**DILLON LIVESTOCK AUCTION**

*Selling 115+ Yearling Bulls*

*PAP Tested <> Fertility Tested <> Maternally Minded <> Range Functional <> Easier Calving <> with lots of performance!*

## Welcome to the 2026 Split Diamond 35th Annual Value Added Black Angus Bull Sale!

Welcome dear friends, cattle enthusiast and our valued customers!

This year marks our 35th year raising and selling Angus cattle. It is with great appreciation from us to all of you that we say thank you for coming with us on this journey.

It truly is a great time to be in the beef business, with an all-time high in demand for quality protein it is a historic and exciting time. The future looks bright with exceptional prices for calves, bred cows, pairs and it looks to be only to be getting stronger again. What we are offering is an excellent choice for cattle producers that sell by the pound and still want to raise females to continue years of functional, efficient service. A great detail of thought and investment through new herd sires and donor cows has been put into these genetics to achieve just that.

When you study the bulls here, you know we have put every resource available to bring YOU the Best of the Best. When you sell your calves by the pound, then you are going to appreciate weaning EPD's that are going to put more dollars in your pocket. Our Best of the Best have been genetically tested and parent verified through either the Angus GS or Zoetis 50K to ensure the accuracy and predictability in our EPD's. You will notice that our catalog provides you with a calving ease star rating for each bull again this year for more information on the ratings, see page 5. Our strong maternal cow herd has been developed to ensure that calving ease is a priority.

This year is no different with the new sire groups of **Basin Jameson's** sons who will add unequalled performance, foot quality and top end Maternal genetics. Our owned **Connealy Expo** who starts with maternal excellence backed by 3 generations of Pathfinder Dams his sons add calving ease, length of spine, good feet and topped the sire groups for **ADG** in our performance test. **Quantum** was also added, his sons add carcass merit, calving ease, hind quarter thickness and does not sacrifice the important maternal traits we are looking for. Other sale highlights include **EZAR Step UP** 2025 sale standout along with our owned **Sitz Threshold** and **Sitz Royalty** who's sons topped the Sitz Fall 2025 sale this past December. **Royalty** is unmatched in calving ease, disposition, PAP and maternal genetics.

It is with great pride and dedication to announce that this year marks our 15th year of continuous PAP testing. With all the bulls tested having a combined average of 39. We have also been PAP testing the replacement heifers for the last 9 years with 136 tested having a combined average of 37. We feel it is very important for us and anyone who uses our genetics. View Page 4 for further information.

Steve & Linda

We would like to give a huge and much deserved thank you to all our helping hands throughout the year. It would not be possible without our ranch crew of Nacho and Amy Rodriguez, Rachel and Tommy Krug, Garret and Sierra Pack, Sharmen Scafani and her family, Ken Hartwig and new addition Cadi Rodriguez.

Nacho & Amy Rodriguez

We welcome and invite you to view the Best of to Best of this year's sale at the ranch before the Tuesday Prior to the sale on Thursday March 5th. Bulls will be available for viewing at Dillon Livestock Auction until sale time Thursday at 1 PM MST.

Rachel & Tommy Krug

Hans, Diana, & Oakley

We are sincerely grateful for your interest and we would like your business, but most of all we want your friendship. Your Success is our success.

Garret & Sierra Pack

With warm regards,  
Steve, Linda, Hans, Diana, Oakley and Crew.

# 35<sup>th</sup> Annual Black Angus Bull Sale

## Thursday, March 5, 2026

Lunch at 11:30 am • Sale at 1:00 pm MST  
Dillon Livestock Auction • Dillon, Montana

### 115 Yearling Bulls Sell!

### SALE LOCATION

Dillon Livestock Auction, located 5 miles south of Dillon, MT on the Frontage Road east of Interstate 15 at 5747 State Hwy 91 S, Dillon, MT

### SCHEDULE

Bull Viewing – Tuesday, March 3rd - Thursday, March 5th at the sale site.

Complimentary Lunch – 11:30 AM MST Thursday, March 5th, 2026

*Provided by Jerry McDonald of Blacktail Station*

Angus Bull Auction – 1:00 PM MST Thursday, March 5th, 2026

### AUCTIONEER

Joe Goggins ..... 406-861-5664

### REPRESENTATIVES

Kurt Kangas, American Angus Assoc.. ..... 406-366-4190

John Goggins, Western Ag Reporter. .... 406-698-4159

Andy Rest, Cattle Business Weekly..... 406-670-5678

Jeff Thomas, Prairie Star. .... 406-581-8859

Bo Bevis, Northern Livestock Video Auction. .... 406-390-3134

### HOTEL ACCOMMODATIONS

FairBridge Inn

580 Sinclair St. • Dillon, MT 59725 • 406-683-9809

Ask for the Split Diamond Ranch Bull Sale Rates

### DELIVERY

Free delivery of your bull purchases up to 500 miles from the sale site; beyond at cost.

### VOLUME DISCOUNT

3 - 5 bulls 5% discount, 6+ bulls 10% discount. \$100 rebate per bull for hauling your purchases home on sale day.

### RETAINED INTEREST

Split Diamond Ranch retains a 1/3 revenue share on all bulls sold in the sale. Purchaser has 100% possession and salvage value. Unless otherwise stated.

### PAP TESTING

All bulls PAP tested. See page 4 for more details.

### HERD HEALTH

Split Diamond Bulls are on a complete health program from birth until sale day. At birth, they receive Inforce 3, Alpha 7 C&D. At Branding, they receive Vista Once, Vision 8, Nasalgen 3 and Eye Site, plus Dectomax Injectable. At weaning time, they receive Vision 8/Somnus, plus a Somubac Booster and Ivermectin Pour On. In November, they received their Fuso Guard (foot rot) and Wart Vaccine with a booster to follow. In February they received Vista 5 VL 5. Complete fertility Screening performed by Dr. Anika Ward with Tobacco Root Veterinary.

**ALL Split Diamond Bulls have the BVD ELISA Test to identify PI Cattle. All Bulls tested Negative.**

### PERFORMANCE DATA

All bulls were performance tested. Complete, accurate performance and carcass EPDs are provided on every bull selling.

### TERMS

Terms of the sale are cash, unless prior arrangements have been made with Steve Buckner.

### FIRST BREEDING SEASON INSURANCE

All bulls will be covered 50% by Split Diamond Ranch if they are injured during their first breeding season. Breeding is defined as the 90-day period following the first turnout of the bulls. 50% of the value of the injured bull, minus salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2026.

### EPDs

EPDs are current as of February 4th, 2026.

Updated EPDs can be viewed at [www.angus.org](http://www.angus.org).

### QR CODES

Use the QR Codes to view lot videos! Open the camera app on your phone and hold it over the QR code. A link will pop up to click on that will take you to the video for that lot.

**Announcements from the auction block take precedence over any printed material.**

# Absentee Bidding

## Phone Orders

Buyers unable to attend the sale may call or send their bids to the owners Steve Buckner or Hans Buckner. To discuss the sale offering, call us several days prior to the sale and describe your needs and budget and we can select your genetics for you. We can bid on the animal for you and pay only the bid price of the animal established by the auction. Bids are handled in confidence with **SATISFACTION GUARANTEED** on all orders.

**Steve Buckner**

**Hans 406-581-0612**

**Barry McCoy 406-660-1889**

Welcome to a wonderful time to be head long into the Angus cattle business. The optimism in the country is inspiring as I travel the country. As I have told many I don't think I have met anybody this year that doesn't want to buy something. Just joking but it feels that way. Acquiring genetics that position your program for the future has never been more important. Split Diamond Ranch for generations has been a consistent source of the valued traits of Angus genetics.

The cowherd is consent in type but pedigree diverse for many programs in the great state of Montana. The Buckner family has never feared using unique sires that will bring genetic diversity and traits that will help them build their brand for balance and strong maternal traits. The offering this year has multiple top prospects and genetic depth across the entire offering. Like usual, great feet and legs for bulls that can cover ground, especially at altitude, are in abundance. The PAP scores from years of selection pressure are excellent this year without sacrificing performance over or under the hide.

In closing, this is my first year as part of the Split Diamond team and our first client in the great state of Montana. We are honored to be part and look forward to fulfilling our role of assisting great people with a national genetic perspective of the Angus purebred cattle business. We look forward to getting to know many of you digging in to become a valued team member for this historic program.

God Bless,

Chris Earl  
CK6 Consulting Services  
630-675-6559

# Online Bidding Information

**Bid through Northern Livestock Video Auction's NEW Online Bidding Platform** – *desktop and mobile friendly.*

## Desktop Bidding Instructions

1. Use the Google Chrome web browser.
2. Pre-register at least one day prior to the sale.
3. Go to **bid.northernlivestockvideo.com** and click **Get Approved to Bid**.
4. Create an account and complete the bidder approval application.
5. Once approved, activate your account via the email link. A buyer number will be issued.
6. On sale day, visit [www.northernlivestockvideo.com](http://www.northernlivestockvideo.com) to view and bid.

## Mobile Bidding Instructions

Download the **Northern App** on your mobile device and follow the same approval steps listed above. An instructional registration video is available at [www.northernlivestockvideo.com](http://www.northernlivestockvideo.com).

## Phone Bidding

Phone bidders must pre-register and have a valid bid number prior to sale day.  
Register: 866-616-5035 (before sale day)  
Sale Day Bid Line: 406-245-0889

*Successful bidders will be contacted following the sale to arrange payment and delivery.*

**Your Satisfaction is  
FULLY GUARANTEED  
on Sight Unseen Purchases.**

# PAP Testing

We know that testing at 5,000 ft in elevation is not the most ideal protocol. But we feel it is very important to find and limit the risk of High Altitude Disease (HAD). We have decided to do the PAP test at our home ranch in an attempt to get as correct information as we can concerning a PAP score to our customers increasing the odds in the selection of a bull suitable for high altitude use. Scores of less than 41 have a greater than 70% accuracy of remaining low and are a good risk for use in high elevation. Scores 42 – 46 should be considered moderate risk and difficult to predict high altitude use. Scores 47 and greater tested at the elevation of our ranch should not be used at high elevations. All these bulls should be retested once they have moved to their new home if high elevation is of concern to your operation.

All our replacement heifers and sale bulls were grazed at 6000 ft. or higher for the summer. We brought the bulls home in September to be weaned and developed them for the sale.

We have waited to perform the test until the majority of the bulls are 12 months of age, **evidence points to testing bulls at an older age (at or equal to 12 months of age)** will increase our accuracy levels of the PAP test. We should see accuracy levels in the 65% to 70% range even though the altitude at testing time is not at 6000 ft. or higher.

All the values will be available sale day and will be posted on our website [www.splitdiamond.com](http://www.splitdiamond.com) for viewing before the sale. As with a lot of tests, this is not a concrete marker for High Altitude Sickness however we feel it is an important tool for recognizing problem genetics before they start. We have enlisted the expertise and guidance of Dr. Ben Abbey from Pioneer Animal Health who is one of 7 Nationally Recognized Vets to perform this test to be reported to the Angus Association. He has recently completed a continuing education program for the PAP testing protocol.

**If you have any questions, Call Dr. Ben Abbey at: Office 406-683-9397 or Cell 406-660-1412.**

**HERE IS OUR GUARANTEE:** If you buy a bull that has a PAP score of 44 or less. Take the bull home to your elevation and keep him at that elevation the required amount of time for a re-test. We will pay the cost of the re-test. Then retest the bull, if he does not give a satisfactory score at your altitude by a certified PAP testing vet we will refund you the purchase price and take the bull back. You can buy with confidence from Split Diamond Ranch that all our bulls are guaranteed.

Carcass Ribeye (RE)	17
Carcass Fat (FAT)	14

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

Zoetis is pleased to announce HD 50K™ for Angus, a new genotyping platform developed in partnership with AGI for Angus seedstock producers. HD 50K™ for Angus replaces i50K™ and the previous version of HD 50K, and represents the latest advancement in Angus genotyping technology.

Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

- Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs
- Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)
- The ability to make more rapid progress for traits that are important to you, due to:
  - more accurate selection
  - easier identification of genetic outliers
  - the ability to propagate young animals with confidence earlier in their lives

***All of the bulls in the Split Diamond Angus Bull Sale have been verified using Zoetis HD50K.***

# Understanding EPDs

**Expected Progeny Difference (EPD)**, is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

## \$Values

**Weaned Calf Value (\$W)**, an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

**Maternal Weaned Calf Value (\$M)**, an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

**Beef Value (\$B)**, an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B value combines the contributions of \$F and \$G.

**Combined Value (\$C)**, an index expressed in dollars per head which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B). \$C is a linear combination of \$M and \$B. The formula to calculate \$C on any given animal is simple:  $\$C = \$M + (1.297 * \$B)$ .

## Carcass EPDs

**Carcass Weight EPD (CW)**, is a predictor of transmitting ability for hot carcass weight.

**Marbling fat EPD (Marb)**, is a predictor of the difference in a sire's progeny for percent intramuscular fat in the ribeye muscle compared to other sires.

**Ribeye Area EPD (RE)**, is a predictor of the difference in square inches of ultrasound ribeye area of a sire's progeny compared to the progeny of other sires.

**Fat Thickness EPD (FAT)**, expressed in inches, is a predictor of the difference in ultrasound fat thickness at the 12th rib of a sire's progeny compared to the progeny of other sires. It includes the weighted average of 60% of the rib fat measurement and 40% of the rump fat measurement.

## Scrotal Measurements

All of our sale bulls yearling data including weight, height, and scrotal measurements were done on January 26, 2026.

## Production & Maternal EPDs

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which an sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight EPD (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight EPD (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight EPD (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**Calving Ease Maternal (CEM)**, is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

**Maternal Milk EPD (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

## Calving Ease Stars Explained

To determine the calving ease is a multi-faceted attempt to predict the ease in which a heifer has the ability to calve on her own. We have used all the following to make a predictor for our customers to easily identify Bulls that would be suited for the use of breeding heifers. Actual Birth Weight, BW EPD, CED EPD, Genomic Scores, Dams Birth Ratios, Dams BW EPD, Sire EPD and past experience of calving our own heifers and cows.

- ★ ★ ★ = Suitable to breed most every heifer and all cows
- ★ ★ = Better suited for larger framed heifers that weigh over 950 at calving time.
- ★ = Not Recommended for heifers! Use only on cows!

# American Angus Association \$Value Indexes

Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

**ANGUS**  
THE BUSINESS BREED

**Maternal Weaned Calf Value (\$M)**, an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

**Weaned Calf Value (\$W)**, an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. \$W assumes that producers retain 20% of their female progeny for replacements and sell the rest of their cull female and male progeny as feeder calves. Over time, increased selection pressure on \$W will increase weaning and maternal milk traits while also continuing to increase mature cow size.

**Feedlot Value (\$F)**, an index expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

**Grid Value (\$G)**, an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

**Beef Value (\$B)**, an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

**Combined Value (\$C)**, an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.

Badlands 4072 exemplifies maternal, performance and phenotypic excellence. He combines length of spine and center body mass with excellent feet and structure we are looking for and can appreciate. Backed by highly sought after genetics who have proven themselves and have been very well received across the country.

Look for 4072 to excel in multi traits needed today in our ever-changing cattle business. We are very excited for this addition.

Summation is a moderate framed, wide based, deep flanked individual that is free moving and extremely docile. With large scrotal genetics he exceeds the sum of great parts.

Ranks in top 10% for CED, SC, Claw, DOC, PAP, MARB, \$M, \$C. Use to improve foot quality, Carcass, Muscle in a real-world package that is suited for higher elevations without sacrificing growth and maternal qualities.

New genetics from a proven source. Pilot embodies what we are looking for in a bull. A long made, deep chested, easy fleshing calving ease bull. He excels as a multi trait leader with 20+ Epds ranking above 25% in the breed.

Use Pilot to enhance calving ease, fertility, heart health, marbling, milking ability and maternal excellence. Pilot 514M calves are coming easy with lots of vigor and go. Look for his sons and daughters to make an impact in the future.

Co-owned with Sitz Angus

Semen Available! Contact Hans for more information.

**ANGUS**  
THE BUSINESS BREED

## COMMITMENT.

Raising quality registered Angus cattle takes commitment. As your genetic supplier, we take that seriously.

That's why we participate in MaternalPlus®.

Through MaternalPlus, we devote extra time to tracking maternal traits beyond those normally required, ultimately targeting greater performance and predictability.

The data we choose to gather through this inventory-based program today sets the stage for reproductive and lifetime productivity tools tomorrow — tools to pioneer new ways of selecting the most profitable animals.

Herd improvement starts with smart decisions.

A commitment to the female starts with MaternalPlus. Contact AGI at 816-383-5100 or [agi@angus.org](mailto:agi@angus.org) for more information.

## ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

*Aim High*

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef*® brand.

**Only 1 in 4 non-parent Angus bulls qualify.**

*Minimum Genetic Requirements*

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

For more information on Targeting the Brand™ visit [CABcattle.com](http://CABcattle.com).

*Thank you to all of our customers for your continued support each year!*
