

THOUSAND HILLS

8th Annual Production Sale
Saturday • March 14, 2026

1 pm | Headwaters Livestock Auction Yards | Three Forks, MT

56 YEARLING BULLS | 10 YEARLING HEIFERS

ThousandHillsAngus.com

On behalf of our family, welcome to our 8th Annual Production Sale. We sincerely appreciate the trust and support of our customers and friends—your confidence allows us to do what we love every day, and we never take it for granted. We feel blessed every day to be a part of this industry.

Our first production sale was held in 2019, featuring 41 bulls. Since that time, Thousand Hills has walked through seasons of both challenge and change—drought, health setbacks, and most profoundly, the loss of Andy. Through every trial, we have been sustained by the grace of God and continue to believe that “every animal of the forest is HIS and the cattle on a thousand hills” (Psalm 50:10).

With gratitude and stepping out in that faith, we move forward into a significant generational transition. This year, stewardship of the herd passed to daughter Heidi Kool and her husband, Jason. As they step into leadership, Rick remains actively involved in daily operations, offering the wisdom and guidance that have shaped Thousand Hills into the program it is today.

While some things have evolved, our commitment to you has not. We remain dedicated to offering functional, dependable bulls and quality females you can count on year after year. We are proud to stand behind every bull we sell, and our responsibility doesn't end on sale day. We value every handshake, every visit, and every relationship built along the way.

This year's offering is an impressive set of bulls backed by a powerful sire lineup including **SITZ Incentive 704**, **Heiken Incentive 2030**, **LT Chosen 2132**, **LT Chiefton 1440**, **Pine Coulee Resource G708**, and our home-raised sires **TH Gunsmoke 255** and **TH Gunsmoke 0722**.

Our bulls are raised on mountain pasture and their mother's milk until weaning- not a creep feeder in sight. After returning home, they are turned out on a grass pasture and fed a weaning pellet before transitioning to a total mixed ration developed by our nutritionist, Dr. Tod Shenton of Cache Consulting.

This year, we are pleased to also offer 10 yearling heifers straight out of our replacement pen. They will be sold as commercial, but registration could be transferred if the buyer wishes to do so. These quality females will be bull bred to **A A R Overload** and **WW Load Up 4377** and set to calve in February. Heifers will be ultrasounded by Chuteside Vet in early June.

The foundation of our program is maternally driven genetics, with the belief that cows must calve annually, breed on time, and have the maternal ability to raise and wean calves year after year. Our herd longevity continues to exceed industry average. You may notice some higher birth weights in this year's offering; we believe that reflects performance—not problems. The maternal foundation, combined with added birth weight, translates into faster early growth and heavier calves at weaning.

The bulls and replacement females we offer are developed for fertility, longevity, docility, and structural soundness, while also possessing the phenotype and functionality needed to thrive in low-input, practical environments.

If you would like to look at the bulls prior to sale day, they will be located at the ranch until March 13th. We would be happy to have you stop by for a cup of coffee and a stroll through the bullpen.

We look forward to seeing you on sale day!

Rick & Halane

Jason, Heidi, Bridger & Colton

Kyle, Suzie & Kenna

We're proud to partner with Kyle, who produces the feed for our cattle through Thousand Hills farming operation and plays an important role in keeping our cattle performing at their best

Presale Dinner

Friday evening at Headwaters Livestock Auction Yards.
Please RSVP to 406-570-8992

Lunch

Lunch will be served the day of the sale beginning at 12 PM.

Driving Directions

From Interstate I-90, take exit 274 west of Three Forks, MT.
Turn north and continue for approximately 0.9 miles before
turning west on Wheatland Road. Travel roughly 0.4 miles &
Headwaters Livestock will be on your left.

Guarantee

We will stand behind these bulls 100% for the first breeding
season (90 days after the bull is turned out for breeding). If an
issue comes up, we will make it right.

Liability

All persons who attend this sale do so at their own risk, legal or
otherwise. Thousand Hills Angus assumes no liability for
property loss or or accident that may occur.

Terms and Conditions

All Cattle sell under the terms and conditions adopted by the
American Angus Association. Each animal becomes the risk of
the purchaser as soon as it is sold.

Thousand Hills Angus reserves the right to retain 1/3 semen
interest on any of the bulls in the offering.

Announcements made from the block take precedence over all
printed information.

Delivery and Wintering

We will winter your bulls at no charge until May 1st. If any
bulls need to stay with us after May 1, feeding arrangements
can be made.

Free delivery within 500 miles of the ranch

Pathfinders

Sires and dams in pedigrees are indicated by the # mark.

Herd Health

Our herd is on a vaccination program, developed in
conjunction with Chuteside Vet Clinic. Bulls are vaccinated
at branding, at weaning, and again at fertility testing. Bull
have been vaccinated with Fusogard (footrot) and have been
boostered. In addition, all 3, 4, and 5 year old cows are tested
for John's. Questions about the herd health program can be
directed to Chuteside Vet Clinic at 406-285-3923.

Welcome to The Thousand Hills Angus Annual Bull Sale!

This sale is a testament to the dedication, perseverance, and long-standing commitment of the Van Dyken family. Through years of hard work and careful decision-making, they have built a program grounded in integrity, resilience, and purpose.

The Van Dykens are people of strong values and unwavering work ethic. Their passion for raising top-quality Angus cattle is evident in every aspect of the operation. Guided by faith and a deep respect for the land and livestock entrusted to them, they have remained focused on doing things the right way, even when faced with challenges. That consistency of purpose is reflected in the cattle they produce.

At the core of the Thousand Hills Angus program is maternal strength. This cow herd has been thoughtfully developed over generations with an emphasis on calving ease, growth, soundness, and longevity. These maternally driven genetics are designed to work in real-world conditions and deliver long-term value. The cattle carry a distinct look and presence—one that speaks to functionality, balance, and quality.

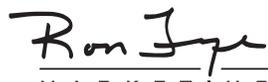

Progress within this program has been intentional. The Van Dykens continue to breed cattle that perform from the pasture to the rail, producing sires that add value at every level. Their commitment to building elite females is evident in the consistency and depth of the bulls offered each year.

As many of you who are familiar with the Thousand Hills program know, the next generation is playing an increasingly important role. Jason and Heidi Kool—Rick and Halane's daughter and son-in-law—have taken on expanded responsibilities within the operation and are actively involved in carrying this program forward. Be sure to visit with them on sale day.

We invite you to join us for this year's sale to experience the quality and consistency of Thousand Hills Angus firsthand. Just as importantly, we encourage you to spend time with the Van Dyken family. The cattle are impressive, but the people behind them are what truly set this program apart.

We look forward to seeing you on sale day.

Best Regards,

M A R K E T I N G

A GUIDE TO EPDS

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the American Angus Association database. EPDs are expressed in units of measure for the trait, plus or minus.

PRODUCTION

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

MATERNAL

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Heifer Pregnancy (HP), is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

\$VALUE INDEXES

Maternal Weaned Calf Value (\$M), an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W), an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

CARCASS

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

Our top-selling bull from 2019 sale. Check out this his \$W & \$M! He is in the top 4% & 1% for the Angus breed. From the moment he hit the ground, Gunsmoke has commanded attention with his impressive length and muscle.

Backed by an elite maternal line—both his granddam and great-granddam are Pathfinder cows, and his family boasts eight straight generations of cows producing seven or more calves —Gunsmoke delivers the kind of genetics that consistently produce cows that stick.

We've put Gunsmoke to work heavily in our AI program, and every year his calves impress. His daughters are among our absolute favorite cows to calve, combining effortless mothering ability with exceptional dispositions. If you're looking for a bull that brings performance, consistency, and maternal excellence to your herd, Gunsmoke sons are sure to deliver.

“Rezy,” as we call him, was our pick and the second high seller in Pine Coulee Angus’s 2020 sale, hailed as the best bull there. Pine Coulee Resource G708 is a thick well made bull with lots of mass. This thick Resource son extends down through his hip and shoulder. He’s easy moving with a wide base. G780 carries himself with the presence of a lasting herd bull. His daughter will be a true asset as his dam recorded 3 WR/113 and 2 YR/112. He is in the top 1% of the Angus breed for Heifer Pregnancy. His pedigree stacks two of the most influential cows in the Angus breed on top of each other, SAV Blackcap May 4136 on to the Sitz Everelda Entense 1905 cow family.

+16	-2.4	+69	+120	+0.17	+16.1	+23	+65	+4.8	+0.072	+71	+91

When we studied this pedigree—featuring Logo on the bottom side tracing back to Justice, both proven Pathfinder sires, along with a Pathfinder granddam—and paired it with his exceptional birth-to-weaning EPD spread, we knew he was a bull we wanted to add to our program. We have used him successfully on both heifers and mature cows, through AI and natural service, and have not had to assist a single one at calving.

We have been impressed with LT Chiefton 1440 because of the quality of his progeny—good-footed, high-performing calves with real maternal strength. With the influence of the Forever Lady cow family behind him, his daughters are sure to last, and his sons bring growth and carcass value that the market rewards. He continues to add quality, uniformity, and value to every set of calves.

WHY WE TEST WITH HD50K™ FROM ZOETIS

Powered by HD50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're confident that customers like you can minimize risk in their investment — and enhance the productivity of your cattle.

The benefits of buying HD50K-tested bulls and heifers goes beyond added accuracy for the complete range of traits for more productive daughters and progeny. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. You can also match the HD50K tested sires you buy from us to replacement heifers — through GeneMax® Advantage™ — to make better-informed breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with HD50K.

Commercial Yearling Heifers

Lot 57

10 commercial heifers right out of our replacement pen. Bull bred to calve in February to A A R Overload and WW Load Up 4377. They will be ultrasound pregged in early June by Chuteside Vet. Video of the heifers is available on our website and will be available on sale day. If you would like to see them in person, please let us know, we would be happy to make those arrangements.

+7	+1	+80	+132	+1.51	+13.2	+24	+1.13	+63	+0.035	+84	+84

Purchased from Arntzen Angus in 2025, we immediately incorporated this bull into our AI program and utilized him for natural-service clean up. Backed by the proven genetics of KG Justified and GDAR's Load Up, we were thoroughly impressed with both his numbers and phenotype. While his docility is in the top 1% of the breed and loves to be scratched on, he is an active, aggressive breeder and successfully covered a large group of second-cycle cows in 2025. We are excited to see his calves hit the ground this year.

+15	-2.5	+77	+131	+7.6	+14.0	+26	+7.6	+5.8	+0.050	+85	+96

This bull was purchased from Whistling Winds Angus and offers a pedigree and EPD profile we liked for advancing calving ease and maternal excellence within our program. His elite calving ease makes him an ideal heifer bull, while his added growth ensures performance is not sacrificed. He ranks in the top 3% of the breed for CED, top 4% for \$M, top 2% for docility, top 10% for Heifer Pregnancy, and top 15% for Functional Longevity. We look forward to seeing the performance of his sons and retaining daughters to further strengthen the maternal base of our herd.

We look forward to seeing you sale day!

We invite you to stop by the ranch anytime to view the bulls.
They will be hauled to Headwaters Livestock Auction on March 13th.

MAKE YOUR CATTLE STAND OUT

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating our cattle with AngusLinkSM programs: the Genetic Merit ScorecardSM and AngusVerifiedSM.

ANGUSLINKSM
**GENETIC
MERIT**
SCORECARDSM

The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.

**ANGUS
VERIFIED**SM

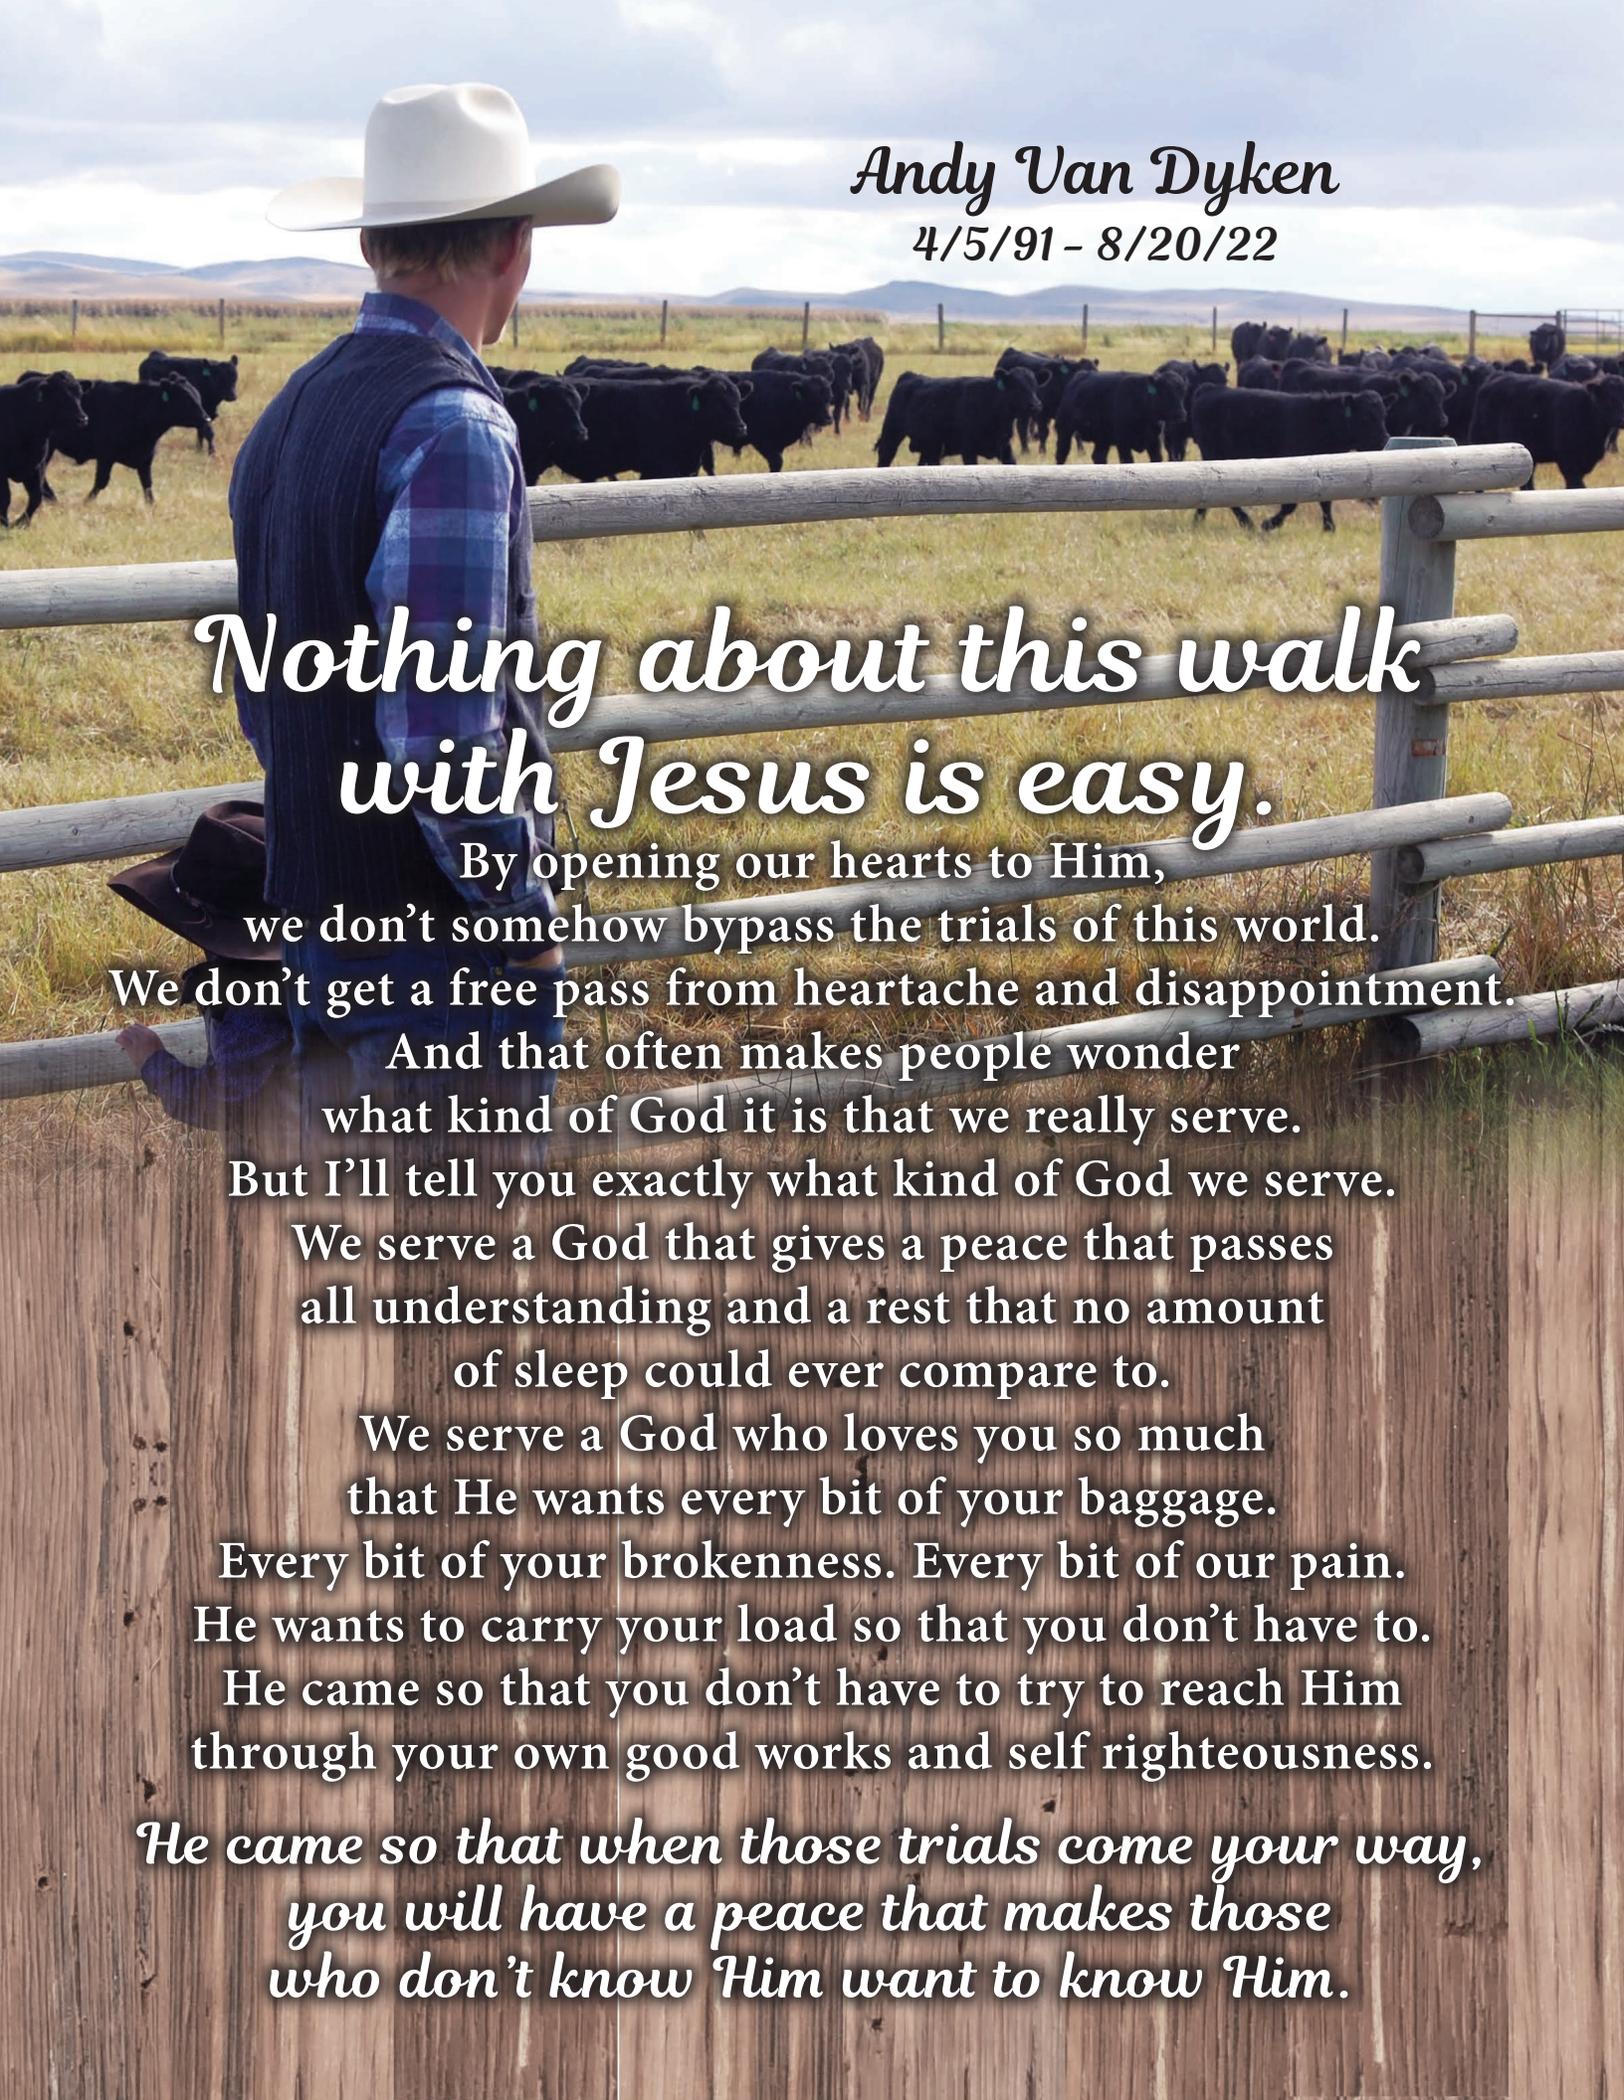

AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day.

Users of AngusLink programs earn **\$13-15/CWT PREMIUMS** on average. Give us a call, and learn how to claim your competitive edge with AngusLink value-added programs.

ANGUSLINKSM
VALUE ADDED PROGRAMS

ANGUSLINK.COM | 816-383-5100

The Genetic Merit Scorecard and AngusVerified are administered by IMI Global.

A man wearing a white cowboy hat, a blue plaid shirt, and a dark vest stands with his back to the camera, leaning on a wooden fence. He is looking out over a large herd of black cows in a grassy field. In the background, there are rolling hills under a cloudy sky.

Andy Van Dyken

4/5/91 - 8/20/22

*Nothing about this walk
with Jesus is easy.*

By opening our hearts to Him,
we don't somehow bypass the trials of this world.
We don't get a free pass from heartache and disappointment.

And that often makes people wonder
what kind of God it is that we really serve.
But I'll tell you exactly what kind of God we serve.

We serve a God that gives a peace that passes
all understanding and a rest that no amount
of sleep could ever compare to.

We serve a God who loves you so much
that He wants every bit of your baggage.
Every bit of your brokenness. Every bit of our pain.
He wants to carry your load so that you don't have to.
He came so that you don't have to try to reach Him
through your own good works and self righteousness.

*He came so that when those trials come your way,
you will have a peace that makes those
who don't know Him want to know Him.*
