best future.
